MEET JAKE MARKS

OUR 2020 COVER CONTEST WINNER!

Jake Marks is a 20-year-old student in the Life Bridges Transition Program at Comal Independent School District in New Braunfels, Texas. For Jake, creative thinking helps him get inspired for sketching and cartooning. Self-expression through art is rewarding and motivating for Jake, finding it also to be a form of relaxation. Starting from early childhood, Jake has been sketching original cartoons, as well as those inspired by existing cartoons and people he sees in real life. He likes telling stories with his drawings in a format similar to a storyboard or comic book and takes pride in his carefully detailed art. Jake would like to have art incorporated into his career, including working with animation, character design, storyboarding, story writing, voiceover, and directing animations or puppetry productions. We're so excited to feature such an inspiring artist on the cover and throughout our 2020 catalog!

If you or someone you know is interested in submitting a design for our 2021 catalog cover, please visit our website for more information.

Teach five research-based ELA curricula with ease and consistency through our new **Literacy Software Solutions**. First, build foundational literacy skills like phonemic awareness and comprehension. Then, graduate on to grade-aligned content like writing paragraphs and researching topics. All software titles use evidence-based practices proven effective for students with significant disabilities: time delay, the system of least prompts, and errorless learning. You can buy apps from us or the designated Store. Customers using an iOS or Android device receive an access code to upgrade the app's corresponding Lite version (it's free) to the full version. For Mac and Windows, you can choose to download the software from the **Attainment Hub** (see pg. 67) or receive a disc for backup and/or installation.

LITERACY SOLUTION FOR CHROMEBOOK

NEW!

RESEARCH-BASED ELA CONTINUUM AT YOUR FINGERTIPS!

Literacy Solution for Chromebook

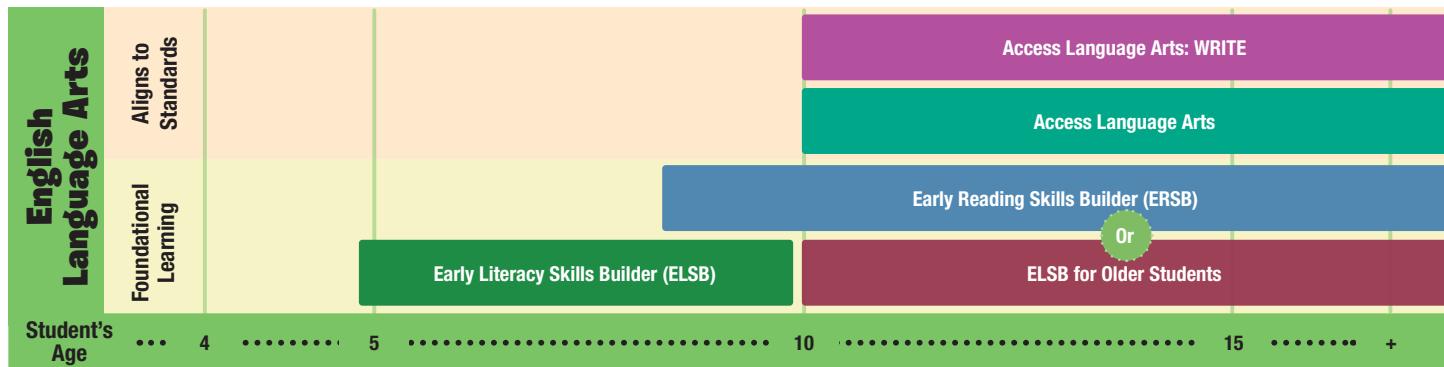

LSC-30J

\$1295.00

Includes: 2-in-1 touchscreen Chromebook, all 5 software applications, and 10-packs of the Student Workbooks for each curriculum—ELSB's *My Book About Me*, ERSB's *Champion Writer*, *Teaching to Standards: ELA's Daily Writing Journal*, and *Access Language Arts: WRITE's Graphic Organizer Student Workbook*.

Seamlessly implement an entire ELA curriculum across the grade bands with our new **Literacy Solution for Chromebook**. Introduce students to foundational literacy skills—conventions of print, phonemic awareness, letter-sound correspondence, and sight words—with the **Early Literacy Skills Builder (ELSB) Software**. For older students with significant intellectual disability or autism who still need to develop the foundations of literacy, try our **ELSB for Older Students Software** which explores the same objectives with a more age-appropriate theme. Once students have mastered these early literacy foundational skills, the **Early Reading Skills Builder (ERSB)** offers 26 progressive levels that follow an eight-step activity sequence. **ERSB** is age-neutral and, therefore, meets students' needs across the grade bands. An emphasis shifts from literacy and reading to English language arts skills once students transition into the **Access Language Arts Software** where eight popular works of literature like *Holes* and *The Outsiders* are highlighted. Lastly, the **Access Language Arts: WRITE Software** teaches students to construct an opinion paragraph with all the necessary components: a topic, introduction, opinion, reason, and conclusion. All software titles incorporate components of systematic instruction like the time-delay procedure, the system of least intrusive prompts, and prompting with specific feedback. Attainment's **Literacy Solution** contains all you need to implement this ELA curriculum across the grade bands! Includes five ELA apps, plus a 2-in-1 touchscreen Chromebook for student access and consumable Student Workbooks for each available title.

PASS

A RESEARCH-BASED PREREADING CURRICULUM FOR STUDENTS IN PRESCHOOL, EARLY CHILDHOOD, OR EARLY ELEMENTARY

Based on 10 years of research by Froma Roth, PhD, CCC-SLP; Colleen Worthington, MS, CCC-SLP; and Gary Troia, PhD, CCC-SLP

Leads to Reading

PASS seamlessly blends play and structure to teach phonological awareness skills. Games, off-the-shelf storybooks, and Goldie the puppet add appeal, while a scope and sequence with scripted lessons adds structure.

Students learn to rhyme, segment, and blend syllables in 76 progressive lessons. These incorporate storytime, singing, finger play, and movement activities. Students are guided through a step-by-step process that begins with sound recognition and ends with speech production. Four research studies have demonstrated that PASS builds the skills the National Reading Panel indicates are foundational to reading success. Visit our website for detailed research and alignment to national and state standards.

TELL ME

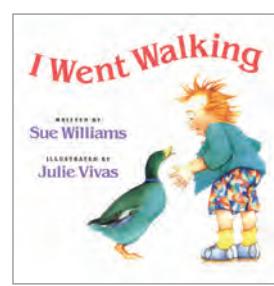

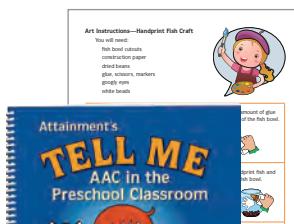

AAC IN THE PRESCHOOL CLASSROOM

By Carole Zangari, PhD, CCC-SLP and Lori Wise, MS

The **TELL ME** program is a classroom-wide approach to support children who are nonverbal or minimally verbal and are beginning users of augmentative and alternative communication (AAC). It focuses on a small set of high frequency words (core vocabulary) that children use throughout the day and helps teachers and speech and language pathologists structure lessons to teach and practice those words using research-supported strategies.

Using familiar books, such as *I Went Walking* (included) and *No, David*, preschool teams target core words in shared reading, shared writing, and classroom routines. The Tell Me program can be used with any AAC device, app, or system that includes core words like common verbs, pronouns, and prepositions. Parents are kept informed through weekly information packets.

The **TELL ME** manual describes the approach, activities, and teaching methods. Authors Carole Zangari and Lori Wise included 11 book-specific packets that give step-by-step guidance on teaching 4–6 core words in large group, small group, and individual activities.

GRADES PRE-K+

PASS

Curriculum

PASS-10J

\$495.00

Curriculum: Three Teacher's Guides: Rhyming, Blending, and Segmenting; Student Flip Book; Implementation Guide; Goldie the puppy puppet; 9 storybooks; 7 game boards with game pieces; 380 game cards; and other miscellaneous puppy-themed manipulatives.

RESEARCH

Four research studies showed that instruction using PASS has a significant positive effect on children's development of phonological awareness skills. In these studies, students receiving PASS instruction performed better on multiple measures of emergent literacy (e.g., PALS) than those receiving regular classroom instruction only. PASS instruction was implemented in conjunction with systematic training in the alphabetic principle. PASS shows significant promise for improving the phonological awareness skills of students who are at risk for educational failure in kindergarten and first grade.

TELL ME: AAC in the Preschool Classroom

Program

TM-P10J

\$149.00

Program: One manual, *I Went Walking* storybook, and USB flash drive for printouts.

FEATURES

- 10 shared reading and 10 shared writing lessons for 11 different books
- Activity suggestions for building AAC use in circle time, centers, snack, outside play, cooking, art, and more
- Weekly packets to help parents understand key AAC concepts and extend learning into the home
- Ready-to-print symbol cards for 4–6 core words in each book. Resources are provided for students using PCS, Smarty Symbols, Pixons, and manual signs
- Templates for art, cooking, and play activities
- Suggested apps for interactive play, learning, and practice with core vocabulary

Pathways to Literacy Starter Kit

A STARTER KIT, FEATURING THE STORY JAMAICA'S FIND, BRIDGES OBJECT USE TO PICTURE UNDERSTANDING

By Angel Lee, PhD; Pamela Mims, PhD; and Diane Browder, PhD

The **Pathways to Literacy Starter Kit** is geared toward students with significant disabilities who use alternative response modes to communicate. This kit provides a systematic way to bridge student understanding from concrete object use to picture representation. One adapted storybook—*Jamaica's Find*—along with a corresponding **Teacher's Guide** with five progressive levels of instruction, models how to adapt and use any storybook to engage students. In addition, a **Big Button** communication device, story-related manipulatives for *Jamaica's Find*, a card set, and more are included in this kit. The five levels of instruction are outlined nicely in the **Jamaica's Find Teacher's Guide**, along with blank level scripts to be applied to additional books. Upon completion of all five levels of instruction, students can start instruction with Level 1, Lesson 1 of the **Early Literacy Skills Builder Starter Kit** or from the complete **ELSB Curriculum**.

Pathways to Literacy

Pathways to Literacy

FOR STUDENTS WITH SIGNIFICANT DEVELOPMENTAL DISABILITIES,
INCLUDING VISUALLY IMPAIRED AND NONVERBAL STUDENTS

By Angel Lee, PhD; Pamela Mims, PhD; and Diane Browder, PhD

Pathways to Literacy can help those who do not consistently use words, pictures, or other symbols to communicate. You'll learn strategies to improve your students' engagement with stories while systematically building comprehension and picture symbol use. Beginning levels rely heavily on object use throughout each story to make learning more concrete. In later lessons, pictures are used instead of objects and then faded. The scripted lessons model how to adapt and use any storybook to engage students and improve symbol use and comprehension. You'll be amazed at what your students will learn! A new **Extension Activity Book Set** is now available for students to practice and generalize skills learned.

and Angel Lee, PhD

BLENDED CURRICULUM

GRADES K-5

Early Literacy Skills Builder

Curriculum EL-SB10J \$695.00

Curriculum Plus EL-SB30J \$895.00

Curriculum: Implementation Guide; 6 Teacher's Guides; 6 Student Response Books; 6 Assessment Manuals; All About Moe Stories; Oh My, Apple Pie! Story; Moe the Frog Puppet; DVD for staff training; sight word flashcards; magnetic dry-erase board; Post-it flags; one consumable My Book About Me book; and discs with printable PDFs and other reproducible resources.

Curriculum Plus: The Curriculum plus a total of 10 consumable My Book About Me books, ELSB software for one device, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

Early Literacy Skills Builder (ELSB) is a powerful curriculum for students with significant developmental disabilities, including autism, who need to develop the foundations of literacy (conventions of print, phonemic awareness, letter-sound correspondence, and some sight word vocabulary). In addition, ELSB develops vocabulary knowledge and supports comprehension and writing awareness. It incorporates scripted lessons, prompting strategies for assisting students, assistive technology suggestions, and ongoing assessments. The eight ELSB levels include five structured lessons each. All students begin at Level 1, but students who are not responding to pictures begin at Level A.

Lessons are taught daily in small groups (or one-on-one) for the skill-building objectives. An additional story-based lesson (usually presented later in the day) using grade-level literature, helps students generalize the skills and gives them access to general education curricula. At the completion of each level, formal assessments are given. Levels are repeated until mastery is achieved.

ELSB is a blended curriculum that seamlessly integrates print materials with software on any device (page 13). Everything you need to implement this multiyear literacy curriculum is included. Follow ELSB with our reading curriculum, **Early Reading Skills Builder** (page 16). Or start slowly with our new **ELSB Starter Kit** (page 14)!

NEW
RESEARCH

ELSB AND INCLUSION

Funding Source: IES, National Center for Special Education Research

Purpose: To investigate the effectiveness of **ELSB**, specifically when it is implemented in small group contexts in general education settings.

Methodology: 80 students: severely impacted by intellectual disabilities or autism in 16 elementary schools in three states.

Final Outcome: Students with severe disabilities can benefit from comprehensive literacy instruction when implemented in general education settings.

For more research information visit
www.AttainmentCompany.com/elsb

ELSB Software

TEACH A RIGOROUS RESEARCH-BASED CURRICULUM
WITH EASE AND CONSISTENCY

Moe Flashcard game (sight words) Student avatar

Incorporate the best practices of systematic and direct instruction effortlessly. The software reads teacher scripts with appropriate inflections and pace, allowing you to focus solely on student behavior and learning. You can set up instruction as a class (three or four students) or individually. Begin by collaborating with each student to create a unique avatar. The presence of the avatar on-screen signals whose turn it is to respond. The software registers these responses in an ongoing student progress report.

Assessments at the end of each level are administered more quickly and accurately—and scored instantly! ELSB software includes Levels 1–7 and all 14 objectives. Use the software in conjunction with the print curriculum or as a stand-alone curriculum.

This software application has an easy-to-use interface and student management system and is touchscreen and switch compatible.

ELSB Starter Kit

A STARTER KIT FOR ELSB FEATURING TWO LEVELS

By Diane Browder, PhD; Susan Gibbs, PhD; Lynn Ahlgrim-Delzell, PhD;
Ginevra Courtade, PhD; and Angel Lee, PhD

ELSB Starter Kit

Starter Kit

EL-ST10J

\$299.00

Starter Kit: Implementation Guide with PDF disc, Teacher's Guide, Student Response Book, and Assessment Manual for Levels 1 and A, All About Moe Book, Moe the puppet, sight word flashcards, and staff training DVD.

The Early Literacy Skills Builder Starter Kit introduces students to all five of the National Reading Panel components, including phonemic awareness, with a friendly puppet named Moe. Materials are included for two starting levels with a detailed **Teacher's Guide**, **Student Response Book**, a storybook, and **Assessment Manual** for both levels. For students who do not respond well to pictures, begin at Level A, which relies heavily on object use paired with picture representation of the objects. For students who may already have established picture discrimination and awareness of books, start with Level 1, Lesson 1 to develop the foundations of literacy—conventions of print, phonemic awareness, letter-sound correspondence, and sight word vocabulary. Mastery of 75% or higher on the assessments ensure students are ready to move on to the next level of the **ELSB Curriculum**. Ideal for students in early education or students with significant developmental disabilities.

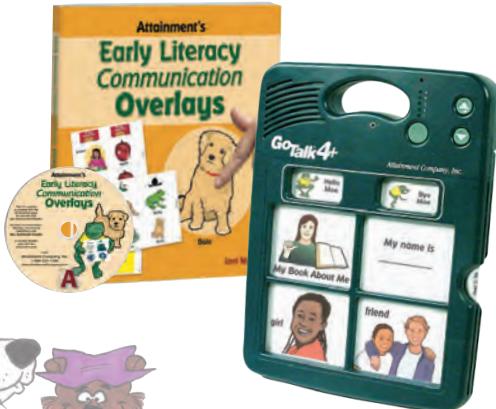

Early Literacy Communication Package

OVERLAYS BOOK AND GOTALK4+

By Joni Nygard, MS, CCC-CLP

The tear-out book pages are ready-made overlays that fit the GoTalk 4+. The 50 overlays complement the Early Literacy Skills Builder program.

Includes: Software and iPad app, spiralbound Sam Stories, Teacher's Guide, flash drive with electronic resources, and sight word and alphabet cards.

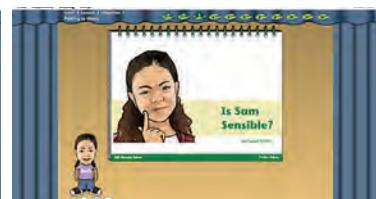

Log-in screen

Custom avatar creation

Lesson opening screen

Students listen to Sam Stories read to them and then answer questions

Meet Sam! She's the adolescent character featured in our new **Early Literacy Skills Builder for Older Students** curriculum. Your older students with significant intellectual disability or autism, who still need to develop the foundations of literacy, will have Sam to help them along the way.

Using the same scope and sequence as ELSB on page 12, this version was specifically designed to give older students, who have not been exposed to foundational reading skills, age-appropriate activities to learn. Seven levels present skills in 14 objectives including the conventions of print, phonemic awareness, letter-sound correspondence, listening comprehension, vocabulary, and writing. Skills increase in difficulty as students progress from Level 1 to Level 7.

The curriculum is delivered primarily via software or an iPad app. Ideas are provided for blending instruction with print activities. The program incorporates the best practices of systematic and direct instruction. The software directs the student, provides feedback, and gathers data on the student's performance. Instruction can be conducted with individual students or with groups. Students love creating an avatar to represent them. Avatars also appear on-screen to indicate whose turn in the group it is to respond.

In **Sam Stories**, the adventures of Sam, her family, and her friends, are read to students in the software. They can follow along using the spiralbound book provided. A writing activity focuses on new vocabulary. End-of-level assessments—scored instantly—help determine when to move students to the next level.

New phonics patterns are introduced at upper levels

Learned information (decoding sight words) is applied to connected text

The **Early Reading Skills Builder (ERSB)** curriculum is the **PERFECT** next step for students who have mastered early literacy foundational skills, such as those taught using ELSB, see page 12, and are ready to learn to read. Research has proven ERSB effective for students with an intellectual disability or autism, including those with complex communication needs. The curriculum blends traditional print materials (like books and manipulatives) with **Software** and an **iPad App**. The software helps learners blend sounds and segment words regardless of their verbal skills. It also creates an engaging learning environment for students and simplifies progress monitoring and assessment.

ERSB has 26 progressive levels with five structured lessons each. Lessons follow an eight-step activity sequence, which includes identifying, blending, and segmenting sounds; decoding words; reading sight words and connected text; and answering comprehension questions. In addition, students use their **Champion Writer** journals to reflect on what they learned. The new **Champion Writer Consumable Workbook** allows students to write directly into, and keep, their books at an economical price.

Instruction follows systematic prompting and feedback procedures, which are evidence-based practices for this population. The **Champion Reader** books use connected text passages that students use to apply the information learned in each level's activities.

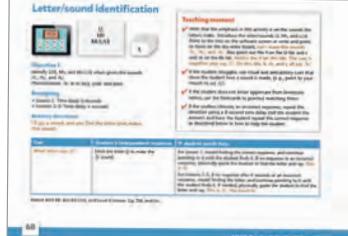

Early Reading Skills Builder (ERSB)

Curriculum Plus ER-SB30J \$595.00

Curriculum Plus: Software, iPad app, and print materials: Teacher's Guide, two sets of 4 Champion Reader books (8 total), 10 consumable Champion Writer Journals, 1 spiralbound Champion Writer journal, dry-erase board, 200 flashcards, a GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, samples of communication overlays, and PDFs on disc with a Classroom License for printouts.

Research Results

ERSB development and research was supported by an SBIR grant, shared between Attainment Company and the University of North Carolina at Charlotte. The first study focused on learning phonics with an AAC device. The second study used a randomized control protocol. The ERSB group had a significant interaction effect for letter-sound correspondence, decoding, and total scores.

GRADES K-5

Building with Stories

ADAPTED BOOKS FOR EARLY LITERACY FOR STUDENTS WITH MODERATE-TO-SEVERE DEVELOPMENTAL DISABILITIES

By Tracie Zakas, MS and Linda Schreiber, MS, CCC-SLP

10 award-winning storybooks

Complements ELSB

Building with Stories
Curriculum RT-20J \$495.00

Curriculum: Teacher's Manual, Student Materials book, 10 award-winning storybooks, PDF disc, and manipulatives.

LESSONS

- Align with national and state standards
- Provide students, ages 5-10, with access to the general education curriculum
- Give you more time for teaching and cut time needed for planning and adapting

Story-related objects to encourage student participation

This curriculum is based on the **Early Literacy Skills Builder (ELSB)** research from the University of North Carolina at Charlotte. The program contains 10 award-winning storybooks, a kit with directions for adapting them, corresponding lesson plans, a **Student Materials Book** for student responses, and story-related objects to encourage student participation. Lesson plans follow a ten-step framework that fosters vocabulary understanding, print awareness, listening comprehension, communication independence, and word knowledge. They also include AAC suggestions and scripted instruction. Stories chosen reflect diverse topics, address multicultural characters and settings, represent a variety of Lexile ranges and concepts, are found on many classroom reading lists, and, in most cases, are award winners (e.g., Caldecott or Newbery Awards). The adaptations help you to easily get children actively participating in storytime.

Read & Tell

AN ADAPTED LITERATURE COLLECTION

By Jean Slater and Megan Best

Read & Tell

Curriculum RT-10J \$259.00

Curriculum Plus RT-30J \$529.00

Curriculum: Instructor's Guide; 2 Student Readers; a Student Workbook; 2 consumable Student Workbooks; a set of posters; vocabulary, character, and setting cards for each piece of literature; a USB flash drive with 17 additional stories; and an image library containing character symbols, Picture It files, and PixWriter files.

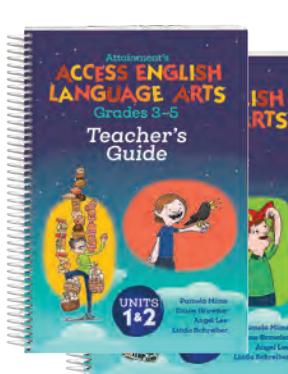

Curriculum Plus: The Curriculum plus 2 sets of 10 consumable Student Workbooks (20 total), the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

Thirty-two modified versions of novels like *Little House on the Prairie* and *The Lion, the Witch and the Wardrobe* cover age-appropriate literature while connecting it to grade-level standards for upper elementary and middle school. Fifteen of the 32 adapted novels are featured within two **Student Readers**. The additional 17 stories and lesson materials are provided on a **USB flash drive**. The **Instructor's Guide** is scripted and includes evidence-based practices like the time-delay procedure and the system of least intrusive prompts. Each adapted story includes vocabulary cards, character cards, setting cards, story grammar cards, posters, and picture-supported comprehension quizzes. You can apply the evidence-based instructional strategies and 12-step lesson framework to the 17 additional pieces of literature included in the electronic PDF files, or any story you choose. The **Read & Tell** consumable **Student Workbooks** include all chapter quizzes for the 15 printed novels.

Access English Language Arts Grades 3–5

A LITERACY-RICH CURRICULUM CLOSELY CONNECTED TO ELA STANDARDS FOR THE UPPER ELEMENTARY GRADES

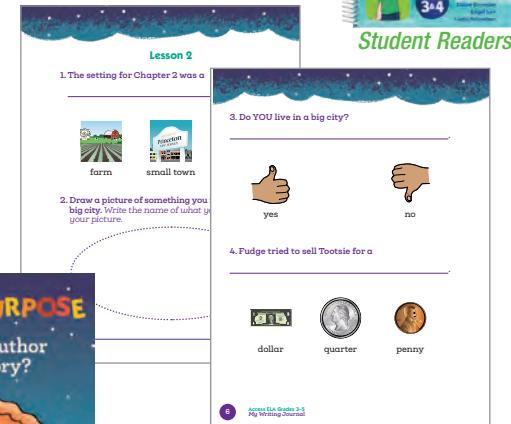

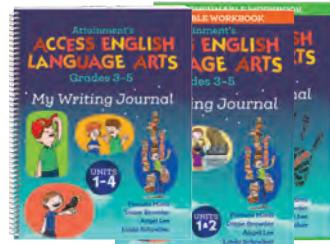

By Pamela Mims, PhD; Diane Browder, PhD; Angel Lee, PhD; and Linda Schreiber, MS, CCC-SLP, BCS-CL

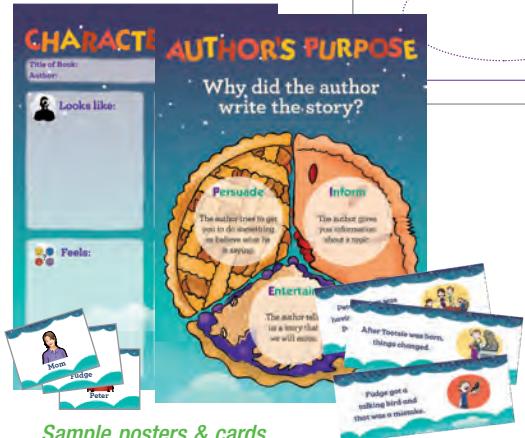

Teacher's Guide

Sample – Teacher's Guide

Sample – Writing Journal

Sample posters & cards

Pocket chart also included (not pictured)

Access English Language Arts Grades 3–5 is a research-based curriculum for elementary students who have moderate-to-severe developmental disabilities, including those with an intellectual disability and autism. Access English Language Arts Grades 3–5 gives elementary students access to English Language Arts (ELA) concepts their peers are learning.

In this engaging and literacy-rich curriculum, four units of study address two major themes: “Reading Is Fun!” and “Be a Friend, Not a Bully.” Stories are the basis for many of the lessons. Your students will enjoy popular and age-appropriate adapted texts for fictional novels (*Superfudge* and *How to Eat Fried Worms*), nonfiction text (e.g., biographies), informational text, and poems. By using literature to teach themes, students gain vocabulary and conceptual understanding to comprehend and describe their own life experiences—an important goal for all students, including those with moderate-to-severe disabilities.

The lessons, which follow systematic instruction, are ready for you to begin teaching. Specific instructions are provided to help you accommodate a wide range of unique needs including students who are nonverbal, have visual or motor impairments, are early symbol users and learning to use objects or photos of objects to gain meaning, or are beginning readers.

GRADES 3–5

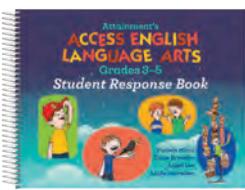

Access English Language Arts Grades 3–5

Curriculum Plus ELA35-30J \$495.00

Curriculum Plus: 2 Teacher’s Guides, a Student Response Book, 4 sets of 2 Student Readers, a My Writing Journal, and 2 sets of 10 consumable My Writing Journal Student Workbooks, five graphic organizers, 186 cards (and container), manipulatives (worms and money pack), one pocket chart, one copy of *Superfudge* and *How to Eat Fried Worms*, a GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, samples of communication overlays, and PDFs on flash drive with a classroom license for printouts.

FEATURES

- Objectives are aligned to state and national standards for ELA Foundational Skills, Reading: Literature & Informational Text, Speaking & Listening, Language, & Writing.
- Lessons are scripted with prompting and error correction.
- An image library and resources for students who are nonwriters, nonverbal, have visual impairments, or use eye gaze as their mode of response are provided.
- Extension activities are suggested to help you extend concepts into other academic areas or life experiences.

Student Response Book

Teaching to Standards: English Language Arts

RESEARCH DEMONSTRATES HIGH EFFECTIVENESS WITH TEACHING SKILLS THAT ALIGN TO GRADE-LEVEL STANDARDS

By Pamela J. Mims, PhD; Angel Lee, PhD;
Tracie-Lynn Zakas, PhD; and Diane Browder, PhD

Teaching to Standards: English Language Arts

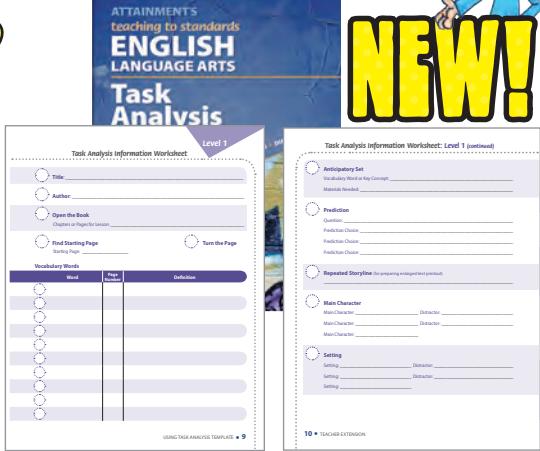

Curriculum TE-LA10J \$349.00

Curriculum Plus TE-LA40J \$699.00

Curriculum: Implementation Guide, Alignment to Standards booklet, two Teacher's Guides, one Assessment Response Book, Right On Readers 1 and 2, one Daily Writing Journal Student Book, one consumable Daily Writing Journal Student Workbook, graphic organizers, 250 teaching cards, PDFs on disc with a Classroom License for printouts, Access Language Arts Software, and a Task Analysis Teacher Extension Book.

Curriculum Plus: The Curriculum plus a total of 10 consumable Student Workbooks, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays, four sets of the Right On Readers, and one copy of Holes, We Beat the Street, The Outsiders, Number the Stars, and Dragonwings.

Teacher Extension

This curriculum provides materials at three literacy levels: object/photo, symbols, and text. Skill areas include persuasive writing, elements of story grammar, and research endeavors. The authors adapted 15 popular works (like *Holes*, *Number the Stars*, and *Dragonwings*) into simplified text with repeated story lines and symbol supports. Genres include fiction, nonfiction, plays, and poetry.

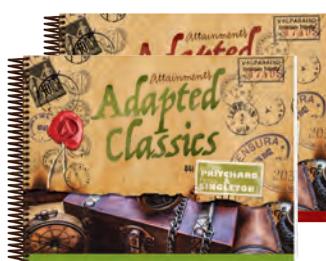

The 32 progressive lessons are scripted and incorporate evidence-based teaching procedures. They are organized into four units: Change, Values and Decision Making, Social Justice, and Global Awareness. These themes help students grasp the big ideas as well as specific ELA skills.

The curriculum seamlessly integrates traditional formats, like books and manipulatives, with the software and iPad app. This blended approach helps you to teach all students effectively and creates an engaging learning process. In the software and app, students explore eight works of literature through a five-step instructional sequence: preview, vocabulary, read the book, comprehension questions, and story sequence.

The curriculum now comes with two new components, including the consumable **Daily Writing Journal** Student Workbook and the **Task Analysis Teacher Extension Book** (please see more details on the **Curriculum** and **Curriculum Plus Kits** above in the pricing box).

Adapted Classics

CONNECT STANDARDS-BASED ELA INSTRUCTION
TO FOUR TIMELESS CLASSICS

Levels 1 & 3 printed books

Instructor's Guide

Levels A & 2 digital only

Student Workbook
Consumable Workbooks and Master Student Workbook

Manipulatives

Adapted Classics is an English language arts curriculum that covers grade-level content through four literary classics—*The Strange Case of Dr. Jekyll and Mr. Hyde*, *Treasure Island*, *The Story of My Life*, and *The Hobbit*. Each classic introduces a unique genre of literature: mystery, adventure, biography, and fantasy. Each title in the series includes an adapted student version of the classic presented in four distinct levels—A, 1, 2, and 3—to differentiate instruction. The adapted books summarize the original text in five simple chapters. A brief genre description, an author introduction, a presentation of the main theme, and a prediction activity begin each story. **Student Readers** and **Workbooks** are printed for Levels 1 and 3. You can access Levels A and 2 via the **Attainment Hub** (see pg. 67) for printouts. Manipulatives representative of each genre are part of the provided **Literary Kit**. Story-related manipulatives are key components of the kit, too.

In addition to **Student Readers**, students complete chapter exercises plus a story assessment in their **Student Workbooks**. Supplemental transition and expansion activities are also included.

Nicely laid out in the **Instructor's Guide** are 10 lessons for each literary classic covering the following elements:

- Genre
- Author introduction
- Theme
- Prediction
- Engagement in adapted text
- Vocabulary development/review
- Whole text review
- Comprehension
- Written Expression
- Reader's Theater
- Transition activity
- Optional – Expansion activity

Additional lesson extensions are available for print through the **Attainment Hub** website (access code to the site provided with purchase). See page 67.

Access Language Arts: WRITE

A RESEARCHED AND STANDARDS-BASED WRITING CURRICULUM FOR SECONDARY STUDENTS

By Diane Browder, PhD; Pam Mims, PhD; Angel Lee, PhD; and René Zelt

New web-based option available.
Call for details.

GRADES 6–12

The **Access Language Arts: WRITE Curriculum (ALA: WRITE)** provides a blended approach to writing instruction delivered through traditional print components and software. Students are supported step by step in constructing grade-aligned opinion paragraphs about eight adapted pieces of literature, including fiction and nonfiction literature from the **Teaching to Standards: English Language Arts Curriculum**.

The new **Instructor's Guide** provides scripted lessons that focus on writing terminology (topic, introduction, opinion, reason, conclusion) and students' construction of opinion paragraphs. Extension lessons and ideas related to writing terminology and additional forms of written expression are provided with **Student Workbooks** that highlight various forms of written expression with functional activities like maps, recipes, letters, shopping lists, and more.

Write Your Story

TEACH WRITING AND COMMUNICATION SKILLS BY FOCUSING ON THINGS THAT MATTER MOST TO YOUR STUDENTS!

By David Nelson, Marcy Weiland, and Autumn Garza

The **Write Your Story** curriculum helps students develop their writing skills with a focus on expressing their opinions about the world around them. Two different **Student Books** (Elementary and Secondary) provide 35 lessons each, grouped into seven unit themes. Sample units include My Community, My Places, My School, My Travel, and My Work. To emphasize the key components of writing, each lesson emphasizes four primary writing terms: introduction, opinion, reason, and conclusion. A color-coded graphic organizer (seen above) is included to help students learn the various components of a paragraph.

The final unit of the book, *My Story*, reviews the previous unit topics and allows students to share their opinions on the things that matter most to them. For nonwriters, sentence strips can be used for making activity choices through eye gaze or touch response options.

PixWriter Software

PICTURE-ASSISTED WRITING TOOL FOR BEGINNING WRITERS

Students select buttons in the word bank to write on the paper.

PixWriter Software is a talking picture and word processor, ideal for beginning and struggling writers. It helps students write independently by combining picture support with highlighted text and speech. This writing tool enables students to compose written documents without mastering phonics, spelling, and alphabet skills.

Here's how it works: select how many buttons the student will have in their word bank. Then create the illustrated buttons by simply entering text. Words are automatically matched with pictures and shown on the buttons. Lock the word bank and your students are ready write! They select content from word bank buttons with their preferred access: mouse, touch screen, interactive whiteboard, or switch.

There are many customizing features to fit students' abilities, assignment requirements, and IEP goals. Examples of word bank button customization includes color coding, importing photos, sequencing to make phrases, and arranging by parts of speech. Documents can be shared, saved, and printed.

SymbolSupport Software

ADD SYMBOLS EFFORTLESSLY TO ANY TEXT TO ENHANCE STUDENT UNDERSTANDING

Now Available
for Windows,
Mac, and iOS

SymbolSupport

1 Device APP-SYM-07J \$60.00

Windows	Mac	iOS	Android
+	+	+	

When applicable, please specify platform preference with your order. Buy from the Store, or buy directly from us to receive an access code to redeem via the new Attainment Hub (see pg. 67 for details). Disc available for backup or installation upon request. Call for quantities over 5.

SymbolSupport App is a teacher utility app that allows you to effortlessly add symbols to text.

This support helps better understanding of grade-level content. **SymbolSupport** automatically adds symbols to text as you type, either above or below the words. Custom symbols are saved for future use. Attainment's new curriculum image library, including symbols from resources like Explore Biology and Math Skills Builder, is now available for download.

Easily organize documents by content area with folders; then, share documents by (1) downloading the free **Symbol Support Lite** app on your students' iPads (or iPhones/iPods), (2) sending the documents wirelessly or via email, and (3) opening the documents on the students' iPads. Create as many documents as you like. Want to symbolize preexisting written material? No problem. Simply copy and paste the text directly into **SymbolSupport**. Symbols are added automatically, and you're ready to edit or share.

Common uses for SymbolSupport:

- Adapted literature
- Picture directions
- Class schedules
- Student assignments
- Vocabulary introduction

Writing with Purpose

USE ORAL LANGUAGE & THINKING SKILLS AS A FOUNDATION FOR SUCCESSFUL WRITING

The **Student Book** incorporates clear illustrations, graphic organizers, and writing frames to support reluctant writers. It begins with What Is Writing? and is followed by three chapters focusing on forms of expository writing.

Classroom Kit: The Introductory Kit with 4 additional copies of Passages to Reading. The PDF contains the complete book plus a Classroom License for printouts.

What's Cool About Music

BUILDS MUSIC APPRECIATION WHILE REINFORCING LITERACY SKILLS

By Stuart Stotts and Joni Nygard MS, CCC-SLP

What's Cool About Music has 36 stories in six thematic units: Big Picture, Music Over Time, Music Styles, Musical Instruments, Rock Concert, and World Music. This blended curriculum seamlessly integrates a traditional book with software.

The **What's Cool About Music Book** presents photo-illustrated stories, organized into six sequential chapters, with comprehension exercises and vocabulary guides. The **Software** brings the book to life with musical effects, professional story narration linked to text highlighting, and fun comprehension activities. Hundreds of sound clips illustrate musical concepts like rhythm and melody, sounds of instruments, and styles like country and jazz. The software application gives student reports, accommodates switch users, and allows unlimited student logins with personalized options.

Everyday Readers

A COLLECTION OF 36 STORIES

By Monae Maruyama, MEd

IDEAL for students with autism

Everyday Readers

Introductory Kit EDR-10J \$99.00

Classroom Kit EDR-20J \$299.00

Introductory Kit: Everyday Readers Books One and Two, Teacher's Guide with a PDF on disc, and a Classroom License for printouts.

Classroom Kit: Five sets of Everyday Readers Books, plus all other items in the Introductory Kit.

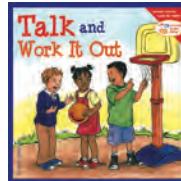

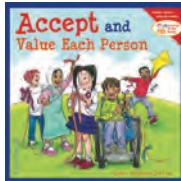

Stories incorporate educational concepts like counting, health, and language skills. Intended to be read aloud to students, ages 4–9. Each photo-illustrated story has 6 to 10 pages with 25 words per page. Book One and Book Two follow a chronological sequence so that you can present seasonal themes and events. The **Teacher's Guide** provides lesson plans for each story—complete with teacher scripts, learning objectives, and story page illustrations. Additional vocabulary and sequencing activities are found on the PDF disc.

Learning to Get Along

COMBINES COLORFUL PICTURE BOOKS WITH MULTIMEDIA SOFTWARE FOR A COMPREHENSIVE SOCIAL SKILL PROGRAM

A Free Spirit Publishing and Attainment Company collaboration

For children ages 4–8, books and software feature attractively illustrated stories that consistently model positive behaviors and character traits. **Books** are intended to be read to your students, reinforcing the importance of appropriate social skills. Topics include taking turns, following the rules, and accepting others. **Software** reads books aloud with highlighting text and lets students click on any word for identification. Questions at the end of each story challenge students and provide data on comprehension.

Learning to Get Along

Early Numeracy

LAY THE FOUNDATION FOR MATH INSTRUCTION WITH A RESEARCHED PROGRAM THAT TEACHES DEVELOPING NUMERACY SKILLS

By Bree Jimenez, PhD; Diane Browder, PhD; and Alicia F. Saunders, PhD

Aligned
to NCTM
Standards

This curriculum is appropriate for elementary students with significant developmental disabilities, including autism. It begins with counting using one-to-one correspondence and progresses to more complex skills like using sets for addition and creating ABAB patterns. Lessons are taught systematically, incorporating scripted lessons, least intrusive prompting strategies, teachable objectives, and ongoing assessments. The 24 lessons focus on fun themes, like Mardi Gras or bugs, and give students ample opportunity to practice using a variety of hands-on materials.

The **Early Numeracy** content aligns with national and state standards and four of the five NCTM Standards: **Numbers and Operations, Algebra, Geometry, and Measurement**.

Early Numeracy

Curriculum Plus

ENC-30J

\$599.00

Curriculum Plus: 2 Teacher's Guides, Implementation Guide, Math Stories, 1 Math Fun Student Workbook, 1 Student Response Book, 1 Assessment Manual, work board and overlays, games, game cards and pieces, graphic organizer posters, counting pieces, theme-based counting objects, number and symbol tiles, ruler, play money, and PDFs on disc, **plus** a total of 10 consumable Math Fun Student Workbooks, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

SKILLS TAUGHT

- Counting with one-to-one correspondence
- Counting movable and nonmovable objects
- Identifying and naming numerals 1–10
- Rote counting to 20
- Creating and adding sets to 10
- Comparing sets for =, >, and <
- Identifying symbols =, >, and <
- Recognizing and extending ABAB patterns
- Creating ABAB patterns
- Measuring using a calendar
- Measuring with nonstandard units

FEATURES

- Fun themes and stories enhance student appeal
- Scripted lessons increase teacher fidelity and reduce prep time
- Embedded instructions for assistive technology
- A wide variety of hands-on materials
- Ongoing progress reports using Math Fun and end-of-unit assessments

RESEARCH

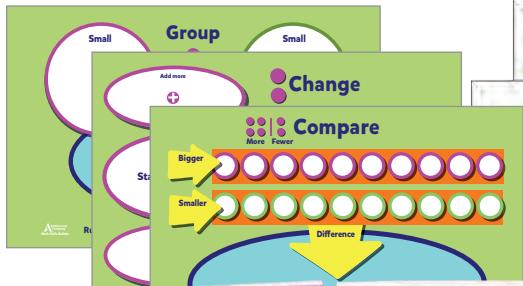

Research demonstrated the effectiveness of the Early Numeracy Curriculum with elementary students who have moderate-to-severe intellectual disability or autism.

Math Skills Builder

Curriculum Plus MSB-30J \$595.00

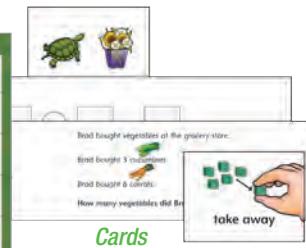

Curriculum Plus: 2 Teacher's Guides, 1 Implementation Guide, 1 Real-World Problem Solver book, Software/iPad App, 1 poster, graphic organizers, counting cubes, pouch, markers and Video Simulations DVD, plus a total of 10 consumable Student Workbooks, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

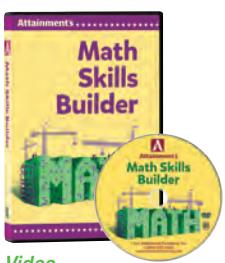

Workbook

Software

Cards

Video

Math Skills Builder—the next step in math—teaches students how to apply their early numeracy skills to solve problems. Using math stories with real-world scenarios, students learn concrete strategies (using multiple modes of learning) for knowing when to add or subtract to solve the math problem. Research found the program extremely effective in teaching students to be successful problem solvers. Eight units of instruction, with five lessons each, provide over 500 theme-based story problems (e.g., math in the grocery store, math at the zoo, etc.). Problems were written by teachers to represent a variety of students' interests, preferences, and community contexts. The eight units teach students to solve addition (sums to 10) and subtraction story problems (differences to 9) and use three problem-solving strategies: Group, Change, and Compare.

The teacher-friendly lessons are scripted to suggest feedback responses for prompting, error correction, and praise, and each math story problem is presented using various media, including a workbook, software/iPad app, and video simulations to ensure student success.

Students with mild disabilities will advance through the curriculum quickly and be ready for higher-level math concepts, while students with moderate-to-severe disabilities may require multiple years of instruction. The curriculum begins with a review of early numeracy foundational skills, then advances to solving math story problems. It is designed to be taught in small groups for ease of instruction; lessons address adaptations required for students who are nonreaders and/or nonverbal. All materials students will need are included: counting cubes, graphic organizers, markers and pens, and handy zipper pouches for keeping materials organized.

The **Software** provides additional practice for students and gathers data as students work. It also provides an opportunity for assessment of a unit to determine whether the student is ready to move to the next unit. Detailed data summaries are available for teacher viewing.

In this curriculum, problem-solving is taught in an explicit manner using principles of direct instruction, task analytic instruction, and self-monitoring strategies.

Measurement graphic organizer

Algebra graphic organizer

Two years of classroom research at the University of North Carolina at Charlotte have shown the program to be highly effective in teaching math skills aligned to NCTM standards to middle and high school students with significant intellectual disability or autism.

All students can have their own **MathWork** book with 68 unique lessons that begin with a real-world story. These stories are illustrated with picture cues and read to students, so no minimum reading level is required. Each story presents a problem and a graphic organizer for students to work out the solution by writing or placing manipulatives. Lessons are taught with fading levels of support. Covers Geometry, Algebra, Data Analysis, and Measurement.

Aligned to Standards

GRADES 6–12

Teaching to Standards: Math

Curriculum TE-M10J \$199.00

Curriculum Plus TE-M40J \$499.00

Curriculum: MathWork Student Book, MathWork consumable Student Workbook, Implementation Guide, 11 problem-solving posters, counting manipulatives, staff training DVD, reproducible image library, and PDFs of student materials.

Curriculum Plus: The Curriculum plus a total of 10 consumable Student Workbooks, 10 of each Extension Activity Book, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

MATH GOALS

- **Geometry**—Understand that geometry is math that helps us make pictures of the world around us.
- **Algebra**—Understand that algebra is math that helps us solve problems for an unknown number.
- **Data Analysis**—Understand that data analysis is math that helps us understand information and make choices when reading graphs.
- **Measurement**—Understand that measuring and counting are math skills that help us solve problems around us.

RESEARCH

Multiple studies found Teaching to Standards: Math to be highly effective in teaching math skills aligned to NCTM standards to middle and high school students who have significant disabilities or autism.

Visit our website for a research report.

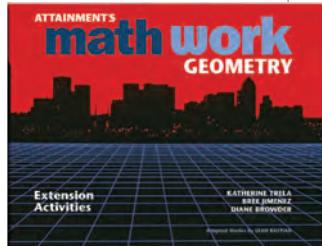

FEATURES

- Appropriate for ages 12–21
- Effective with students with a moderate-to-severe intellectual disability or autism
- Accommodates multiple methods of responding
- Age-appropriate student books
- Incorporates hands-on learning

Teaching to Standards: Math Extension Activity Books

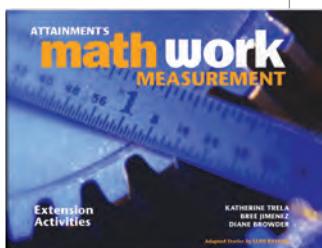

SUPPLEMENTAL AND EXTENDED PRACTICE FOR THE FOUR MATH UNITS FROM TEACHING TO STANDARDS: MATH!

By Katherine Trela, PhD; Bree Jimenez, PhD; Diane Browder, PhD; and Adapted Stories by Leah Bastian

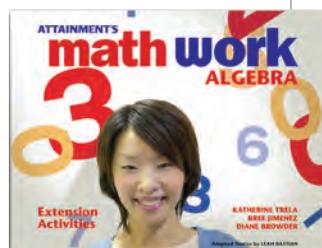

Geometry Extension Activity Book

A place for candy
Story 11: A place for candy
A new specialty candy shop wants to build a store. They would like to be near the dentist. Where would be the best place on the map for a candy shop?
DO WE NEED TO FIND OUT? CHECK THE BOX.
There should be the best place on the map. Is it the dentist's name?
Community Map
Story 11: A place for candy
Community presence

Samples of new graphic organizers

MathWork: Geometry provides 23 additional story problems for the original MathWork maps and 15 extension story problems with two brand-new maps! Students will learn how to navigate school and a new neighborhood.

With over 35 story problems, **MathWork: Algebra** facilitates extra practice with MathWork graphic organizers and a new bar graph for extension problems! A laminated insert provides a teacher script for the new bar graph. Other extension problems use additional themes and practice with subtraction.

In **MathWork: Data Analysis**, students get additional practice with two- and three-column tables and the pie charts from MathWork. Extension stories use new themes and characters for working with MathWork charts and two brand-new pie charts.

Money, perimeter, and area are included as supplemental and extension problems within **MathWork: Measurement**. New themes extend MathWork's Next-Dollar strategy so students may begin to generalize their understanding with familiar graphic organizers!

Expand Teaching to Standards: Math with over 100 new activities to help students apply and generalize these four upper-level math concepts.

Hands-On Math for Early Numeracy Skills

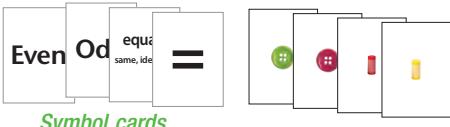

A CURRICULUM FOR TEACHING PRE-K STUDENTS FOUNDATIONAL NUMERACY SKILLS USING NUMBER LINES

By Don Bastian and Leah Bastian

NEW!

GRADES PRE-K+

Symbol cards

Number Book sample pages

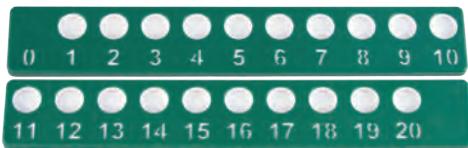

Pegs and Bins

Regular dice

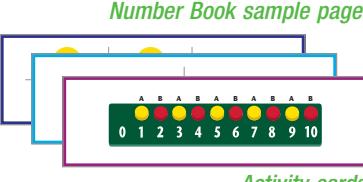

Foam dice

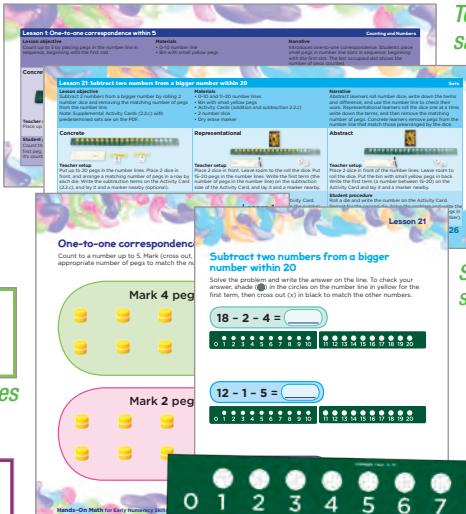

Number lines

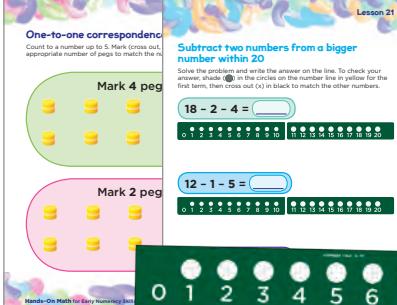

Cut-out number squares

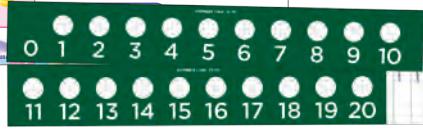

Activity cards

Teacher's Guide sample pages

Student Book sample pages

Number line tear-off sheets

Daubers

Dry-erase marker

Hands-On Math (HOM) for Early Numeracy Skills is primarily for preschool students with an intellectual disability or autism. It is based on two premises: (a) students with a disability learn well when their hands are purposefully engaged, and (b) math manipulatives help students understand abstract concepts. The HOM for Early Numeracy Skills Curriculum is an introduction to concepts included within school math standards. It is a skills-based program focused on early numeracy concepts. The **Teacher's Guide** provides direction for teaching concepts with the hands-on manipulatives, and the **Student Workbook** provides additional practice with symbolic representation. Each student may use their own workbook to document answers for each activity.

The **Student Workbook** is designed to accommodate a wide variety of fine motor skills. Teachers may encourage students to share their answers by using the pegs, writing, circling, marking, or dotting onto the page. A set of peg and button cards are even included at the end of each workbook that may be cut out to help generalize skills!

The lessons are organized into four Skill Areas (Counting, Sets and Categories, Symbols, and Patterns) which are then divided into Activities. Activities progress in difficulty from using concrete to representational to abstract understanding. Concrete learners are exposed to the math concepts incidentally and may participate in the lesson without a complete understanding. Representational learners are provided picture cues or other hints to help them complete the lesson. Abstract learners who successfully complete the lesson attain its objective by demonstrating understanding of the underlying math concept.

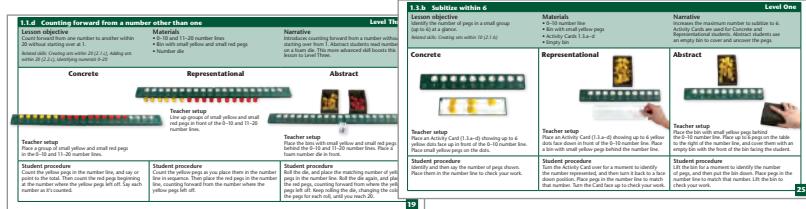

Hands-On Math

SUPPLEMENTAL CURRICULUM THAT TEACHES
MATH CONCEPTS WITH NUMBER LINES

By Don Bastian

Pegs are easy to grasp and place into number lines, reinforcing one-to-one correspondence.

Instructor's Guide sample pages

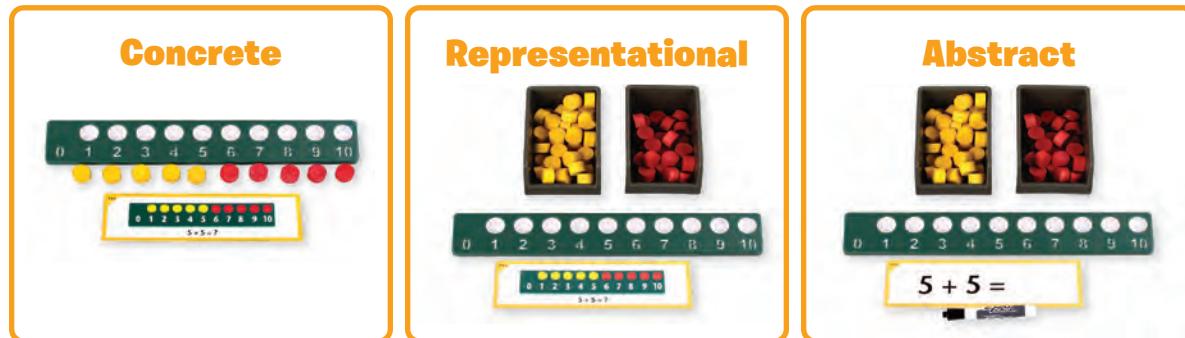

Hands-On Math (HOM), for students of any age with intellectual disability or autism, is based on two big ideas: Students with disabilities learn when their hands are purposefully engaged, and manipulatives help them grasp abstract math concepts.

HOM is a skills-based program focusing on fundamental math concepts. Its 60 lessons cover a considerable range—from counting to solving two-digit addition problems. The heart of HOM is a set of four number lines with slots to accommodate pegs. The number lines are used in combination to demonstrate concepts and help students solve math problems.

Lessons contain three instructional options: concrete, representational, and abstract. **Concrete** learners are exposed to concepts but complete lessons without understanding the underlying math. **Representational** learners are provided picture cues and other hints to help them complete lessons. **Abstract** learners solve problems independently and use number lines to verify their answers. You can cycle through the options when teaching a lesson to present an easy-to-hard sequence. Or stick with the instructional option that best suits the student's ability as you progress from lesson to lesson.

FIVE-STEP LESSON PROCESS

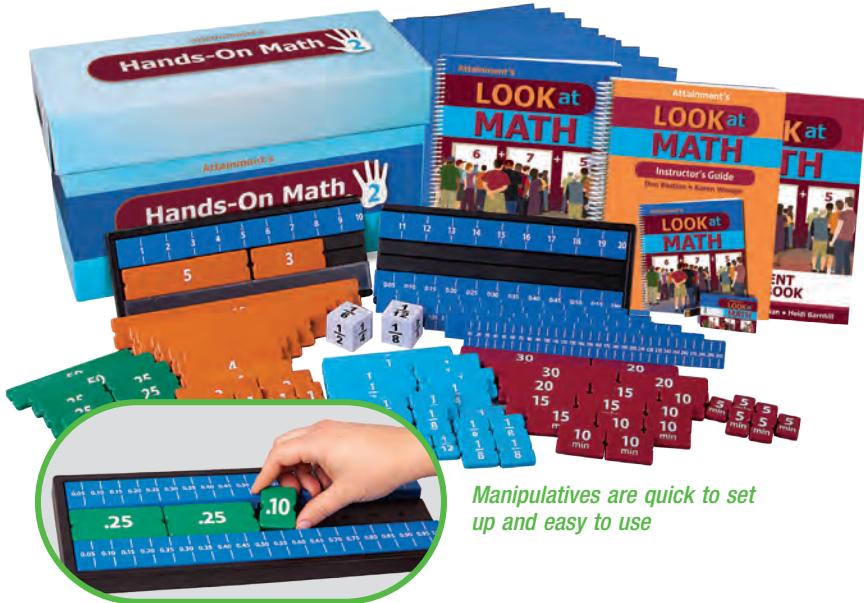

- Explain student procedure
- Model procedure for the student
- Guide student through lesson, prompt as needed
- Observe student completing task independently
- Adjust lesson to present additional problems

Hands-On Math 2

INNOVATIVE PICTURE-BASED LESSONS WITH MANIPULATIVES

By Don Bastian and Karen Wenger

Manipulatives are quick to set up and easy to use

Select Plus or Minus Sign

In Focus

The plus sign is used in addition. The minus sign is used in subtraction. If the problems below are addition or subtraction, then use the correct sign.

$6 + \underline{\hspace{1cm}} = 8$	$+ 9 \quad \underline{\hspace{1cm}}$ $- 4 \quad \underline{\hspace{1cm}}$ $\underline{\hspace{1cm}} = 5$
$7 + \underline{\hspace{1cm}} = 10$	$+ 4 \quad \underline{\hspace{1cm}}$ $- 3 \quad \underline{\hspace{1cm}}$ $\underline{\hspace{1cm}} = 7$
$8 + \underline{\hspace{1cm}} = 12$	$+ 5 \quad \underline{\hspace{1cm}}$ $- 3 \quad \underline{\hspace{1cm}}$ $\underline{\hspace{1cm}} = 2$

Story On Saturday, Mila cleaned and swept her room. Under her bed she found 7 socks and 3 books. How many things altogether were under Mila's bed?

$$7 + \underline{\hspace{1cm}} + 3 = \underline{\hspace{1cm}}$$

Complete the Patterns

In Focus

Look at the order of the fruit and see the pattern.

Draw the missing fruit to complete the patterns.

Story Carrie and her mom are baking cookies for a school bake sale. They are putting 10 cookies on a baking tray and they have 6 trays. How many cookies will they bake?

$$10 \times 6 = \underline{\hspace{1cm}}$$

Topic 1 Identify Positive and Negative Numbers

The sea level is 0. Above sea level is positive. Below sea level is negative.

Write in the missing negative numbers.

$$\underline{\hspace{1cm}}, -8, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, 0, \underline{\hspace{1cm}}, 2, \underline{\hspace{1cm}}, 4, \underline{\hspace{1cm}}, 6, \underline{\hspace{1cm}}, 8, \underline{\hspace{1cm}}, 10$$

$$\underline{\hspace{1cm}}, \underline{\hspace{1cm}}, 1, \underline{\hspace{1cm}}, 3, \underline{\hspace{1cm}}, 5, \underline{\hspace{1cm}}, 7, \underline{\hspace{1cm}}, 9$$

Topic 1 Identify Fractions

These chocolate bars are divided into equal parts.

Write the correct fractions in the yellow boxes.

Chocolate Bar	Equal Parts	Kinds of Chocolate
1	2	$\frac{1}{2}$
2	4	$\frac{1}{4}$
3	8	$\frac{2}{8}$
4	3	$\frac{1}{3}$
5	6	$\frac{2}{6}$
6	12	$\frac{1}{12}$
7	12	$\frac{1}{12}$
8	12	$\frac{1}{12}$
9	12	$\frac{1}{12}$
10	12	$\frac{1}{12}$
11	12	$\frac{1}{12}$
12	12	$\frac{1}{12}$

Topic 1 Count Coins

Match the items to the correct change buttons.

SNACK O TRON COODZ	A: 35¢	B: 45¢	C: 30¢
apple	1	2	3
banana	4	5	6
carrot	7	8	9
chips	10	11	12

Using exact change, circle the items that can be bought with these coins.

FRACTIONS

MEASUREMENTS

LOOK AT MATH

140

Hands-On Math 2 (HOM 2) helps students of any age who struggle with math. It begins where Hands-On Math (shown left) leaves off, and progresses to tackle tough concepts like integers and fractions.

The **Look at Math Instructor's Guide** presents 120 lessons divided into three units: Numbers, Measurement, and Fractions. Each lesson incorporates the **Look at Math Student Book** plus a comprehensive set of manipulatives. Look at Math is heavily illustrated to help students grasp the concepts. The manipulatives, consisting of 12 interchangeable number lines and sets of color-coded number pieces, make solving abstract problems easy. Together they encourage all students to participate and succeed at math. A consumable **Student Workbook** allows students to record and share their progress with peers, parents, and other instructional staff.

Each of the 11 chapters in Look at Math follows the same 22-page format: Big Ideas, Vocabulary, Picture It practice pages, Story Problems, Quizzes, and a Challenge exercise. The Instructor's Guide integrates Look at Math pages with the hands-on number lines. The Guide also provides a **USB flash drive** with PDFs of the Look at Math book plus additional assessments.

Hands-On Math 2

Curriculum Plus HM-30J \$399.00

Curriculum Plus: 12 interchangeable number lines with corresponding number pieces, pegs, fraction dice, 1 Look at Math Student Book, an Instructor's Guide with a USB flash drive, **plus** 10 consumable Student Workbooks, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

Access Algebra

OUR NEWEST MATH CURRICULUM PROVIDES ACCESS TO HIGH SCHOOL ALGEBRA CONCEPTS

By Katherine Trella, PhD; Bree Jimenez, PhD; Alicia Saunders, PhD; and Linda Schreiber, MS, CCC-SLP, BCS-CL

Access Algebra is a research-based math curriculum for high school students (ages 15–21) who have moderate-to-severe developmental disabilities, including those with intellectual disability and autism. The curriculum gives students access to content their high school peers are learning, but with the adaptations and support they may need to succeed. The curriculum accommodates students who have unique needs, including those who are nonverbal and those whose math skills are still at an emergent numeracy level.

Access Algebra applies the research-based strategies of systematic and task analytic instruction combined with graphic organizers and real-life math problems; strategies found successful in supporting math problem solving that requires more complex thinking skills.

Aligned to Standards

GRADES 9–12

Access Algebra

Curriculum AA-10J \$299.00

Curriculum Plus AA-30J \$399.00

Curriculum: 1 Student Book, 4 Instructor's Guides with USB flash drive, 7 graphic organizers, 2 T-Charts, manipulatives, and 2 consumable Student Workbooks.

Curriculum Plus: The Curriculum plus a total of 20 consumable Student Workbooks (2 sets of 10), the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

YEAR-LONG ALGEBRA COURSE

- **Descriptive Statistics** (statistical analysis, data, dot plots, histograms, mode, mean)
- **Scientific Notation** (base, exponent, power of)
- **Linear Functions** (linear equations, coordinate graphs, equations)
- **Quantitative Reasoning** (proportional relationships, ratios)

All lessons include task analyses, graphic organizers, workbook activities, and manipulatives to allow students to solve the math story problems.

FEATURES

- The 40 lessons are scripted (including how to prompt students) so teaching complex math concepts is easy.
- Math story problems reflect scenarios typical of young adults (e.g., engaging in school and community events, looking for part-time work, or doing chores at home).
- Pre-teaching and warm-up lessons in each unit address foundational skills students may be lacking and prepare students for learning the unit concepts.
- Lessons address the needs of students in your classroom, including those at an early numeracy level or those ready for more challenge.

Explore Math Series

MORE THAN A FULL-YEAR CURRICULUM OF REAL-LIFE MATH

By Judi Kinney, MS

A comprehensive curriculum for secondary students participating in alternate assessments based on alternate achievement standards. It includes two sequential **Student Books** with corresponding **Teacher's Manuals**. Both Student Books focus on functional math concepts like spending money, telling time, keeping a calendar, following maps, reading graphs, and understanding paychecks. Engaging photos illustrate real-life situations and give students visual cues to solve math problems. Teacher's Manuals are organized as lessons, each with an objective, material list, and step-by-step procedure. They also include the Student Book as a PDF.

Explore Math has six chapters: Math Vocabulary, Using Numbers 0–12, Using Numbers 0–18, Using Numbers 0–100, Using Numbers 0–1000, and Fractions.

Explore Math 2 has four chapters: Home, Work, Community, and Leisure Math. It expands the concepts presented in Book 1 and links them to a character's everyday life. For example, Dionn works at a sports equipment company and needs to find the phone numbers of coworkers, determine map distances, schedule a business trip, and calculate business expenses.

Explore Budgeting

FOCUS ON SKILLS NEEDED TO SET AND STICK TO A BUDGET

By Judi Kinney, MS

Learning how to budget isn't easy. First, how much money do you have available and what's its relative value? What are projected expenses, and how do you keep track of them? And how can you avoid unnecessary purchases? Author Judi Kinney tackles all these issues—and more—in this practical, easy-to-teach curriculum.

Explore Budgeting includes a **Student Book** and a corresponding **Teacher's Manual**.

Math exercises are linked to real-life characters' everyday experiences. Photos and clear graphics enhance student appeal and provide visual cues to the content. A sequence of 78 lessons is detailed in the Teacher's Manual. Each lesson includes an objective, background, and step-by-step teaching procedure.

Explore Math

Curriculum	EM-12J	\$259.00
Curriculum Plus	EM-32J	\$499.00

Curriculum: Includes both Student Books, 4 consumable Student Workbooks (Book 1 and Book 2 for each title), corresponding Teacher's Manuals, and 2 discs with Classroom Licenses for printouts.

Curriculum Plus: The Curriculum plus a total of 40 consumable Student Workbooks (20 copies of Book 1 and 20 copies of Book 2 for each title), the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

FEATURES

- Two progressive Student Books
- Corresponding Teacher's Manuals
- PDFs for printouts
- Photo-illustrated worksheets
- Life skill themes
- Problems that challenge students but don't overwhelm them

Curriculum Plus: The Curriculum plus a total of 20 consumable Student Workbooks (10 copies of Book 1 and 10 copies of Book 2), the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

Attainment's Look at Everyday Math Series

GAIN INDEPENDENCE THROUGH REAL-LIFE MATH APPLICATIONS

A collaboration with Remedia Publications and Leah Bastian

Look at Everyday Math is a practical application of math for high school and transition students. Each Remedia publication (there are five) includes activities such as reading comprehension, filling out forms, using a glossary, and answering math word problems.

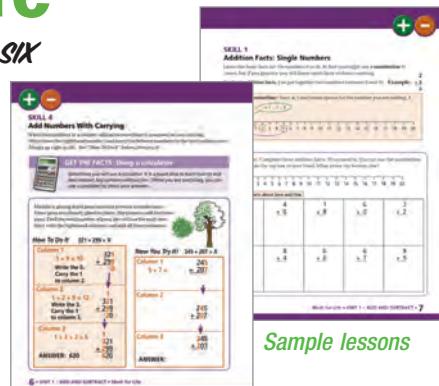

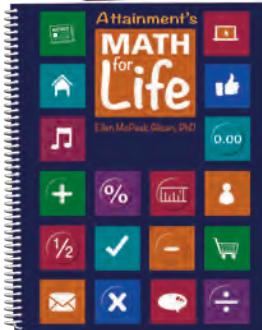

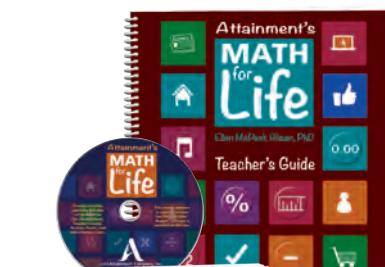

The multi-step word problems cover adding and subtracting money, multiplying and dividing money, figuring percentages, working with large numbers, and more. This life skills program will help students master math skills essential to everyday life! Each book includes an answer key to help teachers monitor student progress.

Students will gain hands-on experience practicing the math they will use in the real world. The realistic activities in this series will teach students about paying bills, keeping a transaction register, filling out a credit card application, shopping online, using a debit card, making and keeping to a budget, shopping for the best buy, and so much more! Attainment has created a consumable **Extension Student Workbook** that provides a compilation of additional activities, covering all five categories of everyday math—*Bargain Math, Checkbook Math, Credit Card Math, Bank Account Math, and Budget Math*—ideal for students getting ready to transition into the real world.

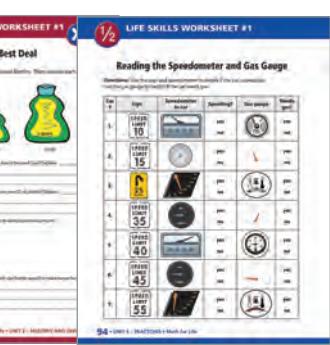

Math for Life

LIFE SKILL THEMES LINKED TO SIX FUNDAMENTAL CONCEPTS

By Ellen McPeek Glisan, PhD

Dollars & Cents Software

THREE BEAUTIFULLY ILLUSTRATED INTERACTIVE MONEY PROGRAMS IN ONE!

App

Software

Counting Coins

Making Change

Spending Money

Teacher options

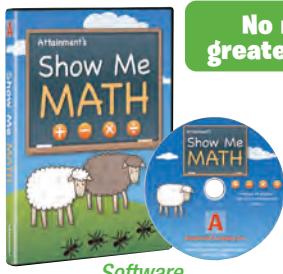

Dollars and Cents Software features three progressive programs: Counting Coins, Spending Money, and Making Change. All feature clear, realistic graphics and an easy-to-navigate interface. Plus, our money talks! Personalize each program: select activities, determine coins and bills, choose US or Canadian currency, and set scanning options.

Counting Coins has four activities: Naming, Matching, Sorting, and Vending Machine. In **Spending Money**, students shop for items and pay with computer cash using the exact amount or the next-dollar approach. In **Making Change**, the most advanced program, students function as store clerks, entering purchases and returning change.

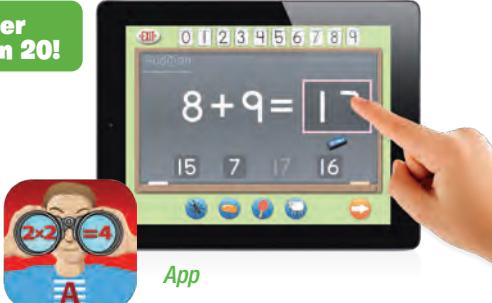

A great way to integrate functional activities into your math curriculum. Ideal for adolescents and adults with intellectual disability or autism.

Show Me Math Software

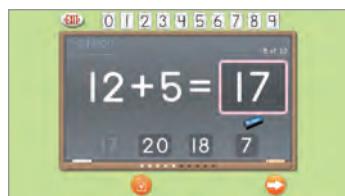

BASIC MATH ILLUSTRATIONS WITH ANIMATED GRAPHICS

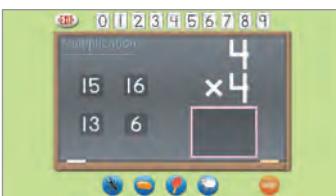

No number greater than 20!

App

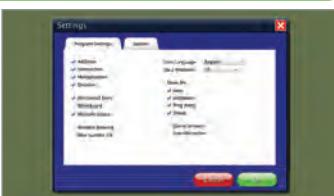

Addition

Multiplication

Subtraction

Recordkeeping feature

Link computation with actual objects by showing an animated movie for each math problem. Covers addition, subtraction, multiplication, and division using no number greater than 20. Features detailed recordkeeping to help you write IEPs. The instructional process helps students visualize math problems. Users can select answers on the keyboard, click on a number, or choose the “show me” option, where the answer is illustrated with a short animated movie. For example, $7 + 6 = 13$ is illustrated with a group of six ants joining seven others. Choose from four animated characters: sheep, ants, jelly beans, or ping-pong balls.

Money Skills: Adapting Math

NINE PROGRESSIVE MONEY SKILL SETS
LINKED TO NCTM STANDARDS

By Judi Kinney and David Nelson

Skill sets are broken down into teachable objectives, with sequenced benchmarks to help students progress at their own pace.

In Skill Set One, for example, students identify and name coins and bills. Skill Set Seven focuses on counting exact amounts to pay for purchases up to \$50. Assessments pinpoint student strengths and deficits so you use only the activities you need. Includes over 250 worksheets and a PDF on disc with a Classroom License for printouts. The new consumable **Math Fundamentals: Money Skills Extension Activity Book** extends the lessons taught in **Adapting Math** with additional exercises for more student practice.

Money Skills: Adapting Math

Curriculum

AD-MC10J

Money Books

LAMINATED MONEY CUES WITH
FULL-COLOR IMAGES OF COINS &
BILLS TO MAKE MONEY IDENTIFICATION EASY!

Money Books

MF-01J

\$19.00

Coin Flip shows coin combinations with actual-size coins so users can match to sample. You need \$0.30, for example. Just flip to the \$0.30 page, and it shows several combinations of coins that give you \$0.30!

Ten Dollar Book shows bill combinations up to a ten-dollar purchase and when users should expect change back.

Coin Book Cue is a pocket-sized cue that shows coin combinations you might need for bus fare, vending machines, or other small purchases.

All books are laminated for durability and easy wipe-off.

Hands-On Money

PRACTICE MONEY SKILLS WITH
REALISTIC COINS & BILLS

Almost like real cash! The most realistic imitation money available anywhere. Includes bills from \$1 to \$100. Coins are full-color, actual size on cardboard, with a generous supply of pennies to gold dollar coins. Packed in an organizer box. Ideal for sorting and counting activities. Set includes 210 assorted bills and 280 assorted coins.

Day Planner Package

IDEAL FOR VISUAL SCHEDULES

This reusable laminated booklet segments days of the week into 10-hour increments: 7 a.m. to 5 p.m. The teacher or student writes schedule information with a marker. Extra pages have calendar facts, important phone numbers, days to remember, and ID. Use this hands-on model clock to teach time-telling skills. Hour and minute hands turn to automatically display analog and digital times. The **TimeWheel** is durable, easy to read, and appropriate for students of any age. Made with laminated card stock with a transparent plastic face.

DPP-10J

\$22.00

Package: 1 Day Planner and 1 TimeWheel.

Hands-On Math Series

DIFFERENTIATING INSTRUCTION FOR YOUR CONCRETE, REPRESENTATIONAL, AND ABSTRACT LEARNERS

Hands-On Math Series

HMS-30J

\$799.00

Includes: Hands-On Math for Early Numeracy Skills Curriculum Plus, Hands-On Math, and Hands-On Math 2 Curriculum Plus Kits.

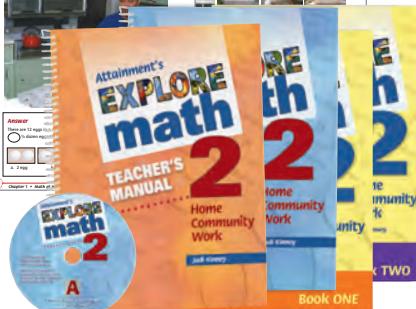

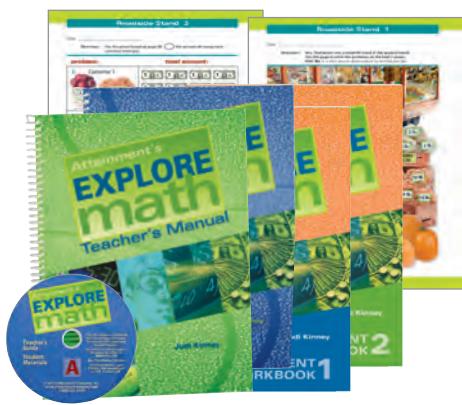

Attainment's **Hands-On Math Series** uses the Concrete-Representational-Abstract (CRA) instructional strategy that progressively moves learning from concrete manipulatives to pictorial representations to abstract concepts. Lessons in the **Hands-On Math Series** provide outlined CRA teaching procedures for easy implementation. All three curricular resources—**Hands-On Math for Early Numeracy Skills**, **Hands-On Math**, and **Hands-On Math 2**—identify a lesson objective while also detailing both the *Teacher setup* and the *Student procedure* for each type of learner—concrete, representational, and abstract.

Follow a consistent lesson format across grade bands with the complete **Hands-On Math Series**. Start students with the **Hands-On Math for Early Numeracy Skills** to teach foundational math concepts like one-to-one correspondence, rote counting, patterns, and sets. For older students who struggle with early numeracy concepts or for students needing to move beyond the number 20, **Hands-On Math** reinforces basic counting skills while introducing two-digit addition problems and story problems, too. Lastly, **Hands-On Math 2** begins where **Hands-On Math** leaves off and progresses to tackle tough concepts like integers and fractions. The series comes with three comprehensive kits, complete with **Instructor's Guides**, consumable **Student Workbooks**, supplemental activities, number lines, and a box of hands-on manipulatives to help concrete learners develop a conceptual understanding in mathematics.

Transition Math

FUNCTIONAL MATH SKILLS FOR HOME, SCHOOL, WORK, AND IN THE COMMUNITY

Transition Math

TM-30J

\$699.00

Includes: Explore Math Curriculum Plus, Explore Math 2 Curriculum Plus, and Explore Budgeting Curriculum Plus Kits.

This comprehensive functional math series consists of **Explore Math**, **Explore Math 2**, and **Explore Budgeting**. All three resources follow a simple lesson format: lessons in the **Teacher's Manuals** are organized with a learning objective, materials list, and step-by-step teaching procedure. The **Student Books** offer clear graphics to engage students and tackle tough concepts with such visual cues. **Consumable Student Workbooks** give students an opportunity to keep and share their progress in math with peers, parents, and instructional staff. First, **Explore Math** focuses on functional math concepts like spending money, telling time, scheduling, following maps, interpreting graphs, and understanding paychecks. Then, **Explore Math 2** expands these concepts and links them to a particular character's life through four chapters: *Home*, *Work*, *Community*, and *Leisure Math*. Lastly, **Explore Budgeting** links activities to characters' real-life experiences as they learn how to budget on a daily, weekly, and monthly basis. **Transition Math** helps students apply practical math concepts to real-world situations. With the acquisition of these math skills, students become active participants in the world around them.

Early Science

A RESEARCH-BASED INQUIRY PROCESS TO TEACH BASIC SCIENCE TO ELEMENTARY STUDENTS WITH SIGNIFICANT DEVELOPMENTAL DISABILITIES

By Bree Jimenez, PhD; Victoria Knight, PhD; and Diane Browder, PhD

Student Book sample

Sample experiment materials

Concept Statements			
The Five Senses	The Rock Cycle	Earth and Sky	The Life Cycle
A scientist asks questions about the natural world.	Rocks are different.	We live on the earth.	Plants and animals live on the earth.
We can see colors and sizes.	Rocks are made of minerals.	The sun and moon are in the sky.	Animals and plants grow and change.
We can feel textures and shapes.	Rocks change to make new rocks.	We can see the moon in the night sky.	Animals and plants grow and change.
We can smell odors and taste flavors.	Soil is made of different things.	The sun gives the earth sunlight during the day.	Plants and animals are living.
We can hear sounds.	All land has rocks and soil.	The sun gives the earth sunlight during the day.	Animals need plants.
We can observe properties with our five senses.	Wind and water change the land.	The sun's heat is a form of energy.	When animals and plants are dead, they decay.

Content is aligned to general education standards and taught systematically by incorporating scripted lessons, least intrusive prompt strategies, teachable objectives, and ongoing assessments. Appropriate for K-5 students, including those with autism.

The 28 lessons follow a standard sequence. Students engage by discussing Wonder Stories; investigate through hands-on experiments; describe and explain concept statements using vocabulary cards, posters, and games; and report findings in their **My Science Logs**.

Aligned to Standards

GRADES K-5

Early Science

Curriculum Plus

ESC-30J \$499.00

Curriculum Plus: 4 Teacher's Guides, Implementation Guide, Wonder Wally Storybook, 1 My Science Log Student Book, Safety & KWHL posters, Wonder Wally game, vocabulary cards, photo cards, safety rule cards, concept statement cards, wonder question cards, Student Experiment Materials*, and PDFs on disc plus a total of 10 consumable Student Workbooks, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

*Student Experiment Materials: 4 goggles, prism, 4 geodes, 3 minerals, 4 rocks, butterfly stage objects and garden, clay, styrofoam ball, storage bin, plus cases for cards and rocks.

FEATURES

- Four units (Five Senses, Rock Cycle, Earth and Sky, and Life Cycle) focus on the most frequently occurring science standards
- A list of skill-building benchmarks plus general education alignment objectives
- Embedded instructions for technology
- A chain of responses to guide students
- Scripted lessons to increase teacher fidelity and reduce prep time
- Progress reports using My Science Logs and end-of-unit assessments

RESEARCH

Smith, Spooner, Browder, and Jimenez (2011) demonstrated the effectiveness of the Early Science Curriculum with elementary students who have moderate-to-severe developmental disabilities, including autism. Students learned science vocabulary and concepts linked to grade-level standards.

[Visit our website for a research report.](#)

Teaching to Standards: Science

A SYSTEMATIC SCIENCE CURRICULUM FOR MIDDLE & HIGH SCHOOL STUDENTS

By Ginevra Courtade, PhD; Bree Jimenez, PhD; Katherine Trella, PhD; and Diane Browder, PhD

Two years of classroom research at UNC-Charlotte have shown this curriculum to be highly effective in teaching science vocabulary and engaging students with significant developmental disabilities in inquiry-based lessons. Students participate in a hands-on experiment during each lesson. Response pages help them engage in the inquiry process. Their own **ScienceWork Student Book** provides extension activities. Teachers follow scripted lessons that provide clear direction for individual student accommodations. The experiment materials included in the **Curriculum Plus** make it easy to prepare for class. An electronic **Image Library** can be used to create communication overlays and additional homework assignments.

The program features four units with five lessons each, all aligned to science standards and general education curricula: **Earth, Biology, Waters, and Chemistry**. All students learn scientific vocabulary like *pollution, precipitation, and condensation*.

This consumable **ScienceWork Extension Activity Book** provides ready-made worksheets for extended practice in and outside of the classroom! With over 60 activities, students practice science concepts in a variety of formats to generalize skills!

Aligned to Standards

GRADES 6–12

Teaching to Standards: Science

Curriculum	TE-S10J	\$249.00
Curriculum Plus	TE-S40J	\$549.00
Experiment Materials	TE-SEMJ	\$229.00
Extension Activity Book	TE-SE01J	\$69.00

Curriculum: 1 *ScienceWork* Student Book, 1 *ScienceWork* consumable Student Workbook, Student Response Guide, Implementation Guide, safety and KWHL posters, vocabulary and photo cards, staff training DVD, reproducible image library on disc, and PDFs of student materials and adaptations.

Curriculum Plus: The Curriculum plus a total of 10 consumable Student Workbooks, 10 *ScienceWork* Extension Activity Books, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, samples of communication overlays, and an experimental materials kit.

FEATURES

- Aligned to state standards and Next Generation Science Standards
- Systematic curriculum
- 2 years of classroom field testing
- DVD for staff training
- Scripted lessons
- Classroom License for Image Library and reprints of student materials

RESEARCH

Browder, Trella, Courtade, Jimenez, Knight, and Flowers (2012) found the inquiry-based lessons to be highly effective in teaching grade-level science concepts, vocabulary, and scientific process (with alternate achievement) for middle and high school students with significant developmental disabilities, including autism.

Explore Life Science

THEME-BASED APPROACH TO THE BASICS OF BIOLOGY

By Alex Bastian, Shannon Booth, and Don Bastian

This curriculum has five main components: Student Book, Instructor's Guide, Reference Guides, Study Cards, and Lab Materials.

The **Student Book** has 11 chapters, which cover four themes: Ecology, Evolution, Cell Biology, and Human Body Systems. Each chapter follows a consistent format: Chapter Title Page, Big Ideas, Major Illustration, Vocabulary Words, Overview, Important Topics, In Focus, hands-on Lab lesson, and Quiz/Review. The Student Book covers essential biology concepts but presents them with extensive illustrations and simplified text that can be read aloud to nonreaders. Vocabulary and the Big Ideas are emphasized throughout the chapters to help students learn the concepts.

The **Instructor's Guide** presents a sequence of 79 lessons. Each 45-minute lesson integrates use of the Student Book, Reference Guides, and animations. Three Student Book pages are typically covered per lesson. Suggestions for emphasizing the concepts are provided with key talking points. A disc with PDFs of student materials, assessments, and more is provided.

Four laminated **Reference Guides** are also included. These provide a large format for students to study the concepts. They present additional information to function as a lesson extension. **Study Cards** with each vocabulary word and Big Idea are also part of the curriculum.

Each chapter has a lab associated with it. Concepts are taught in a hands-on way with the **Lab Materials**. These include card games, microscope slides, an animal cell model, and much more.

A consumable **Student Workbook** is included so students can have their own book for the Big Ideas, Vocabulary, and Quizzes.

Lesson Sequence

big ideas

- Biotic and abiotic things make up our environment.
- Plants and animals have a big effect on their environment.
- Some animals change environments during the year.

Explore Life Science

vocabulary

biotic	abiotic
organization	A living thing.
abiotic	Not alive.
animal	An organism that often moves a lot.
organism	An organism that moves a lot.

chapter 3 overview

Explore Life Science

Chapter 3 ... Environments 37

in focus

Extinction

Extinction is the complete disappearance of a species from the planet. It happens when every member of a species has died. Over 99 percent of species that have ever lived are now extinct. There are many reasons why species can go extinct, including pollution, habitat loss, overhunting, and climate change. Whatever the cause, extinction is a result of species not being able to adapt to changes in the environment.

BEYOND THE BASICS OF BIOLOGY

By Alex Bastian, Shannon Booth, and Don Bastian

Reference Guides

The **Explore Biology Curriculum** is a full-year biology course for high school students with limited reading abilities, including those with intellectual disability or autism. The curriculum has six main components.

The **Student Book** has 11 chapters, including a supplementary chapter. The chapters cover everything from ecology to complicated cellular processes, and even genetics. Each page is heavily illustrated with 60 words per page so it can be easily read aloud to nonreaders. The consumable **Student Workbook** corresponds to the Student Book and reduces teacher prep time. The workbook condenses all of the student activities into a consumable option, giving students the opportunity to keep and share their accomplishments with peers, parents, and instructional staff.

The **Instructor's Guide** provides detailed lesson plans for all 82 lessons. Talking points add more information to a topic and ensure the lesson takes an appropriate amount of time.

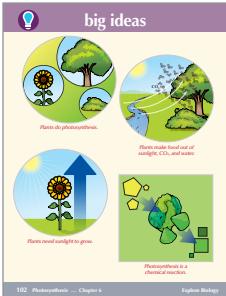

Four **Reference Guides** are included and serve different purposes. Write About It functions as a lesson adaptation for a component of the quiz. Animations serve as a review. Special Molecules function as lesson extensions. The Activities Reference Guide has activities that help students grasp complicated topics.

Lab Materials are used for the Lab lesson in each chapter. Many of the labs use special cards for the activity. A high-quality Animal Cell Model is also included as a great hands-on tool to teach about cells!

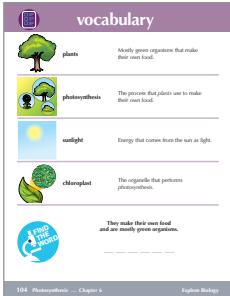

Study Cards for every vocabulary word and Big Idea help with review.

Lastly, a **USB flash drive** provides PDFs of the Student Book pages, lab materials, term tests, reference guides, animations, and an Explore Biology image library. This image library can be used to create communication pages for students who are nonverbal.

Attainment's **Simply Science Curriculum** is a standards-based curriculum that includes symbol-supported Student Books and Easy Reader Books, consumable Student Workbooks, and Teacher's Guides containing three- and five-day lesson templates as well as scripted sample lessons. Additional activities, projects, articles, and experiments are included on the USB flash drives.

Simply Life Science

A SYMBOL-SUPPORTED, STANDARDS-BASED LIFE SCIENCE CURRICULUM

By René Zelt and Jean Slater

Simply Life Science

Curriculum SLS-10J \$129.00

Curriculum Plus SLS-30J \$249.00

Curriculum: 2 Student Books, 2 consumable Student Workbooks, 2 Easy Reader Books, and Teacher's Guide with USB flash drive.

Curriculum Plus: The Curriculum plus a total of 20 consumable Student Workbooks (2 sets of 10), 8 Easy Readers (2 sets of 4), the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

This three-unit standards-based curriculum engages students with a variety of symbol-supported activities. The two **Student Books** contain 14 chapters, highlighting topics like animal life cycles, habitats, the food chain, survival, and the five senses. The **Teacher's Guide** provides a suggested three- and five-day lesson template to use as well as a scripted sample lesson for the chapter "Understanding Life Cycles." Additional activities, projects, and experiments are included on a **USB flash drive** for each unit chapter.

Simply Physical Science

A SYMBOL-SUPPORTED, STANDARDS-BASED PHYSICAL SCIENCE CURRICULUM

By René Zelt and Jean Slater

Simply Physical Science

Curriculum SPS-10J \$99.00

Curriculum Plus SPS-30J \$229.00

Curriculum: Student Book, consumable Student Workbook, Easy Reader Book, and Teacher's Guide with USB flash drive.

Curriculum Plus: The Curriculum plus a total of 10 consumable Student Workbooks, 4 Easy Readers, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

A standards-based curriculum for teaching students to learn concepts related to physical science through their engagement in hands-on activities, experiments, projects, and lessons (all provided on a **USB flash drive**). The **Student Book** has 10 chapters. The symbol-supported articles cover a variety of topics including electricity, circuits, energy, and magnets. A companion **Easy Reader** book is included for each chapter with one photo and minimal text per page. The **Teacher's Guide** provides a suggested three- and five-day lesson template to use as well as a scripted sample lesson plan for the chapter "Electricity Safety."

A five-chapter standards-based health curriculum that addresses making healthy food choices, the importance of exercise, healthy habits, and more! The curriculum includes a **Student Book**, **Teacher's Guide**, **Easy Reader** book, and a **USB flash drive** containing additional lesson activities, projects, and experiments. The **Teacher's Guide** provides a suggested three- and five-day lesson template to use as well as a scripted sample lesson plan for the chapter "Eating Healthy."

Science Step by Step

USES PHOTO SEQUENCES TO HELP STUDENTS COMPLETE HANDS-ON EXPERIMENTS

By Pat Crissey, MS

Science Step by Step

Introductory Kit	SSS-10J	\$99.00
Classroom Kit	SSS-20J	\$199.00
Student Book	SSS-01J	\$32.00

Introductory Kit: Student Book and Instructor's Guide with a PDF disc for classroom printouts.

Classroom Kit: 8 Student Books and Instructor's Guide with a PDF disc.

The materials needed for the experiments are common, everyday items you have on hand. Includes a Student Book and Instructor's Guide.

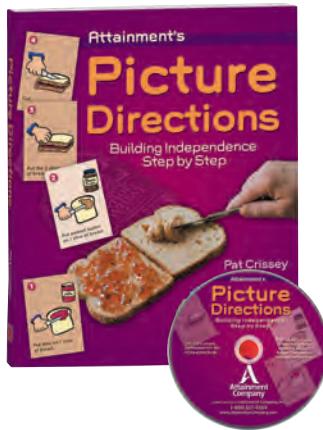

The **Student Book** has 52 experiments arranged by units: Water, Air, Light, Sound, Gravity, and Magnets. Activities vary from two to ten steps, each beginning with a materials list and ending with a two-choice observation. Materials, steps, and observations are all illustrated with clear, concise, and easy-to-“read” photos. Pages are laminated for durability.

The **Instructor's Guide** features a lesson plan for each experiment with a description of prerequisite skills, materials needed, teaching tips, and expected results. Each experiment is rated as beginning, intermediate, or advanced for fine motor and cognitive skills. This rating helps you assign experiments to students. The guide also includes a PDF file of the Student Book with a Classroom License for printouts.

Picture Directions

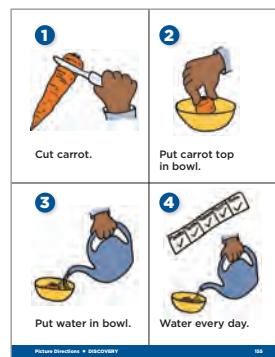

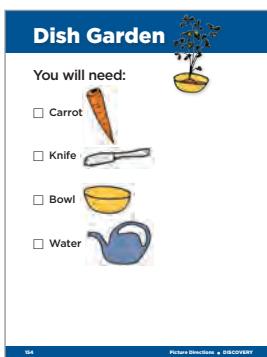

HELP STUDENTS SUCCESSFULLY PARTICIPATE IN CLASSROOM ACTIVITIES

By Pat Crissey, MS

Picture Directions

Print Book	PI-02J	\$49.00
eBook	EB-PI-02J	\$29.00

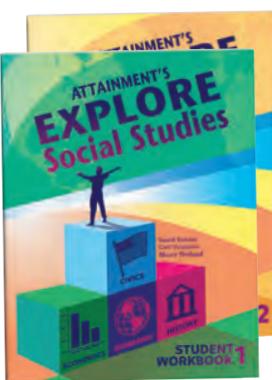

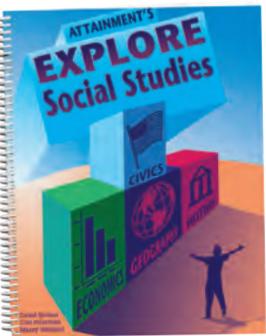

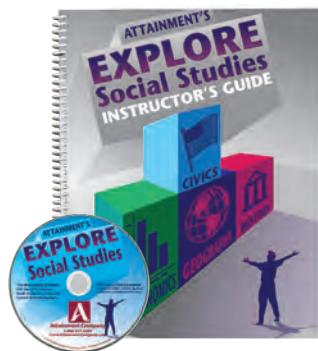

Especially appropriate for students with autism or intellectual disability, this program features 50 lessons, each with Teacher Tips, an illustrated “You will need” checklist, and step-by-step instructions (four to a page). Lessons are divided into five categories: Cooking, Crafts, Life Skills, Play, and Discovery. Teach students to “read” and follow a sequence of steps, complete important activities independently, and recognize sight words paired with illustrations.

Includes a PDF on disc with a Classroom License for printouts. Also available as a talking eBook in ePub format—ideal for the iPad.

Explore Social Studies

A LITERATURE-BASED CURRICULUM WITH TWO DISTINCT READING LEVELS

By David Nelson, Carl Stratman, and Marcy Weiland

GRADES 6–12

Explore Social Studies

Curriculum	ESO-10J	\$99.00
Curriculum Plus	ESO-30J	\$279.00

Curriculum: 1 Student Book, 2 consumable Student Workbooks, and an Instructor's Guide with a PDF on disc with a Classroom License for printouts.

Curriculum Plus: The Curriculum plus a total of 20 consumable Student Workbooks (10 copies of Book 1 and 10 copies of Book 2), the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

Explore Social Studies covers five disciplines: Civics, Economics, American History, World History, and Geography. Fifty topics explore big ideas like The Right to Vote and Pioneers Travel West. Includes a Student Book, Instructor's Guide, and two consumable **Student Workbooks** (Book 1 and Book 2).

The core feature of the **Student Book** is a collection of 50 illustrated essays with corresponding comprehension activities, arranged by discipline. These are written at two reading levels, organized into separate sections of the book. The higher level essays average a reading difficulty of fifth grade with about 275 words and five vocabulary terms per passage. The easier level contains simplified text with fewer words (75) and vocabulary terms (0–2). The two quizzes vary in difficulty as well. A third symbol-based quiz option, found on the PDF, helps nonreaders demonstrate their comprehension.

The **Instructor's Guide** links lesson plans with sample pages from the Student Book. The lessons organize topics into key concepts that reflect essential components of a social studies curriculum. The guide also includes PDFs of all student materials.

A sample page from the Student Workbook (Book 1) showing a story titled "Managing Your Personal Economy" and a matching quiz. The story discusses saving money in a bank and managing personal economy. The quiz asks questions like "Is it better to have more or less money?" and "What is a bank?".

A sample page from the Student Workbook (Book 2) showing a story titled "The Role of Money in an Economy" and a matching quiz. The story discusses the role of money in an economy and how it affects society. The quiz asks questions like "What is money?" and "How does money affect society?".

Level 1 story page & quiz

Level 2 story page & quiz

KEY CONCEPTS

Civics

- Foundations of the American political system
- Civic life, government, and politics
- Government for the people
- Coming to America
- Citizenship rights and responsibilities

Economics

- Buying and selling
- Financial systems
- Living in a global marketplace

History (World)

- Prehistoric life on Earth
- Civilizations rise and fall
- Writing down history
- The age of exploration
- History and art
- Sharing ideas and information
- Europe changes the Americas
- New technology and an industrial revolution
- Global crisis
- Global cooperation

History (U.S.)

- Colonization and settlement
- Revolution and a new nation
- New land for the United States
- Ending slavery and preserving the Union
- An American industrial revolution
- Global war changes the role of the United States
- Ten years of money trouble for the United States

- America enters another global war

- Working for equality and civil rights
- The American story continues

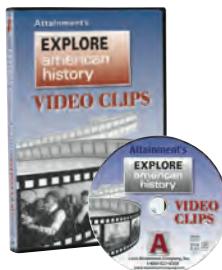

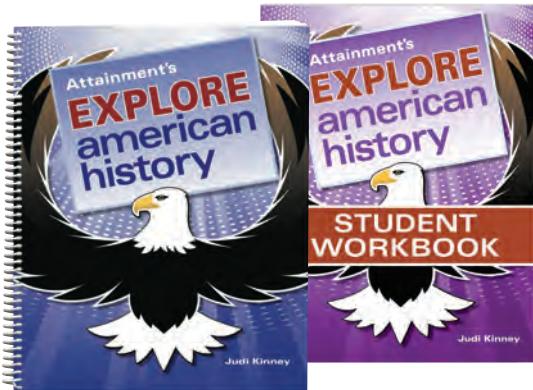

Geography

- Geographic tools and skills
- Looking at space and place
- Environment and society

Explore American History

A HISTORY CURRICULUM FOR STUDENTS PARTICIPATING IN ALTERNATE ASSESSMENTS

By Judi Kinney, MS

The **Student Book** has nine chronological chapters from "Early Years" to "A New Century." These follow a consistent format: Anticipatory Set, Vocabulary, History Stories, and two Quizzes. Twenty-five one-page biographies with corresponding comprehension exercises are also aligned to the curriculum's chronology. Simplified text is heavily illustrated and is intended to be read to the student, so there's no minimum reading level required. The curriculum emphasizes the use of important social study tools, like timelines, graphs, and maps. A consumable **Student Workbook** is included so students can have their own book for the Anticipatory Set, Vocabulary, and Quizzes.

The **Teacher's Manual** has a lesson outline for each page of the Student Book with Big Ideas, Additional Facts, and Extension Activities. It also includes a PDF of the Student Book on disc with a Classroom License for printouts.

Includes four, two-sided **Tools of History Mats**, each 14" x 20". They include two History of America timelines, Continents and Countries teaching maps, and African American and Native American photo collages.

The **Historical Video Clips DVD** has actual network news coverage of the 9/11 disaster, news footage of Henry Ford with Thomas Edison, and five other clips of historical value.

Lesson Sequence

VOCABULARY

pioneers		people who moved to West to live
trails		dirt roads pioneers used to move to the West
mountain men		men who made a living fur for money
forty-niners		people who moved to West to find gold
cowboys		men who looked after herds of cattle

Thousands of pioneers left their homes in the East and moved to the West. This movement created a country that would become very strong.

- Who do you think were American pioneers—people who moved to the West?
- How do you think people moved when there were no cars and trucks?
- What kind of dangers do you think the American pioneers faced?

58 WESTWARD HO!

Louisiana Purchase

One way the United States got more land was to buy it from another country. President Jefferson bought land from France. President Jefferson doubled the size of the country. He sent two explorers, Lewis and Clark, to find out how much land there was. They had to find out what kind of plants, animals, and people lived on the land.

60 WESTWARD HO!

Starting West

Pioneers began to move to the West. Land was cheap. Poor people, servants, farmers, and immigrants (people who came to this country from other countries) thought they could have a better life. People kept moving west until all of the land was settled. What do you think moving in a covered wagon was like?

62 WESTWARD HO!

QUIZ

Directions: Circle the answer.

- The people who moved west to start farms were called:
- People who looked for gold and silver in the west were called:
- People who traded furs for money and supplies were called:

70 WESTWARD HO!

QUIZ

Directions: Write or say the answer.

- Tell one thing about the life of a pioneer.
- Tell one group of people who moved west.
- Tell one way people travelled west.

A HISTORY CURRICULUM COVERING EARLY HUMANS TO MODERN TIMES

By Don Bastian and Tom Kinney

The **Student Book** has 14 chapters divided into three types: Keys to History, Historical Eras, and Historical Themes. Chapters follow a consistent format: Big Ideas, Vocabulary, Chapter Overview, Important Topic, Review, and Write About It. The simplified text is heavily illustrated and intended to be read to students who are nonreaders. Students are frequently presented with important social study tools, like timelines, maps, and tables. A consumable **Student Workbook** covers Big Ideas, Vocabulary, and Quizzes.

The **Instructor's Guide** presents a sequence of ninety-seven, 45-minute lessons by integrating the use of the Student Book, Reference Booklets, and video clips. The Guide provides PDFs on disc of all student materials plus chapter and unit assessments at two different levels.

The four laminated **Reference Booklets** provide a large format for students to study important timelines, maps, graphs, and tables. The **Lesson Plans Reference Guide** gives an overview of all 97 lessons, including the lesson type, the objective, the student book pages covered, and the lesson content. The **World Historical Videos**, provided on DVD and via online streaming, are short clips focusing on big topics like Making Stone Tools and the Rise of Agriculture. The 108 **Study Cards** help students review the big ideas in the chapter. These cards can also be used for the Write About It activity with students who are nontraditional writers.

Lesson Sequence

BIG IDEAS	RIVER VALLE	VOCABULARY	Early Civilizations	Mesopotamia	QUIZ
Governments were created to better manage larger civilizations.	Four important civilizations arose in river valleys around the world.	government social class city-state civilization	In the beginning of time, people lived in small settlements. When this era began, agriculture was spreading. People still lived in small permanent settlements. Then cities were formed. Governments were created to better manage them. Government had social classes that included a ruling class and workers. The ruling class provided leadership and more safety. The working class did jobs like farming and building. After a while, rulers expanded their power to nearby communities. They created city-states.	Mesopotamia is the land between two rivers. It was a great area to grow wheat. Many cultures have lived there. Writing was invented in the Sumer region. Sumerians built great cities like Ur. A neighboring city-state Akkad conquered Sumer in 2300 BCE. Together they formed a powerful empire. Later, Hammurabi from Babylon ruled Mesopotamia. He's known for Hammurabi's Code, a set of written laws.	5. Crop grew better on _____ land. Currency Population Fertile 6. _____ is a ranking of people in a society. City-State City-City Agriculture 7. Stone _____ makes stronger tools than bronze. Iron Protein

GoTalk® Duo

1 OR 2 MESSAGES WITH ENHANCED SOUND QUALITY

The new **Duo** provides different options with new, enhanced sound quality, one- or two-message capability, and a quick and easy way to change overlays. Find multiple uses with the one-message option; or use the duo mode for simple sequencing, multiple choice selections, or language exploration.

GoTalk® Duo

GTD-01J

\$59.00

GoTalk® One

It has a place for your own picture, a big play button, and it fits nicely in your purse or pocket.

GT-01J

\$15.00

GoTalk® 20+ Lite Touch

105 MESSAGES WITH INCREASED SENSITIVITY

Like customers have come to expect from our entire **GoTalk** line, the **GoTalk 20+ Lite Touch** is no exception! It provides wonderful sound with volume control, easy sequential recording, quick level erase, built-in overlay storage, record lock, level lock, and a two-year warranty. In addition to these features, the Lite Touch device is five times easier to activate! Use this **GoTalk** to participate in classroom activities, talk with peers, share personal stories, practice speaking and articulation, give instructions, engage in medical care communications, and more! Students can use this device or another **GoTalk** in all settings—at home, school, work, in the community, hospitals, and clinics, too!

GoTalk® 20+ Lite Touch

GTL-20J

\$349.00

FEATURES

- 20 message keys
- 15 minutes of recording time
- 5 recording levels
- 105 message capacity
- 2-year warranty

PLUS . . .

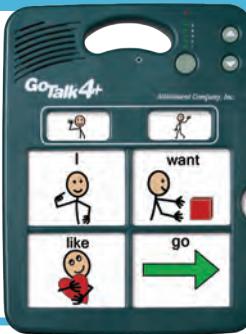

- 5x greater touch sensitivity
- Faster record and erase
- Convenient instructions on the back
- Great sound quality
- Built-in overlay storage
- Detailed User's Guide

GoTalks: Powerful, durable communication tools

GoTalk® 4+

GREAT FOR ESSENTIAL MESSAGES

Features 22 messages, five levels, and large message keys for easy access. Great for essential messages like "Hello," "Thank you," or "I have a question."

GoTalk® 4+

GoTalk 4+ GT-04J \$199.00

with GoTalk Overlay Software GT-S04J \$229.00

Size: 9" x 12" x 1 1/8". **Weight:** 23 oz. Total recording time: 4.25 min., 2 AA batteries, 2-year warranty.

GoTalk® 9+

EASY TO PROGRAM

Record nine messages on level one, change picture overlays, and record four additional levels—48 messages in all. Also, three core messages remain constant on each level. Great sound quality!

GoTalk® 9+

GoTalk 9+ GT-09J \$219.00

with GoTalk Overlay Software GT-S09J \$249.00

Size: 9" x 12" x 1 1/8". **Weight:** 23 oz. Total recording time: 8.25 min., 2 AA batteries, 2-year warranty.

GoTalk® 9+ Lite Touch

SUPER SENSITIVE TO TOUCH

The Lite Touch device is five times easier to activate than the classic GoTalks! Use this GoTalk to initiate conversations, support communication in daily activities, talk on the telephone, tell personal anecdotes, and more!

Students can use this device or another GoTalk to show the teacher what they know. In the hospital, use a GoTalk to greet visitors, make comments or requests, ask questions, or discuss emotions.

GoTalk® 9+ Lite Touch

GoTalk 9 + Lite Touch GTL-09J \$319.00

with GoTalk Overlay Software GTL-S09J \$349.00

Size: 9" x 12" x 1.2". **Weight:** 20 oz. Total recording time: 9 min., 2 AA batteries, 2-year warranty.

GoTalk® 20+

FOR MORE COMPLEX COMMUNICATION NEEDS

GoTalk 20+ features 20 message keys, each 1 1/8" x 1 1/8", with a 100+ message capacity. Five core messages remain the same when you change levels so they don't need to be re-recorded for each level. Another powerful GoTalk communication device! Buy together with the GoTalk Overlay Software and the GoTalk Carry Stand for a complete GoTalk Package.

GoTalk® 20+

GoTalk 20+ GT-20J \$249.00

with GoTalk Overlay Software GT-S20J \$279.00

with GoTalk Overlay Software and Carry Stand GT-SB20C \$299.00

Size: 9" x 12" x 1 1/8". **Weight:** 23 oz. Total recording time: 15 min., 2 AA batteries, 2-year warranty.

GoTalk® 32+

FIVE LEVELS WITH HUGE 163-MESSAGE CAPACITY

Functions like the GoTalk 4+, 9+, and 20+, but with 32 messages plus three core vocabulary keys. It's a GoTalk—easy to use and affordably priced. Now includes a free shoulder strap.

GoTalk® 32+

GoTalk 32+ GT-032J \$279.00

with GoTalk Overlay Software GT-S032J \$309.00

Size: 14 1/4" x 10" x 1 5/8". **Weight:** 2.1 lbs. Total recording time: 19.5 min., 2 AA batteries, 2-year warranty.

GoTalk® Express 32

IDEAL BRIDGE BETWEEN LOW-TECH AND DYNAMIC DISPLAY

Auditory cues (1.5 seconds) or beeps

Play up to 8 messages in sequence

Headphone access

Visual Cues – 4 LEDs surround each message

The MOST advanced GoTalk!

GoTalk Express 32 is easy to use, yet powerful. Exciting features have been added, like surround-message LEDs for visual prompts, an option to add a 1.5-second auditory cue to any message, and the remarkable ability to seamlessly play multiple messages in sequence. Plus, it's a fully functional scanning device.

Choose between two methods of operation: Standard and Express.

Standard works like any GoTalk—touch a message key and it talks. With Express, users link messages together to play in sequence. Available with GoTalk Overlay Software.

GoTalk® Stands

A DISCREET, CONVENIENT, EASY-TO-USE TOTE

This lightweight, durable green vinyl folder fits the GoTalk 4+, GoTalk 9+, and GoTalk 20+. It holds GoTalks securely when closed and opens easily for use as a stand. A new and improved design makes this stand better than ever!

Fits both the GoTalk 32+ and GoTalk Express 32. It's machined from expanded so it's lightweight and durable. Stores when not in use.

GoTalk® Stands

GoTalk Carry Stand GT-B00J \$49.00

GoTalk 32 Stand GT-ECSJ \$89.00

GoTalk 32 Stand fits: GoTalk Express 32 and GoTalk 32+ Stand size: 14 1/2" x 12" x 1 1/2" when flat.

Weight: 2.5 lbs. (without GoTalk).

GoTalk® Overlay Software

MAKE GREAT-LOOKING OVERLAYS WITH MINIMAL TIME

This version comes with the complete Imagine Symbol Library and an integrated online search feature that gives you instant access to millions of images. You can export files in PDF, JPG, or PNG formats, making it easy to email overlays to others. Also available with SymbolStix, a complete library of 12,000 symbols.

Editing features let you adjust text color, size, and font. Move, enlarge, rotate, and crop pictures. Choose from dozens of ready-made templates for all of Attainment's AAC products, standard paper sizes, and multiple layouts for schedule posters. Software is **Windows only**.

Empower Communication Board

FRONTLINE HEALTHCARE COMMUNICATION

Developed by Jane K. Quarles, MS, CCC-SLP and Melanie Wood, MS, OTR/L, ATP

The Empower Communication Board (ECB) allows individuals with communication challenges to participate in and direct their care.

The board offers multiple overlay designs based on research to suit the cognitive, linguistic, and motor needs of the individual. It can be used as a single overlay to gain attention, answer *yes/no/I don't know* questions, or a combination of overlays can be used to deliver a more complex message. The convenient dry-erase page allows the patient or listener to write or draw items to ensure messages are understood.

Research supports the use of video modeling techniques to train communication partners. Attainment is excited to offer staff, families, and friends the opportunity to access an easy-to-use video tutorial via a QR code on the ECB. The video provides quick training at bedside as needed.

Empower Communication Board

Big Button & Big Button with Steps and Levels

POWERFUL COMMUNICATORS WITH EASY-TOUCH ACTIVATION

Both have the qualities you expect from an Attainment communication device: great sound, durability, affordability, and ease of use. A transparent cap—with an opening to quickly slide in overlays—screws onto the Big Button. The cap extends nearly to the table surface, giving the Big Button a large active area with an extremely low profile. Communicate without even lifting your hand off the table!

The **Big Button** has two modes: single message and tap-to-talk. In both modes you get great-sounding communication. In tap-to-talk mode, the user chooses one to three messages controlled by the number of button taps (similar to single- or double-clicking a computer mouse). One tap of the button plays the first message, two taps the second, and three the third.

The **Big Button with Steps and Levels** has two modes: steps and levels. In steps mode, record three activities, each with up to 10, 6-second steps. After you record and select an activity, play the steps in sequence, one by one. An LCD indicates the activity and step number. Level mode gives you an additional 10 messages. The message stays the same until you change the level.

TimeCue

A SINGLE-MESSAGE, SPEECH OUTPUT DEVICE LINKED TO DIGITAL CLOCK AND TIMER

This single-message device lets you record a message and set the digital clock to play it back at a selected time. Ideal for reminders, especially for transitions between activities.

Personal Talker

A POCKET-SIZE, SINGLE-MESSAGE DEVICE TO SUPPORT THOSE WITH LIMITED TO NO SPEECH THROUGHOUT THEIR DAILY ACTIVITIES

This pocket-size device allows someone to communicate a single message with ease.

Communication Books

CHOOSE THE SIZE YOU WANT

The **Personal** and **Large Communication Books** are very durable, lay flat when open, and have large tabs for easy page turning. Sturdy plastic pages contain transparent pockets (3" x 3 1/2") for communication cues. Each pocket can hold single or multiple communication options. The Personal Book is the smaller choice with one pocket per page, while the Large Book has three pockets per page. Both books contain twelve pages.

GoTalk® NOW

INCLUDES CORE WORDS AND CURRICULUM COMMUNICATION PAGES

NOW includes Core Word Pages

GoTalk NOW provides all the tools you'll need in an AAC app, plus so much more! Newly included with NOW are the Core word communication pages. Core vocabulary refer to a small collection of words that make up the majority of words used in daily communication. Now you have instant access to a set of pages, field-tested and created by SLP Gisele Morin-Connolly, based on Project CORE research from UNC Center for Literacy and Disability Studies. These Core pages will be a great starting point and will have you communicating in no time. Communicate using one word to 36 words enhanced with these core pages and more! Create and add new pages that suit your personality too. Choose from four mix-and-match page styles: Standard, Express, Visual Scene, and Keyboard.

Core Word Pages

Additionally, offered are **GoTalk NOW Curriculum Pages**. These pages correspond to the curricula that comprise Attainment's **Core Curriculum Solution** and are available through the Online Template Gallery. Enjoy instant access to resources that will give students the opportunity to engage and participate in classroom activities.

GoTalk NOW gives flexibility and access. Use one or multiple images with unlimited text. Choose text-to-speech or recorded audio for message content. Jump to any communication page, even from a different communication book. Add auditory cues to both auditory and visual scanning. Select auto or step scanning, adjust speed, and choose individual patterns for more efficient scanning. Record video modeling sequences to pair instruction with communication. Play music to heighten interest. Share communication books with others via WiFi or AirDrop. Back up your communication books with Dropbox or iTunes.

GoTalk NOW includes the GoTalk Image Library and employs built-in iOS text-to-speech voices. You can enrich GoTalk NOW with in-app purchases. Picture Communication Symbols (PCS) and SymbolStix libraries are available, as are high quality male, female, and child voices from Acapela. Add premade communication books by AAC experts and hit the ground talking.

GoTalk® NOW Plus

Offers the complete GoTalk NOW App without downloading any in-app purchases. Incorporates all the features of GoTalk NOW.

Plus the SymbolStix library.

Plus Ready-Set-Communicate by Celeste Helling, an in-app communication book.

Plus seven Acapela® text-to-speech English voices.

APP-IN-PN-J

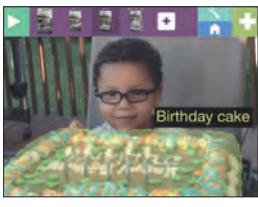

\$50.00

GoVisual™

TURN YOUR PHOTOS AND VIDEOS INTO LITERACY AND COMMUNICATION OPPORTUNITIES

Make a simple scene with hotspots to communicate information or ideas.

Transition to Literacy (T2L) is both voice output and the dynamic presentation of text (e.g., the word).

Create a collage of images to tell a story.

Communicate in the moment with the **GoVisual** app for iPhone and iPad. Scenes made on one device work seamlessly on the other. Add an image to your blank canvas to create a visual scene, play a video, and create a video scene display to communicate. Increases student engagement by getting them involved in the creation of their own communication! Just-in-time programming makes it easy for kids to draw a hotspot, add text-to-speech, or record a voice for playback. Enriches language development while providing powerful communication in the interaction!

GoVisual includes the Transition to Literacy (T2L) feature—a word pops up on display in the scene for three seconds of on-screen time—which has been shown to dramatically increase literacy comprehension. This technique is proven effective in research studies at Penn State University, www.RERC-AAC.PSU.edu. Improve communication and literacy for your students.

If you currently use GoTalk NOW, you can easily link to GoVisual to play your video scene display and go right back to your communication book in GoTalk NOW. Video Scene Displays are also a great way to model job tasks and to help young adults communicate in their workplace!

GoTap Braille

A FRAMEWORK FOR TEACHING BRAILLE

GoTap Braille

GTB-10J

\$749.00

Includes: GoTap Braille iPad App, 32 overlays, 5 templates, tactile manipulatives, and the GoTap Braille Guidebook.

GoTap Braille is an exciting new iPad app that teaches and reinforces braille. Designed for inclusive settings in the early years, following a framework in which typically developing peers learn to read, the app teaches the over 180 Unified English Braille (UEB) contractions contained in Dolch and other sight words. Sighted peers can sit alongside and learn the same words, sentences, and paragraphs in print.

Field-tested **GoTap Braille** is engaging and interactive. With over 80 pages of activities including tactile manipulatives and overlays, students can reinforce tactile discrimination skills, match words, create words, and sentences, and read sentences and paragraphs all with auditory feedback. The included **GoTap Braille Guidebook** discusses rationale and how to get started with this early literacy program. Also, the guidebook provides suggestions for supplemental technologies, along with sample lessons showing how teachers can further engage students in learning braille. **GoTap Braille** was designed to be used by a teacher of the visually impaired (TVI) but because of its unique features, can also be used by a paraprofessional working under the direction of a certified TVI.

GoVisual™

APP-GV-07J

\$50.00

- Create video scenes
- Draw hotspots with your finger
- Transition to Literacy (T2L)
- Use speech-to-text or text-to-speech
- Uses machine learning to help identify objects and shapes
- Create collage scenes with multiple images
- Link to GoTalk NOW if desired
- Send scenes/collections wirelessly
- Create multiple scenes using drag-and-drop

GoWorksheet Maker

QUICKLY CONVERT PRINTED WORKSHEETS INTO CUSTOMIZABLE, INTERACTIVE ACTIVITIES ON AN IPAD

Do you have a stack of printed worksheets in your classroom that you'd love to use, but some of your students struggle with pencil-on-paper activities? **GoWorksheet Maker** easily solves this problem by converting printed worksheets to customizable digital forms on an iPad. Now all your students can read and answer worksheet questions.

GoWorksheet Maker has full editing capabilities for teachers to use, while **GoWorksheet** is a free app that students use to work on digital worksheets.

Take a photo of the printed worksheet or open an image or PDF file in the app. Then customize the digital worksheet to your student's needs. Create text fields, word banks, and drag-and-drop text or image answers. Supportive auditory options can also be added to text or image answer choices. The app uses optical character recognition (OCR) and text-to-speech to read selected text aloud. Additional auditory instruction or student prompting can be added.

Students answer questions by selecting from word banks, typing on a keyboard, tapping to select from multiple choices, dictating with Siri, circling or drawing connecting lines with a draw tool, or dragging answer choices.

GoWorksheets can be shared through AirDrop, email, print, any cloud storage set up on the iPad (Google Drive or Dropbox), or saved to Photos. Requires iOS 10.0 or later.

Now included in
all Curriculum
Plus packages

- Easily store and share worksheets

Assessment Plus

COLLECT DATA QUICKLY AND EASILY WITH WORD BANKS, TEXT FIELDS, MULTIPLE CHOICE SELECTIONS, PAINTBRUSH TOOLS, AND MORE!

Our new **Assessment Plus iPad App** is a teacher utility that allows you to import any assessment or data collection form and digitize it! Simply open an image or PDF file of any data collection form. Then customize the form to make data collection manageable for both teachers and paraeducators alike. Create multi-line text fields to include customized comments or concerns. Generate word bank options that can be used repeatedly. List prompt types for each assessment item—verbal, model, partial physical, full physical—or quickly add a (+) or (-) sign for easy tracking. Use the multiple choice feature to compile a rating scale from 1–5 on student performance. Enable the paintbrush tool to simply write or circle the assessment items. Then, share the data collection forms through AirDrop, email, print, any cloud storage set up on the iPad (Google Drive or Dropbox), or saved to Photos. The **Assessment Plus iPad App** allows you to collect and save data in real time. Ideal for all teachers and instructional staff!

Achieving Communication Competence

A COMPREHENSIVE FUNCTIONAL COMMUNICATION PACKAGE AT A GREAT PRICE

By Yvonne Gillette, PhD, CCC-SLP

Achieving Communication Competence

Book	ACH-02J	\$69.00
Package	ACH-020J	\$289.00

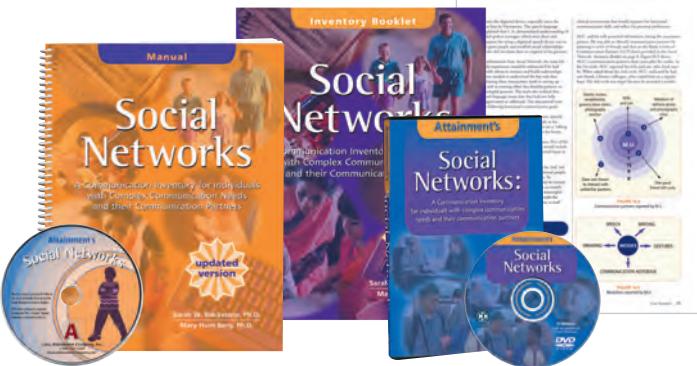

Package: The Book, 50 printed overlays for functional activities (one set each for the GoTalk 20+ and the GoTalk Express 32), GoTalk Overlay Software, and a GoTalk 20+.

Available as a book with reproducibles or a Package including the Book plus multiple AAC components. The **Book** details a three-step process for creating an effective intervention plan for people with a severe communication disability. First, assess the environment, including settings, opportunities, and communication partners. Next, assess communication skills and write messages, design displays, and select partners. Finally, implement the plan and report on progress. Assessments, inventory forms, guides, and detailed case studies lead you through this process. Conversation scripts for 50 functional activities are the centerpiece of the book. Includes a disc with digital versions of the forms and overlays.

Social Networks

Program: Professional's Manual, Inventory Booklet, and DVD.

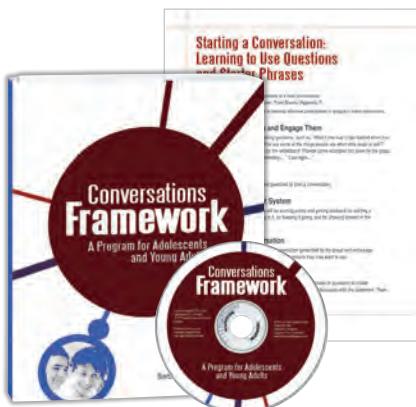

The **Professional's Manual** describes the use of the Inventory Booklet and the Circles of Communication Partners Form, plus provides in-depth case studies. It also includes a disc with digital versions of the Inventory Booklet and Forms, so you can print additional copies or complete them on the computer. The **Inventory Booklet** is a 24-page assessment of an individual's communication skills, preferences, and partners, plus a planning tool to support successful conversations. The **Social Networks DVD** provides excellent training for staff on evidence-based AAC strategies. It includes videos of people with a communication disability in natural settings and interviews of experts in the field.

Conversations Framework

PLAN AND IMPLEMENT A SOCIAL COMMUNICATION INTERVENTION PROGRAM FOR MIDDLE AND HIGH SCHOOL

By Barbara Hoskins, PhD, CCC-SLP and Kristine Noel, MS, CCC-SLP

The framework is effective for students whose verbal skills widely range from those fluent in conversational speech to AAC users. It consists of two key instructional elements, Conversation Moves and Foundation Skills, plus a progress monitoring system. Conversation Moves, like starting a conversation and changing a topic, are taught sequentially, with the instructor functioning as model, moderator, and coach. Additional activities address Foundation Skills like turn taking and mutual focus. Students learn by interacting with their peers in guided conversations during organized classroom sessions. Rubrics and assessments help you monitor student performance. Includes PDF with all forms and rubrics on disc with a Classroom License for printouts.

Guide to Clinical Supervision

By Angela Sterling-Orth, MS, CCC-SLP; Trici Schraeder, MS, CCC-SLP; and Ginevra Courtade, PhD

A SET OF TOOLS AND STRATEGIES FOR SUPERVISORS AND MENTORS OF CLINICAL STUDENTS

Guide to Clinical Supervision provides the tools, tips, and strategies needed to navigate the complex nature of the supervisory process. Graphic organizers provide quick and easy displays of complex, dynamic processes. This straightforward guide summarizes several evidence-based supervisory models and supervisory styles. This amazing guide is appropriate for all healthcare, clinical, educational, and helping professions.

TabletTable®

SECURES IPAD FOR EASY ACCESS!

We've worked extensively with engineers, teachers, therapists, and parents to improve access to the iPad. **TabletTable** makes your iPad easy for students to see and reach. It's built like a solid-state slant board at an ergonomically sound 22-degree angle. Its solid construction and nonskid bottom increase both security and stability. The TabletTable provides extra convenience and protection by including Attainment's new **Grab & Go Case**. Place your iPad into the foam rubber case, and it fits perfectly into the TabletTable's enclosure. Want to remove your iPad from the TabletTable? No problem! Simply pull out the Grab & Go Case, and your iPad is still protected and ready for any activity. TabletTable provides easy access to all iPad ports, including the charging port.

TabletTable fits the iPad Airs, iPad Pro 9.7, and iPad (2017 & 2018)

GO NOW™ CASE FOR iPADS 10.2 & 10.5

THE ONLY iPAD CASE YOU WILL EVER NEED!

This lightweight case can really pack a punch with its durable, high impact, shock-absorbing rubberized edging.

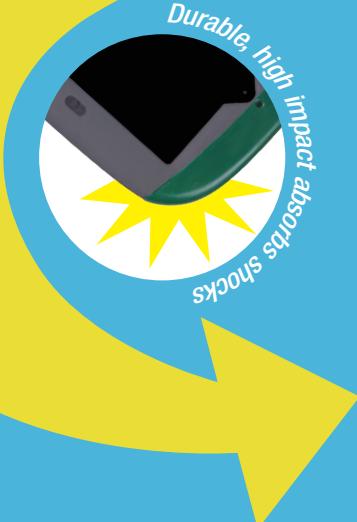

The heavy duty, hard plastic shell can withstand most of life's ups and downs, while the built-in rubber lining and foam insert keep the iPad safe. This patent-pending design enhances the iPad volume using acoustic speakers that do NOT require charging of any kind! The fold-out feet make them ideal for keyboarding, while the handle is great during transport! Easy access to volume, power, headphone jack, and charging ports.

This new **GoNow Case** is available for the iPad 10.2 and the iPad Air 10.5. Complete package includes **Shoulder Strap**, **Screen Protector**, and reversible **CoverStand**.

GO NOW™ CASES FOR iPADS

FITS iPAD AIRS, iPAD PRO 9.7,
iPAD (2017 & 2018)

iPad not included GoNow Case for iPad Airs, Pro 9.7, and iPad (2017 & 2018)

Carry, protect, and enhance the sound of your iPad with Attainment's **GoNow cases**. Rubberized edging with sure-grip handle, hard plastic exterior, and foam padded interior protect your iPad from the bumps and drops of everyday life. Their patent-pending designs increase audio clarity and volume. The fold-out feet make them ideal for keyboarding. Easy access to all iPad controls and the charging port lets you leave the case on wherever you go. The case fits the iPad Airs, the Pro 9.7-inch, and the iPad (2017 & 2018) models. Complete Package includes **Shoulder Strap**, **Screen Protector**, and reversible **CoverStand**.

ADDITIONAL PROTECTION AND CONVENIENCE
WITH ATTAINMENT'S GO NOW CASES

CoverStand

Two...two...two tools in ONE! This ingenious dual-purpose CoverStand will protect the iPad screen while in transit and prop it up while in use! The angled stand elevates up to 35 degrees. It fits all GoNOW Cases for standard iPads but does not fit the iPad Mini Case.

Shoulder Strap

Need your iPad on the go? Don't forget the Shoulder Strap for your GoNow case! This strap attaches to the lanyard holes built in to all GoNow Cases. The strap has breakaway buckles so it can be worn over the shoulder or around the back of the neck. It is ½-inch wide with an adjustable 1½-inch-wide shoulder pad. The total adjustable length is 36 to 48 inches.

Screen Protectors

Keep your iPad screen protected from dust, grime, nicks, and scratches with the GoNOW Screen Protectors. These vinyl sheets do not adhere to the iPad screen, allowing for easy cleaning. These are available for all iPad and iPad Mini cases.

- Maintains single student log
- Individualizes settings
- Provides report writing options

OPTIMIZED INTERVENTION®

- Administers quick initial assessment
- Adjusts lessons automatically
- Collects extensive data
- Encourages independence

Creature Chorus

Develop mouse, touchscreen, and single switch use skills with **Creature Chorus**. Creature Chorus is the first step in language intervention and teaching computer access. It features nine activities that progress from cause and effect training to visual tracking and discrete pointing.

First Words & Verbs

First Words & Verbs has highly structured teaching of nouns and verbs in developmental order. These three research-based software programs (**First Words**, **First Words II**, and **First Verbs**) build core vocabulary.

Using Laureate's Optimized Intervention® technology, the programs begin by identifying five words the student doesn't know. The student then chooses between two pictures to identify the first word. As responses are monitored for each word, the teaching is automatically adjusted to one of five levels. Engaging animated characters reinforce correct answers and introduce expanded language. At the end of each lesson, a summary of the student's performance can be reviewed.

Exploring Nouns & Verbs

Build vocabulary, encourage verbal expression, and facilitate social interaction with **Exploring Nouns & Verbs**. Students explore and interact with nouns and verbs in natural settings. Select which scenes will be used and how many items are taught in each. The programs begin by offering instruction on each object in a scene. The student is then asked to identify the nouns or verbs. Once a student can identify each vocabulary item in a scene without instruction, the program automatically moves to the next scene. Extensive data collection documents student performance. Built-in reports allow you to easily track student learning and ensure accountability.

Laureate Early Vocabulary Series

LRS-01J \$399.00

Includes: Creature Chorus, First Words & Verbs, Exploring Nouns & Verbs, and Talking Nouns & Verbs.

Talking Nouns & Verbs

Give students with language impairment the opportunity to communicate with **Talking Nouns & Verbs**. These three research-based software programs (Talking Nouns I, Talking Nouns II, and Talking Verbs) help language-impaired students communicate. Select a word, phrase, or picture to make the computer speak.

The programs offer a variety of activities that reinforce vocabulary comprehension, teach the formation of grammatically correct sentences, improve visual discrimination, and develop conversational turn-taking. They also offer an economical way to teach the skills needed to use a dedicated augmentative communication device.

First Categories

Teach categorization skills with **First Categories**.

Categories. This program uses 60 common nouns in six categories to teach categorization skills. Innovative activities, 120 illustrations, 120 photographs, and exciting 3D animation make this program fun and effective. Choose full-screen scenes and 3D blocks for learners who are motivated by visual stimulation or a simple black background for those who are easily distracted.

Following Directions®

Help students listen more effectively with **Following Directions**. The program features engaging 3D objects, characters, and animated reinforcements. Following Directions® uses Laureate's Optimized Intervention® technology to tailor instructional delivery to each student's unique needs. It begins with an assessment to determine where to start and then automatically guides the student through the entire curriculum. Extensive data collection and built-in reports allow you to quickly assess progress and ensure accountability.

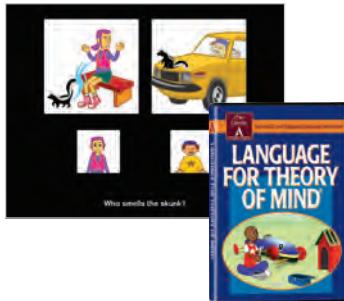

Following Directions: Left and Right includes 10 modules to improve the student's ability to follow directions and develop left/right discrimination skills. Begin by identifying right and left hands on the screen and move through a series of increasingly complex tasks involving directionality and mirrored images.

Following Directions: One and Two Level Commands offers eight modules designed to exercise the skills necessary for following directions that include spatial, directional, and ordinal terms.

Language for Theory of Mind®

Learn about intentions, perceptions, and desires with **Language for Theory of Mind**. Theory of Mind (ToM) involves the recognition that people have sensations, desires, knowledge, thoughts, and beliefs that influence their behavior. Researchers have increasingly recognized the importance of language for the development of ToM.

Fundamental to the development of ToM is an appreciation of how others come to possess information. This program helps students master verbs of perception (e.g., see, hear, smell, taste, feel) in various contexts and understand what others can or cannot perceive. This program also introduces verbs of intention/desire (e.g., want, need) and helps students understand that other people's wants and needs play a critical role in explaining their behavior.

Laureate Expanding Language Series

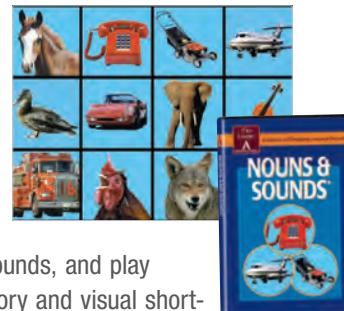

LRS-02J \$399.00

Includes: First Categories; Following Directions; Nouns & Sounds; My House, My Town, My School; and Language for Theory of Mind.

Nouns & Sounds

Increase auditory awareness with **Nouns & Sounds**.

In this engaging program, students explore nouns, match them with 100 realistic photographs, identify common environmental sounds, and play games that exercise auditory and visual short-term memory. Of the 100 nouns used in the program, half are acquired by typically developing children by 2½ years of age, while the remainder are acquired later.

My House, My Town, My School

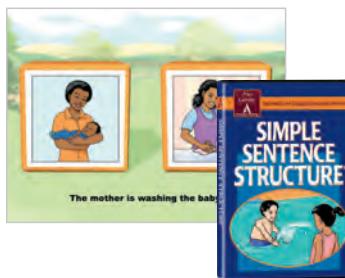

Students explore functional vocabulary with **My House, My Town, My School**. You select which scenes to use and how many items

are shown in each scene. Using Laureate's Optimized Intervention® technology, the programs begin by offering instruction on each object in a scene. Then the student is asked to identify the items without instruction. Once the student can identify each vocabulary item in a scene without instruction, the program automatically moves to the next scene.

Simple Sentence Structure

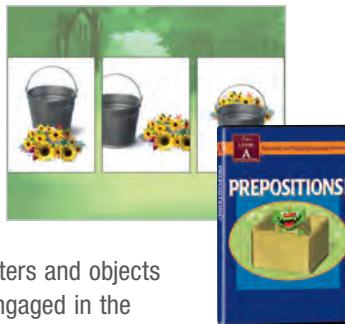

Simple Sentence Structure is a pioneering language intervention program for students who have a core vocabulary of nouns and verbs but are having difficulty conveying meaning. It teaches the importance of subject-verb-object word order in sentences.

Prepositions!

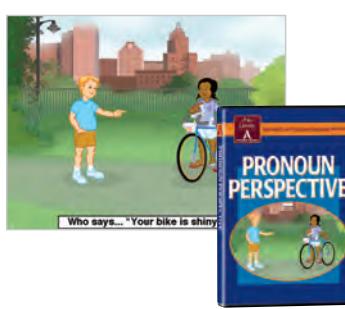

Proven strategies to help students master essential prepositions and follow simple directions with **Prepositions!**

The program includes six modules that cover 10 important prepositions in a variety of contexts. Captivating three-dimensional characters and objects illustrate the prepositions and keep students engaged in the learning process.

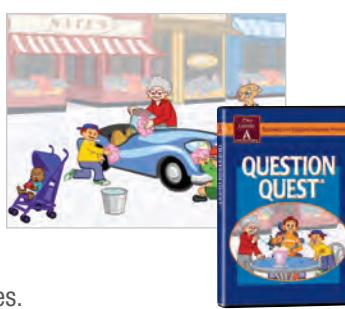

Pronoun Perspective

Learn first- and second-person pronoun usage with **Pronoun Perspective**. Systematically teaches first- and second-person pronoun usage to improve both oral and written performance. Students select one of two on-screen images that best reflects a computer-generated speech prompt like "I have a ball."

QuestionQuest®

Understand and answer spoken questions with **QuestionQuest**. This three-level software series teaches students to understand and answer spoken questions. Question types include Who, What, Where, Why, How, With What, and Yes/No. Questions become more difficult as the student progresses.

LanguageLinks®

Assess and teach 75 essential grammatical forms in developmental sequence with **LanguageLinks**. This six-level software series tailors instruction to each student's needs. It begins with an assessment to determine where to begin training and automatically adjusts lesson delivery based on the student's responses. Reinforcement animations entertain and provide additional language enrichment. At the end of each session, you can review and print student performance reports. LanguageLinks encourages students to work independently and is ideal for both inclusive and self-contained classrooms.

LanguageLinks® Expressive Syntax Assessment (ESA)

Tests 35 syntactic forms critical to sentence comprehension and expression with **LanguageLinks Expressive Syntax Assessment (ESA)**.

Four sections, each section testing 8 to 10 syntactic forms such as *is verb + ing*, *articles*, *N-V agreement*, *possession*, and *is verb + ed*. Administration time ranges from 5 to 10 minutes per section. The assessment is appropriate for young students with IEPs, older students with significant language impairments, or students in a kindergarten or first grade response-to-intervention program who have not yet mastered major syntactic forms. Follow up the assessment with intervention lessons using **LanguageLinks to Literacy**.

Transition

PRE-ETS! HEALTH! SOCIAL SKILLS! LIFE SKILLS!
WORK SKILLS! SELF-DETERMINATION!

Job Skills Stories

REINFORCE THE 5 PRE-ETS CATEGORIES THROUGH
100 SHORT STORIES

By Ellen McPeek Glisan, PhD and Whitney Fowler, MEd

Job Skills Stories curriculum, for high school students and young adults, emphasizes the five categories in Pre-ETS: **Job and Career Exploration**, **Work-Based Learning**, **Post-Secondary Training**, **Workplace Readiness**, and **Self-Advocacy**. One-hundred stories are presented in five **Job Skills Stories Student Books**. Each book is aligned to a Pre-ETS category. The stories cover key transition skills like *identifying one's strengths*, *decision-making*, and *self-determination*. The **Job Skills Reader** condenses and simplifies content by using captioned photos to convey each story's big idea. Both the **Student Books** and **Reader** cover lesson objectives, so you can teach with the version that best suits each student.

Student progress is measured with the quizzes from the **Student Books** and **Reader**. An optional vocabulary quiz is also included with the digital content via the **Attainment Hub**. Quizzes from the **Reader** can be used with the **GoWorksheet Maker App** for additional supports.

The **Instructor's Guide** outlines 100 lessons with learning objectives, IEP goals, and teaching procedures.

While the lessons rely heavily on the stories from the **Job Skills Student Books** and the **Job Skills Reader**, they are meant to be extended with the *Independent Living Skill*, along with a downloadable PDF activity resource and the Lesson Extension. A great companion product to our **Pre-Employment Transition Solution**.

Vocabulary Cards

Response Cards

UPGRADE is a research-based curriculum focusing on student employment goals in high school, a post-secondary program, or on the job. UPGRADE provides students with strategies for self-evaluation, like self-monitoring and goal setting. There are six units of instruction emphasizing soft skills necessary for school, work, and community success. These units are *Attitude and Cooperation*, *Reliability*, *Productivity and On Task*, *Teamwork and Communication*, and *Quality of Work*. After instruction, 10 UGRADE lessons teach both the professional and the student to evaluate performance in each soft skill category. The **UPGRADE STRATEGY** is outlined above. Currently, three studies have been conducted examining the effects of UGRADE on the acquisition of soft skills for students with disabilities (Clark, Konrad, & Test, 2018; Clark, Test, & Konrad, 2019; Clark & Test, under review). Visit our website for details.

The **Instructor's Guide** provides scripted lessons, clear learning objectives, PowerPoints, role plays, and data collection forms. In addition, extensive video resources support student comprehension.

A consumable **Student Workbook** outlines activities for each lesson, notes for PowerPoint lessons, student data collection forms, video rating charts, and a UGRADE Performance Instruction Sheet.

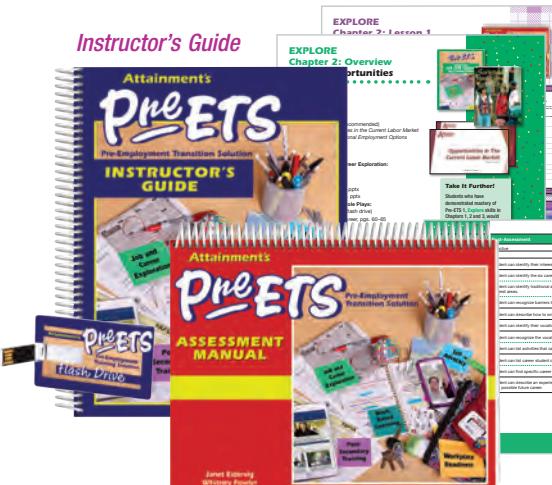

UPGRADE also includes **Response Cards**, **Ticket-Out-The-Door Cards**, **Graphic Organizers**, **Vocabulary Flashcards**, access to the **Attainment Hub** for reproducible content, and the **GoWorksheet Maker** and **Assessment Plus Apps** to digitized data collection and graphing.

Pre-Employment Transition Solution

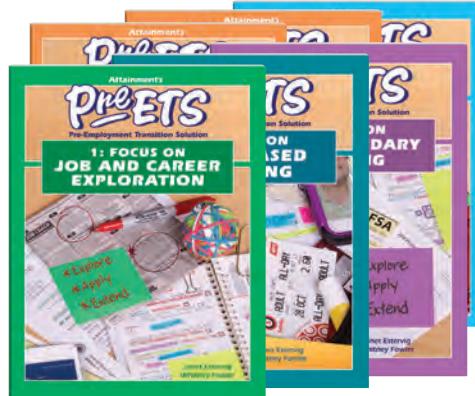

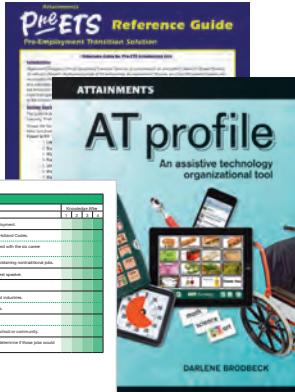

A COMPREHENSIVE TRANSITION CURRICULUM THAT GIVES INSTRUCTORS MULTIPLE RESOURCES TO SUPPORT STUDENTS' TRANSITION OUTCOMES

By Janet Estervig, MS, RN and Whitney Fowler, MED

Instructor's Guide

Reference Guide

6 Student Books, 60 Consumable Workbooks

In this Pre-ETS Solution, you will find the necessary resources to successfully implement each of the five required activities as mandated by WIOA. Lessons are leveled to engage students in meaningful learning through a blended approach of print and technology. It includes the Pre-ETS **Instructor's Guide**, 6 spiralbound **Student Books**, 60 consumable **Student Workbooks**, the **Assessment Manual**, **GoWorksheet Maker** and **Assessment Plus** iPad Apps, sample overlays, a **flash drive** with the **Student Books**, PowerPoints for vocabulary and lesson content, vocabulary worksheets, professional development resources, pre- and post-assessments, and lesson worksheets pulled directly from several of Attainment's transition resources. Purchase this **Pre-ETS Solution** to fully meet WIOA federal law, with lesson topics coming from the recommendations for Pre-Employment Transition Services through WIOA's Technical Assistance Center (WINTAC).

The **Pre-ETS Solution Plus** provides lessons specific to each of the five **WIOA required activities**. Each lesson plan includes an instructor's script, objectives, step-by-step plans, and collaborative resources to **fulfill the requirements of WIOA**. These lessons engage students in meaningful learning to support independent adult living and employment. Lessons are leveled to meet the needs of all learners. Each lesson plan is connected to student worksheets, pictorial instruction, software, apps, and videos.

Implementation of the Pre-ETS Solution Plus will ensure that all students will complete the five required activities as part of Pre-Employment Transition Services in the federal WIOA regulations. To make the Pre-ETS Solution Plus accessible for all students, we've included interactive **GoWorksheet App** activities on the iPad and samples of communication overlays. The **Assessment Plus App** provides further support for teachers to enter data electronically.

ATTAINMENT COMPANY HAS THE SOLUTION FOR IMPLEMENTATION OF WIOA

Pre-ETS Assessment Manual with sample pages

AT Profile with sample pages

The **Assessment Manual** includes formative and summative assessments that cover the WIOA five required activities. The assessments provide valuable information to support the lesson plans in the Pre-Employment Transition Solution and Solution Plus.

The Pre-ETS Assessment Package also includes the **AT Profile Book** to help you organize your AT tool usage for individual students across multiple locations, to help determine the effectiveness of AT interventions, and to provide information for IEP teams.

Assessments found in the package will also be available digitally with the **Assessment Plus iPad App**. This app is an instructor utility that allows you to import any assessment or data collection form and digitize it!

Attainment Academy

EARN CEUS WITH THIS ONLINE PROFESSIONAL DEVELOPMENT SERIES

Two self-paced courses offer video instruction, web-based resources, activities to practice concepts learned, and quizzes after each topic and unit. An end-of-course assessment is included to determine content mastery. Completion of each course provides two CEUs from the University of Wisconsin-Whitewater. The course will provide key concepts, resources, and examples of the best practices in transition and employment. You will receive evidence-based materials and information from years of research by Dr. Paul Wehman in the field of transition and employment.

Attainment Academy

From School to Adulthood

TRANSITION PLANNING FOR YOUTH WITH DISABILITIES

A comprehensive overview of the transition planning process to assist students to reach their vision for the future. Unit topics include transition planning, person-centered planning, self-determination, community resources, going to work and college, life skills, and developing the Transition IEP.

Going to Work

PATHWAY TO EMPLOYMENT FOR YOUTH WITH DISABILITIES

An overview of the pathways to employment for people with disabilities who have historically been unemployed. Unit topics include key employment issues, employer connections, internships and apprenticeships, supported employment, customized employment, and post-secondary education.

Explore Personal Care

ACTIVITIES INCLUDE BASICS LIKE BRUSHING TEETH AND GETTING ALONG WITH FRIENDS

By Don Bastian, Tom Kinney, and Autumn Garza

Explore Personal Care teaches a wide range of independent living skills by focusing on a manageable number of activities: 35 for women, 31 for men. This blended curriculum seamlessly integrates print materials with video and software.

The print component features two gender-specific **Survival Guide** books with corresponding sets of Activity Cards. Activities are presented in a consistent sequence: photo preview, vocabulary, facts, step-by-step illustrations, and helpful tips. **Activity Cards** help students create and follow personal routines. The **Teacher's Manual** includes lesson plans, activity performance checklists, sample Survival Guide pages, and quick reference codes linked to the **Personal Care Videos**. The 19 video segments (on DVD or via online access) present the big ideas in the curriculum like Taking Care of Your Smile and Being Social and Safe. **Personal Success Software** melds the Survival Guides with the videos into easy-to-navigate multimedia programs.

Living on Your Own

ACTIVITIES LIKE SETTING THE TABLE AND LIVING WITH ROOMMATES

By Don Bastian and Tom Kinney

A wide range of housekeeping activities and related interpersonal skills are taught in this curriculum. The heavily illustrated **Survival Guide** features vocabulary, step-by-step activity sequences, comprehension quizzes, and photo essays featuring 34 activities.

Living on Your Own Reader is an engaging, photo-illustrated novella with characters about to graduate from high school. It deals with basic transition issues such as finding a job, having relationships, and living independently. Each chapter ends with a set of comprehension activities: Vocabulary Quiz, Emotion Word Quiz, and Sequence of Events.

Lesson Plans provide topic narratives, student objectives, teacher scripts, and a PDF disc that includes the Survival Guide, Reader, and Activity Assessment Forms.

The 34 **Video** segments on DVD are also available through online streaming. Each segment corresponds to a Living on Your Own activity.

Health Advocacy

ADOLESCENTS AND ADULTS WITH DEVELOPMENTAL DISABILITIES
LEARN TO MAKE GOOD HEALTH DECISIONS

GRADES 6–12

By Steve Holburn, PhD, BCBA; Christine D. Cea, PhD; and Anne Gordon, MSEd

Health Advocacy Program consists of 20 one-hour lessons, each with teacher scripts for discussions and hands-on activities with student worksheets. Covers healthy eating, exercise, relationships, sexuality, stress, and medical issues like high blood pressure, diabetes, and depression. The staff DVD shows the program in action. **Supporting Healthy Lifestyles** is an objective-based tutorial to help educators teach health topics to older students with developmental disabilities. The **Making Healthy Choices Workbook** enhances the health and well-being of learners in the Health Advocacy Program. It has numerous handouts from the other books in the program, includes activities to improve student health, helps students make and achieve personal health goals, and targets parental involvement. Each lesson has fun activities for the classroom and home, a health knowledge question, and a page for jotting down health notes.

The ultimate goal of the **Health Advocacy Curriculum** is to teach participants how to be their own health advocates. Extensively field tested by the authors in New York City adult service agencies. See our website for the published research results.

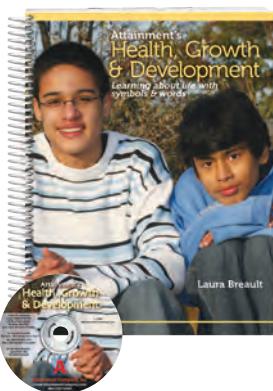

Health, Growth & Development

GRADES 5–12

COMPREHENSIVE HEALTH CURRICULUM FOR STUDENTS IN GRADES 5–12 WHO READ AT A 2ND-GRADE LEVEL OR BELOW

By Laura Breault

Text is adapted with Boardmaker® symbols and simplified language so struggling readers can understand content. Incorporates full-color illustrations on laminated, reusable pages. You can also print additional copies from the PDF disc. Great for one-on-one, small group, or full-class instruction.

The 11 lessons cover personal hygiene, body changes during puberty, wellness, physiology, sexuality, and good touch/bad touch. They feature quizzes in multiple formats embedded throughout each lesson. Includes PDF on disc with a Classroom License for printouts.

Social Skills at School: Elementary

UPDATED WITH FULL COLOR & CONSUMABLE WORKBOOKS

By Tom & Judi Kinney, MS

NEW!

GRADES K-5

Social Skills at School: Elementary

Curriculum	SS-E10J	\$149.00
Curriculum Plus	SS-E30J	\$199.00

Curriculum: Teacher's Guide with flash drive, Student Book, consumable Student Workbook, a DVD, and 1 card set.

Curriculum Plus: The Curriculum plus a total of 10 consumable Student Workbooks, the GoWorksheet Maker iPad App, corresponding GoWorksheet activities, and samples of communication overlays.

The updated **Social Skills at School: Elementary** is a perfect social skills program for elementary students with autism, intellectual, or behavioral disabilities. This new version now comes with five components: **Card Set**, a **DVD**, **Teacher's Guide**, **Student Book**, and consumable **Student Workbook**. Each skill in the **Teacher's Guide** provides teacher guidelines that include an objective with five benchmarks, a problem-solving checklist, and a script for teachers to follow when reviewing the skill with students. The **Student Book**, and new consumable **Student Workbook**, now updated in full color, provides a self-monitoring page so students can easily track their social progress. **Social Skills at School Cards** illustrate 50 typical, daily social skills in school scenarios with five easy steps to follow.

Explore Social Skills

PROVIDES STEP-BY-STEP INSTRUCTION ON IMPORTANT SKILLS

By Judi Kinney, MS

Explore Social Skills

Curriculum	ESS-10J	\$279.00
Curriculum Plus	ESS-30J	\$499.00

Curriculum: Student Book, a consumable Student Workbook, Card Set, DVD, Teacher's Manual with a PDF on disc and a Classroom License for printouts, and the Social Success Software.

Curriculum Plus: The Curriculum plus a total of 10 consumable Student Workbooks, the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, and samples of communication overlays.

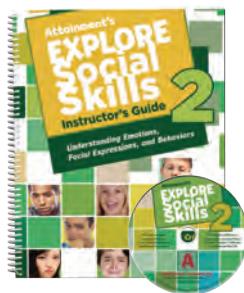

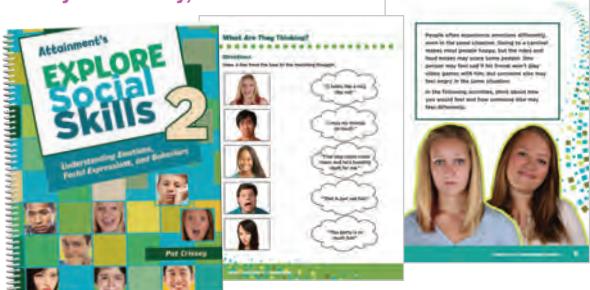

This curriculum focuses on 50 important skills through video modeling, photo-based directions, and role playing. A teacher monitored, self-assessment procedure keeps students engaged in the process.

The **Card Set** has 50 cards. The card front features a photo with the name of the skill like Getting Ready for School. Inside, each skill has five steps with clear and concise photos. On the back, a "self-talk story" provides a skill attainment strategy. The **Student Book** consists of larger versions of the cards, with self-monitoring checklists for each of the 50 skills. The **Teacher's Manual** includes narratives, objectives, teacher scripts, and role play activities. An assessment with all 50 skills helps you organize instruction. The manual also provides 27 supplemental skills, like Respecting Friends. The **Video Modeling DVD** demonstrates each social skill step by step with age-appropriate actors. The **Social Success Software** combines the Student Book with the videos into an easy-to-navigate, interactive program.

Explore Social Skills 2

EMOTIONS, FACIAL EXPRESSIONS, AND BEHAVIORS

By Pat Crissey, MS

Understanding how other people feel is difficult for many students, especially those with autism. Author Pat Crissey tackles this issue head-on by linking emotions with facial expressions and teaching their recognition step by step. Includes a photo-illustrated Student Book and an easy-to-implement Instructor's Guide.

The **Student Book** has five progressive chapters: Understanding Emotions, Basic Facial Expressions, Variations and Intensity of Emotions, Other Facial Expressions, and Putting It All Together. Students are presented with social situations to explore emotional states: Are they happy or sarcastic? How angry would you feel? Activities are heavily illustrated and written at a third-grade reading level.

The **Instructor's Guide** provides clear lesson plans, easy-to-administer assessments, and additional activities that expand Student Book content. All student materials and assessments are included on the PDF disc.

Smile & Succeed for Teens

HELP TEENS ACHIEVE SOCIAL SUCCESS IN LIFE

By Kurt Manecke

Smile & Succeed for Teens is a simple, practical approach to help teens achieve social success at home, work, school, and in the community. The award-winning **Student Book** offers the fastest, easiest way for students to improve people skills and confidence, prepare for a job, collaborate with others, be prepared for tasks/assignments, and get a head start in their careers.

The **Teaching Guide** provides easy-to-follow lesson plans. The practice activities and reproducibles enable students to demonstrate their social skills. This valuable teaching guide generates immediate results for success in school, life, work, and the community. Teens will master essential social skills, prepare for jobs, collaborate, and communicate effectively, while being prepared for each task.

- 2-page essay
- Comprehension activity
- Photo sequence
- Community-based extension

Anticipatory Activity

Essay

Photo Sequence

Social Skill Training

Comprehension Exercise

This comprehensive program covers the basics like *Operating an Elevator* and *Dining in a Fast Food Restaurant*, as well as *Riding the Bus* and *Asking for Help*.

Explore Your Community is a blended curriculum, seamlessly integrating print materials with video, software, and an iPad app. This blended approach increases student engagement while helping you teach students with varying abilities and learning preferences.

The print component features a heavily illustrated **Student Book** with problem solving and comprehension quizzes. Activities are presented in a consistent sequence: anticipatory questions, vocabulary, two-page essay, step-by-step photos, and activity-specific social skills.

The **Instructor's Guide** includes lesson plans, student performance checklists, community extension activities, and role play scenarios.

The 24 video segments on **DVD** present each activity step by step with narrators highlighting important points and relevant social skills.

The **Community Success Software** melds the Student Book with videos for easy-to-navigate multimedia programs.

Stepping Out

USE COMMUNITY-BASED INSTRUCTION TO HELP STUDENTS
LEARN A BALANCED BLEND OF SKILLS

By Ilene M. Schwartz and Megan Best

StepPad also sold separately

3rd Edition
NEW!

Stepping Out

Curriculum	ST-10J	\$199.00
Curriculum Plus	ST-30J	\$299.00
StepPad	ST-P05J	\$49.00

Curriculum: Student Workbook, 2 consumable Workbooks (Book 1 and Book 2), Facilitator's Guide with flash drive, the StepPad, cue cards with convenient pocket book, and related outing overlays.

Curriculum Plus: The Curriculum plus a total of 20 consumable Student Workbooks (10 copies of Workbook 1 and 10 copies of Workbook 2), the GoWorksheet Maker iPad App, a set of corresponding GoWorksheet activities, the GoVisual iPad App with 2 sample outing videos, and sample communication overlays.

MEET COVER ARTIST Barb Priem

Barb Priem is a local artist with a disability who we commissioned to create the artwork used for Stepping Out.

Stepping Out is a comprehensive community-based instruction curriculum that includes a task analysis for 18 community outings, including grocery shopping, eating at restaurants, using the bank, and going to the movie theater.

The included **My Steps Workbook** allows participants to practice prerequisite skills in the classroom before venturing out into the community. The worksheets can be easily photocopied or printed from the **USB flash drive**. Many of the worksheets in the workbook include an enhanced version that can be used with the **GoWorksheet Maker iPad App**.

When participants are ready to step out into the community, Stepping Out's innovative cue system provides visual support for using money, budgeting, transportation, and more! Twenty laminated cues are provided.

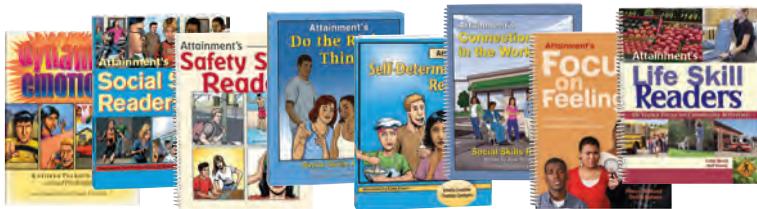

The **StepPad** and the **Stepping Out with the StepPad** overlays serve as additional support tools. The StepPad is a powerful, yet easy-to-use device for people who have difficulty completing multi-step tasks independently. Directions that you record are played back in sequence, one step at a time, to prompt the user on what to do next. The accompanying overlays with scripts contain an activity sequence for each outing.

The **Facilitator's Guide** provides scripted lessons for teaching prerequisite skills for outings, the integration of cues, and a task analysis for each of the 18 outings. Evidence-based strategies like model-lead-test and the system of least prompts are used throughout the curriculum. Teaching procedures and sample role plays are also embedded in the teaching scripts. In addition, outing checklists/data sheets are provided to assist in monitoring progress and promoting independence.

Student Materials

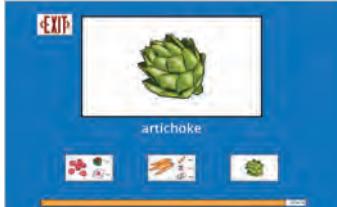

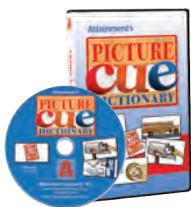

5 Instructor's Guides plus a Cookbook

Life Skills Curricula Series

LSF-15J

\$279.00

The **Instructor's Guides** are self-contained, spiralbound books with measurable objectives, lesson plans, assessment forms, and reproducible, step-by-step activity illustrations. The **Student Materials** set is a classroom-ready, hands-on complement to the five Instructor's Guides, featuring 624 laminated cue cards and a handy **Pocket Book**. The multimedia **Picture Cue Dictionary Software** matches the card illustrations, combining text and speech with an easy-to-use interface. It's ideal for developing functional vocabulary, reviewing to-do lists, or printing out additional cue cards. The **Home Cooking Cookbook** features 37 healthy, easy-to-prepare recipes. Pages are laminated and displayed in an easel binder.

Software is interactive whiteboard ready, scanning capable, and Win/Mac disc-based.

Looking for Words Software

FUNCTIONAL VOCABULARY IN REALISTIC CONTEXTS

An updated Attainment software classic teaches hundreds of words in home, school, and community settings. Students select any object in 24 carefully illustrated scenes for speech and text identification. Animation, engaging graphics, and interesting environments provide student appeal. You determine the words embedded in the scenes to differentiate instruction.

Features list, explore, and scene print options. In the list option, students search for words you assign. Where would you find a basketball, broom, or mailbox? How about a fire hydrant, fire truck, or toaster? The results of the student's search are stored in individual files.

In the explore option, students freely move among home, school, and community locations learning new words as they go. Use the scene print option to create vocabulary exercises or booklets. A great way to integrate sight word instruction with reasoning skills. Ideal for older students learning functional vocabulary.

Whose Future Is It?

SELF-DETERMINATION HAS BECOME A TOP PRIORITY
BEST PRACTICE IN SPECIAL EDUCATION

By Michael L. Wehmeyer, PhD and Susan B. Palmer, PhD

Authors Michael Wehmeyer and Susan Palmer have spent years researching self-determination and developing this program. **Whose Future Is It?** has been proven effective in a large, randomized control group study designed by Dr. Wehmeyer and published in a peer reviewed journal. (See the Attainment website for a research report.)

Whose Future Is It? has four components:

The **Student Reader** focuses on how the IEP process has vital future applications for students with disabilities. It encourages them to explore self-awareness and master skills like problem solving, decision making, goal setting, and small group communication.

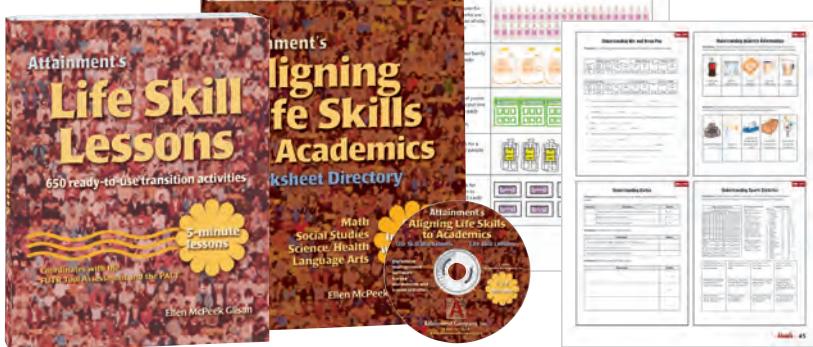

The Student Reader is written at a fourth-grade level and is heavily illustrated. The

Workbook features activities that match Student Reader content, including vocabulary, chapter review, planning worksheets, a glossary, and multiple choice questions. The **Instructor's Guide** combines Student Reader and Workbook materials into a single lesson plan. It includes a disc with PDFs of the Student Reader and Workbook and a customizable Word document of the student worksheets. **Software** adds speech and text highlighting to the Student Reader. As text is read by professional narrators, students can click on any word to hear it spoken. A multiple choice comprehension assessment follows each chapter. All student data are stored.

Aligning Life Skills to Academics

HUNDREDS OF LESSON PLANS ALIGNED DIRECTLY TO GENERAL EDUCATION CURRICULA

By Ellen McPeek Glisan, PhD

This comprehensive program provides 650 lesson plans and corresponding student worksheets aligned directly to the core content areas of math, science/health, social studies, and language arts. Life skill lessons can be taught in as little as five minutes with worksheets completed in class or as homework. Great for teachers to address life skills in the general classroom and for special education teachers to align life skills instruction to general education curricula.

Laminated My Recipe Reader and Measurement Abbreviation Guide

The Ready, Set, Cook! Curriculum comes with multiple components. The Lessons Plans begin by teaching students how to use a color-coded microwave, and understand basic nutrition and safety skills. A laminated Recipe Reader and Measurement Guide help students to customize the serving sizes their recipe creates. The picture-based Cookbook includes 40 step-by-step, illustrated recipes. There are five recipe categories in Ready, Set, Cook!:

Add to It! focuses on basic foods that can be transformed into something more.

Eat Fresh! encourages eating fresh food you prepare yourself.

Make It a Meal! incorporates recipes with a variety of food groups that come together to make a complete and well-balanced meal.

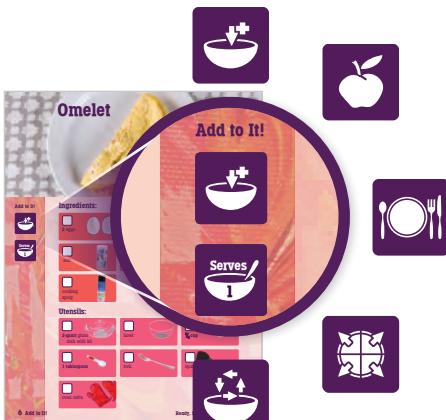

Share It! focuses on the social aspect of eating at get-togethers and making enough food to share with a group.

Use It and Reuse It! introduces the concept of cooking one food and incorporating it into many meals over a week.

Some of the recipes are labeled as *Speed It Up!* with some of the simpler steps cut out or combined to make the recipe more concise.

Life Skill Stories

A LITERATURE-BASED LIFE SKILL CURRICULUM

By Ellen McPeek Gilsan, PhD

The **Six Book Set** includes a total of 120 short stories. They focus on typical teen experiences and skills we all need to navigate life. Each story is five pages and concludes with discussing questions. The **Instructor's Guide** provides a plot summary, review materials, quiz questions, and vocabulary comprehension for each story.

Life Skill Stories

Introductory Kit	LSS-10J	\$79.00
Classroom Kit	LSS-20J	\$499.00

Introductory Kit: 1 six-book set and an Instructor's Guide with a PDF disc.

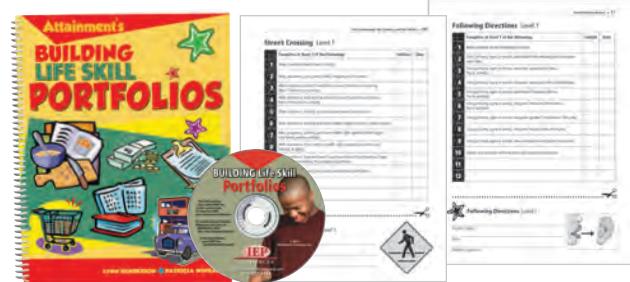

Classroom Kit: 8 six-book sets and an Instructor's Guide with a PDF disc.

Building Life Skill Portfolios

A HIGHLY STRUCTURED, COMPREHENSIVE CURRICULUM HELPING STUDENTS WORK TOWARD INDEPENDENCE

By Lynn Henderson and Patricia Winram

Students build a portfolio they take with them through the grades as they approach graduation. Each of five sections contains 25–40 skill areas that vary in difficulty. Sections include Functional Academics; Home; Outdoors; Recreation and Health; Community, Country, and World.

Building Life Skill Portfolios

Curriculum	BLP-02J	\$49.00
------------	---------	---------

Computers at Work Software

A SKILLS-BASED PROGRAM FOR VOCATIONAL TRAINING

System Manager

Data Entry

Order Processing

Ideal long-term vocational training for school-to-work students. Focus on actual computer skills that prepare users for office jobs. **Computers at Work**, which includes Order Processing and Data Entry, challenges students to work independently for an hour or more while learning real office procedures. As skills improve, students progress from simple tasks to jobs common in today's workplace: entering orders, checking inventories, and determining payment methods.

Begin with **Order Processing** and progress to shipping, billing, payment, and inventory. There are three difficulty levels and 200 printed account cards (software only). **Data Entry** lets students enter information from printed or on-screen account cards. There are three difficulty levels, beginning with one active field and progressing to real-life data entry skills.

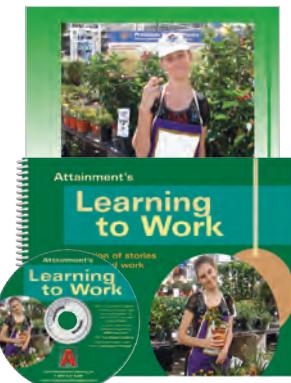

System Manager is a student tracking system that provides data needed for IEPs/transition plans. Student results for each session are recorded, and long-term performance is tabulated.

Learning to Work

A WORK-THEMED LITERACY CURRICULUM

By Caroline Ramsey Musselwhite and Laurel Beck Richardson

Learning to Work is a literacy curriculum for secondary students who do not read conventionally. The 18 photo-illustrated stories are intended to be read with a partner—same-age peer, teacher, or parent. Reading level is grade 1.5.

The work-themed stories feature a simple, consistent structure that uses repetitive phrases to help students focus on the text. Photos correspond closely to story content. The primary characters are people with disabilities shown in actual work settings, like a medical facility or a garden center. An activity page encourages readers to talk about their own experiences. A comprehensive Instructor's Guide and the 18 photo-illustrated stories are included as PDF files. The Guide describes the research-based framework and features hundreds of additional activity pages. Includes the Learning to Work book and a disc with PDF files. Also available as a talking eBook in ePub format—ideal for the iPad.

Conversation Skills

A CURRICULUM TO HELP STUDENTS INITIATE AND EXTEND CONVERSATIONS

By Dr. Marilyn Banks, EdD

Teach students with developmental disabilities to initiate and maintain conversations. Featuring two books full of extensively field tested lessons for conversations on the job, at home, and with friends in school.

Book I includes 50 lessons, each with an Objective Page for the teacher and Self-Managed Assignments for students. Skills are introduced in the classroom through role playing and guided practice sessions and then implemented independently by the student. Book I can take only 12 weeks of biweekly, 10-minute training sessions.

Book II stretches the range of effective conversations acquired in the first volume. Emphasis is placed on learning and remembering personal names, making small talk, and initiating workplace dialog. Includes PDFs on discs with Classroom License for printouts.

Conversation Skills

Curriculum CJ-05J \$69.00

Job Search

A PROGRAM FOR LEARNING HOW TO FIND, CHOOSE, AND GET THE RIGHT JOB

By Ellen McPeek Glisan, PhD

Features the JobWeb disc and the Job Ads & Career Paths book. Students use **JobWeb** to get valuable vocational information by exploring 30 simulated websites. Exploration is guided by structured activities like learning job search vocabulary, investigating company backgrounds, expressing interest in jobs via email, and printing job applications. The **Job Ads & Career Paths** book focuses on the work application process. Includes 150 student worksheets that can be photocopied or printed from PDFs. Worksheets cover job comparisons and interest matching. Includes PDF on disc with a Classroom License for printouts, plus the JobWeb disc for website simulations.

Community-Based Vocational Training

CREATE AND MAINTAIN COMMUNITY-BASED EXPERIENCES

By Jill Wheeler, PhD

Hands-on vocational experiences for students with significant disabilities. A how-to manual that helps you create and maintain community-based experiences for students. The book's 10 chapters follow a sequence to successful job placement—from getting started to on-site job training. Stresses functional assessments, transition planning, and supportive employment options.

By using our reproducible materials, you can spend more time with students and potential employers.

Includes PDF on disc with a Classroom License for printouts.

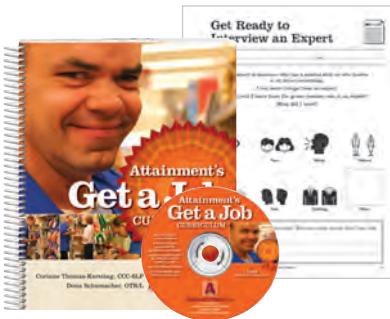

Community-Based Vocational Training

Program CB-02J \$49.00

Get a Job

PREPARES STUDENTS FOR SUCCESSFUL JOB INTERVIEWS

By Corinne Thomas-Kersting, MS, CCC-SLP and Dona Schumacher, OTR/L

Focus on preparing students for a job interview with the **Get a Job Curriculum**. The interview format models basic skills for success in the job interview as well as core skills for success in the work setting.

The book has a sequence of 20 structured lessons. Each lesson features a measurable objective, teaching suggestions, and multiple student handouts. The handouts can be photocopied or printed from the PDF. The curriculum encourages the use of videotaping to assess and review interviewing skills. Skill areas include personal appearance, knowing yourself, knowing your skills, and asking appropriate questions. Extensively field tested in Portland Public Schools. Includes PDF on disc with a Classroom License for printouts.

Get a Job

Curriculum GJ-02J \$29.00

Job Coaching Strategies

A CONCISE, GOAL-ORIENTED STAFF DEVELOPMENT PROGRAM

By Steve Tenpas

The **Job Coaching Strategies** manual and DVD follow the chronology of a successful job placement—from getting to know your client to maintaining employer relations.

The manual illustrates techniques and strategies and provides useful forms like functional assessments. By Steve Tenpas, who has 15 years of experience teaching job coaches. The DVD focuses on Nick, a young man with multiple disabilities. Interviews with Nick's parents, job coach, and employer demonstrate the concepts discussed in the manual. It also features a step-by-step assessment interview with an expert explanation of each topic by Janet Estervig. Includes PDF on disc with a Classroom License for printouts.

Job Coaching Strategies

Program JC-17J \$59.00

Academic Work Activities

LINK HANDS-ON ACTIVITIES TO GENERAL EDUCATION STANDARDS

Incorporates money, time, measurement, numeracy, sequencing, and functional sight words. Activities include everything you need to set up an academically-based work activity program.

Buy all and save!
Academic Work Activities

AWA-16J

\$825.00

Includes: All 10 activities shown below.

Number Line Assembly

Place color-coded pegs in a number line (0–10) to solve printed problem cards. Three levels progress from matching to add/subtract problems. Includes 3 number lines, problem cards, 60 pegs, bins and boxes, and instructions.

Number Line Assembly

400-J \$119.00

Clock Setting

Set hands-on model clocks to match printed time cards. Three levels of difficulty: by the hour, by the minute, and elapsed time. Includes 24 plastic model clocks, time cards, bins, and instructions.

Clock Setting

402-J \$79.00

Magnet Assembly

Construct magnet assemblies to match printed model cards. Three levels of difficulty require students to match the number and color of magnets and washers and whether they repel or attract. Includes 60 ring magnets in 6 colors, washers, rods with stoppers, packaging tubes, model cards, bins, and instructions.

Magnet Assembly

404-J \$129.00

Cube Weighing

Weigh plastic cubes in grams with a digital scale to match printed cards. Three levels of difficulty require varying weight tolerances. Includes 400 plastic cubes in 2 colors, digital scale, bins, reusable zipper bags, printed cards, bins, and instructions.

Cube Weighing

406-J \$99.00

Month Card Packaging

Insert month cards into vinyl pockets to answer prepared questions. Three levels of difficulty progress from basic matching to looking up answers in an illustrated calendar. Includes question and response cards, monthly calendar, 30 vinyl pockets, 12-compartment tray, storage bins, and instructions.

Month Card Packaging

408-J \$79.00

Money Packaging

Package coins and bills to match printed money cards. Three levels of difficulty: coins only, \$1–\$10, \$1–\$100. Includes 2 money trays with realistic coins and bills, cards, envelopes, bins, and instructions.

Money Packaging

401-J \$79.00

Clip Sequencing

Follow basic patterns by attaching wooden clips to printed pattern cards. Three levels of difficulty feature AB, ABB, AAB, and ABC patterns. Includes 150 clips in 4 colors, pattern cards, bins, box, and instructions.

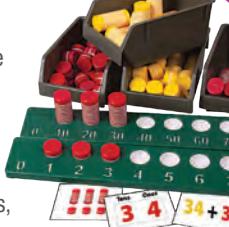

Clip Sequencing

403-J \$79.00

Place Value Packaging

Place pegs into bags to solve math problems. The striped pegs represent numbers. For example, 34 is made with 3 large and 4 small pegs. Number lines help students check their work. Three levels progress from matching to double digit addition. Includes 2 number lines, problem cards, 100 pegs, bins and boxes, and instructions.

Place Value Packaging 405A-J \$129.00

Day Card Packaging

Insert day-of-the-week cards into vinyl pockets to answer prepared questions. Three levels of difficulty. Includes question and response cards, weekly planner, 24 vinyl pockets, 12-compartment tray, storage bins, and instructions.

Day Card Packaging

407-J \$79.00

Shopping Card Packaging

Insert shopping cards into vinyl pockets to answer prepared questions. Three levels of difficulty progress from basic sorting to completing picture/word shopping lists. Includes 288 color-coded shopping cards stored in a 12-compartment tray, question cards, 30 vinyl pockets, storage bins, and instructions.

Shopping Card Packaging

410-J \$79.00

Pre-Voc One

PV-17J

\$865.00

Includes: All 10 activities shown below.

Brush and Comb Sort and Assembly

A basic sorting assembly task with clear tactile variation between the brushes and combs. Items also vary in color, providing the option of color matching with assembly. Includes 18 brushes, 18 combs, bins, and instructions.

**Brush and Comb Sort
and Assembly**

100B-J \$89.00

Basic Size Sort

A basic sort by length with obvious dowel size differences in the standard task. An easier color-coded variation is also provided. Includes 180 plain dowels, 80 color-coded dowels, bins, and instructions.

**Basic Size Sort
103-J**

\$69.00

Spoon Sort

A basic size and material task using familiar everyday items. Includes 36 metal spoons, 24 plastic spoons, 2 cutlery trays, bins, and instructions.

**Spoon Sort
101-J**

\$79.00

Comb Set Assembly

The most basic 2-piece assembly task. Large quantities of quality combs slip smoothly into vinyl holders. Includes 50 combs, 50 holders, bins, and instructions.

**Comb Set Assembly
200-J**

\$79.00

Cue Variable Sort

A flexible task that allows sorting of 2-36 types of pieces. Users learn to ignore irrelevant dimensions. Includes 216 plastic chips in 3 colors, 3 shapes, and 2 sizes; bins; and instructions.

**Cue Variable Sort
105-J**

\$89.00

Pre-Voc One

TEN BASIC WORK ACTIVITIES USE RECOGNIZABLE MATERIALS

Each includes step-by-step instructions, data collection reports, and all the necessary bins and boxes.

Plastic Pipe Assembly

A simple 2-, 3-, or 5-piece assembly task that requires little strength. Includes 60 PVC tubes, 30 PVC couplings, a jig, bins, and instructions.

**Plastic Pipe Assembly
203-J**

\$109.00

Toothbrush Tube Assembly

A simple match and insert task using familiar products. Includes 48 toothbrush tubes in 3 colors, a jig, bins, and instructions.

**Toothbrush Tube Assembly
300-J**

\$99.00

Highlight Pen Packaging

A basic 4-item inserting and packaging task. Match highlighters to a color pattern pad and place in a display box. Includes 48 highlighters in 4 colors, 12 boxes, 12 pads, bins, and instructions.

**Highlight Pen Packaging
301-J**

\$159.00

Colorful Nut and Bolt Assembly

Users learn shape matching and turning skills. Includes 32 plastic bolts in 4 shapes and 32 matching plastic screws, bins, and instructions.

**Colorful Nut and Bolt Assembly
202-J**

\$79.00

Color Match Collating

Users learn color matching, sequencing, and inserting while following changing patterns. Includes 50 colored sheets, 45 patterned envelopes, bins, bin dividers, and instructions.

**Color Match Collating
302-J**

\$99.00

Pre-Voc Two

PV-20J

\$1095.00

Includes: All 10 activities shown below.

Six Item Sort

Mid-range sorting task introduces inspection and quality control. Includes 120 metal plates of 6 types, bins, and instructions.

Six Item Sort

108-J \$119.00

Rubber Parts Sort

Sort 12 industrial rubber parts into 3 categories. Users learn category concepts and visual differences. Has 240 rubber parts, bins, and instructions.

Rubber Parts Sort

109-J \$139.00

Pencil Packaging

An assembly, inserting, and packaging task. Includes 144 pencils, 144 erasers, 30 plastic tubes, 60 caps, a jig, bins, and instructions.

Pencil Packaging

303A-J \$99.00

Key Ring Assembly

A 2-part press and push assembly. Attaching the rings increases the complexity of the task. Includes 40 metal key rings, bins, and instructions.

Key Ring Assembly

205A-J \$99.00

Coupling Assembly

A mid-range, 3-piece turning task using an industrial compression coupling. Includes 100 metal nuts and 50 bases, bins, and instructions.

Coupling Assembly

205-J \$119.00

Hose Nozzle Assembly

A simultaneous turning and assembly task using a durable, familiar product. A jig is provided for one-handed assembly. Includes 24 plastic hose nozzles, a jig, bins, and instructions.

Hose Nozzle Assembly

206-J \$99.00

Four Compartment Packaging

Users select materials and package following a sample. A mid-range pattern packaging task. Includes 192 small parts, 24 plastic boxes, bins, and instructions.

Four Compartment Packaging

303-J \$159.00

Snap Box Packaging

A mid-range packaging task using counting skills. Use its unique counting jig for simple number matching. Includes 80 snap boxes, 250 insert plates, a number jig, bins, and instructions.

Snap Box Packaging

304-J \$129.00

Container Packaging

Requires 5-piece assembly of containers prior to packaging. Users learn inserting, snapping, and packaging. Includes 100 caps and containers in 2 sizes, 50 inserts, 5 boxes, a jig, bins, and instructions.

Container Packaging

305-J \$129.00

Dice Packaging

A mid-range pattern packaging task. Users learn inserting, snapping, and pattern matching skills. Includes 216 dice in 3 colors, 72 dowels, 36 snap boxes, bins, and instructions.

Dice Packaging

305A-J \$99.00

Buy all and save! Pre-Voc Three

PV-30J

\$1795.00

Includes: All 10 activities shown below.

Twenty-Four Item Sort

A 2- to 24-item sort of anodized aluminum pieces. A difficult task requiring attention to 3 relevant dimensions—color, shape, and thickness. Includes 120 aluminum pieces, bins, and instructions.

Twenty-Four Item Sort

110-J \$219.00

Connector Assembly

A 5-piece fine motor and tool use task that requires inserting, turning, and using a screwdriver with industrial cable connectors. Includes 36 connectors, a screwdriver, bins, and instructions.

Connector Assembly

207-J \$119.00

Weighing and Bagging

A weighing task using a dial-face scale, also involving bagging and zipping. Includes a 16 oz. platform scale, 225 metal plates, 50 plastic zip bags, bins, and instructions.

Weighing and Bagging

307-J \$249.00

Flashlight Assembly

Put it together and see if it works. Seven-piece assembly requiring inserting, sequencing, and turning. Correctly assembled, the light goes on. Includes 24 pen flashlights, bins, and instructions.

Flashlight Assembly

209-J \$195.00

Sprinkler Assembly

A complex task requiring sophisticated turning and sequencing manipulations to assemble this durable 7-piece item. Includes 24 plastic underground lawn sprinklers, bins, and instructions.

Sprinkler Assembly

210-J 155.00

Pre-Voc Three

TEN SOPHISTICATED WORK ACTIVITIES USE RECOGNIZABLE MATERIALS

Each includes step-by-step instructions, data collection reports, and all necessary bins and boxes.

Clip and Ring Assembly

Slide metal and plastic rings on spring loaded carabiner clips. The clips are large (3" x 1½") and easy to open and close. Twenty-four clips and 180 rings in 6 colors.

Clip and Ring Assembly

210A-J \$129.00

Faucet Assembly

Industrial quality PVC faucets assemble in exact sequence using a screwdriver. The most difficult assembly task. Includes 12 faucets, a screwdriver, bins, and instructions.

Faucet Assembly

211-J \$165.00

PVC Connector Assembly

A 5-part assembly task with a packaging component using an off-the-shelf PVC electrical connector. Includes 32 PVC connectors, 16 clear 5-compartment plastic boxes, bins, and instructions.

PVC Connector Assembly

306A-J \$199.00

Bagging and Heatsealing

Introduces use of industrial equipment—a heatsealer. Involves counting, bagging, sealing, and packing. Includes 360 plastic poker chips in 3 colors, 500 plastic bags, a heatsealer, bins, and instructions.

Bagging and Heatsealing

308B-J \$219.00

Office Supplies Processing

Package office supplies in divider boxes following directions (words or symbols) on order cards. A complex packaging task. Includes 32 divider boxes, 64 order cards in 2 difficulty levels, hundreds of supplies like pencils, rulers, erasers, paper clips, and rubber bands.

Office Supplies Processing

309-J \$299.00

Training

IEP & SLP RESOURCES!

PROFESSIONAL DEVELOPMENT!

CONSUMABLES! ENHANCEMENTS!

Best Practices in Special Education

AN ESSENTIAL PD SERIES FOR ALL SPECIAL EDUCATORS

This new professional development series demonstrates best practices in special education. Each of the topics provides detailed descriptions of each subject matter, along with PDFs, PowerPoints, photos, and videos for additional support. An easy-to-use QR code takes you directly to these resources for immediate viewing. Supporting references are provided, along with assessments at the end of each training piece to test your knowledge.

A certificate of completion will be generated once mastery has been achieved (100%). This certificate can easily be shared with administrators and other supervisory staff.

Upon completion of each series, one CEU is awarded through the University of Wisconsin-Whitewater.

In order to provide quality content, we've hand selected experts in the field to empower both veteran and new educators to meet unique students' needs. Whether it's **Teaching Students with ID and Autism** or **Communication Disorders** or **Mastering the IEP or Transition Process**, we've got the training toolkit you need. Read more details about each series on the following page.

Each training toolkit comes with a laminated reference guide with an access code to the **Best Practices** website with additional content. Each series can be used as a standalone or in conjunction with the others to serve as a PD model or a training workshop. Ideal for your professional development throughout the school year.

Teaching Students with Intellectual Disability and Autism ENHANCE INSTRUCTIONAL PROCEDURES AND STUDENT OUTCOMES

By Ginevra Courtade, PhD

Time Delay is a systematic and errorless instructional procedure in which a prompt is provided after a certain interval of time and naturally fades.

System of Least Prompts is a strategy in which a teacher progresses through a prompting hierarchy (starting with the least intrusive to the most intrusive) in order to elicit a correct student response.

Model-Lead-Test provides students with multiple opportunities to practice a new skill with direct teacher involvement.

Embedded Instruction is explicit, systematic instruction designed to give students instructional trials within the ongoing routines and activities of the students' day.

Task Analytic Instruction is the process of breaking down a skill or behavior into steps in order to teach one step at a time.

Teaching Students with Communication Disorders

EVIDENCE-BASED STRATEGIES TO MEET LEARNERS' NEEDS

By Courtney Seidel, MS, CCC-SLP and Trici Schraeder, MS, CCC-SLP

Making Learning Meaningful and Rewarding (social and tangible rewards, communication temptations, mass and distributed practice)

Meeting the Learner's Needs (cloze technique, pause time, minimal pair contrasts, checking for understanding, and self-correction)

Scaffolds and Supports (chunk and chain, modeling and imitation, scripts, carrier phrases, expansions and extensions)

Clear Expectations/Consistent Feedback (clear objective, specific verbal praise, general verbal praise, specific corrective feedback, general corrective feedback)

Maximizing Time/Focused Learning (foreshadowing, attending cue, evoked production, redirection, reactive conflict resolution)

Mastering the IEP Process

COLLABORATE AND IMPROVE EDUCATIONAL RESULTS THROUGH THE IEP

By Cynthia Herr, PhD and Mary Ann Winter-Messiers, PhD

What Is an IEP? defines what an IEP is, its purpose, its development, and the elements that need to be included in the IEP.

Understanding IEP Meetings emphasizes the importance of IEP meetings and who is required by law to attend.

Supporting Parents as Partners discusses the integral role of parents in the IEP meeting and how staff can take steps before, during, and after the meeting to reassure the parent.

Writing Measurable IEP Goals and Objectives defines measurability in relation to the IEP, along with conditions/givens, observable learner performance, criterion or level of performance, selecting goals, and ultimately writing goals and objectives.

Writing Measurable Functional and Transition Goals describes what makes a goal functional as well as how task analysis helps in the context of functional goals.

Mastering the Transition Process

CREATING ACCESS TO EMPLOYMENT OPPORTUNITIES FOR YOUTH WITH DISABILITIES

By Janet Estervig, MS, RN

Workforce Innovation and Opportunity Act (WIOA) examines the key regulations of WIOA, including its impact on youth as well as students and adults with disabilities.

Pre-Employment Transition Services (Pre-ETS) outlines the five required Pre-ETS activities as defined by WIOA: Job Exploration, Work-Based Learning, Post-Secondary Training, Workplace Readiness, and in Self-Advocacy.

Discovery Process highlights this person-centered approach to match a person's interests and talents with the most appropriate work environment(s).

Job Developer Professional Development focuses on the primary role of the job developer—business engagement.

Job Coach Professional Development emphasizes the instrumental role of the job coach in supporting workers with disabilities to be successful in seeking and maintaining competitive integrated employment.

ALCOT

AUTISM & LOW INCIDENCE CLASSROOM OBSERVATION TOOL

By Dr. Rob Pennington, PhD, BCBA-D

Associate Professor
Dr. Rob Pennington, PhD,
BCBA-D UNC-Charlotte

ALCOT Checklist tablet
also available on the
Assessment Plus
iPad App

ALCOT Implementation Plan

Providing high quality instruction for individuals with moderate-to-severe disabilities is a difficult task for both the new and experienced teacher. Many new teachers may leave their undergraduate or graduate program with just enough knowledge and practice to obtain employment and start the school year. Experienced teachers often find that by the end of each school year unforeseen obstacles have prevented them from providing the quality instruction they had envisioned at the school year's start.

Administrators have varied responsibilities across many classrooms and are not always fully aware of the needs of students with low incidence disabilities.

The **Autism and Low Incidence Classroom Observation Tool (ALCOT)**, built upon decades of special education research, is a powerful resource to help you identify the quality teaching strategies and standards that should be present in all classrooms for students with moderate-to-severe disabilities regardless of the curriculum chosen. ALCOT provides an easy, one-page tool around which teachers and administrators can collaborate and, together, identify the classroom's strengths as well as areas for improvement. Districts ensure fidelity to quality special education services when they routinely use ALCOT!

ALCOT

One Classroom License ALC-10J \$99.00

Five Classroom Licenses ALC-50J \$249.00

One Classroom License: ALCOT Guidebook, 1 paper tablet (40 copies) of the ALCOT Checklist, 1 paper tablet of the ALCOT Implementation Plan, and a USB flash drive for printouts. The Assessment Plus iPad App is also included so administrators and teachers can easily use the checklist (or any assessment) in a digital format—see app details on page 59.

Five Classroom Licenses: 5 copies of everything listed.

FEATURES

- Researched and evidence-based quality classroom strategies
- Covers the 6 essential classroom traits: Environment, Instruction, Instructional Supports, Behavior Management, Communication, and Staff Interactions
- Easy, one-page observation protocol
- Identifies classroom strengths to promote mentoring
- Collaborative tool for administrators, teachers, specialists, and paraprofessionals
- Practical action plans to improve areas of need
- Demonstrates measurable results

Professional Development (PD) Solution

FUNDAMENTAL TRAINING TOOLS FOR ALL SPECIAL EDUCATORS

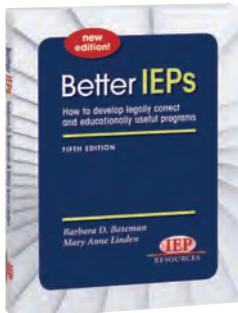

Professional Development Solution

PDS-30J \$429.00

Includes: One Classroom License for ALCOT and the 5 titles from each of the 4 Best Practices Series (20 total).

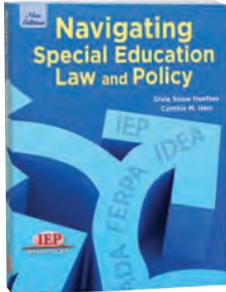

Providing high quality instruction for students with significant disabilities can be a difficult task for both new and experienced teachers. The **Autism and Low Incidence Classroom Observation Tool (ALCOT)** covers the six essential classroom elements: *Environment, Instruction, Instructional Supports, Behavior Management, Communication, and Staff Interactions*. The **ALCOT** provides an easy, one-page checklist around which teachers and administrators can collaborate and, together, identify the classroom's strengths as well as areas for improvement. To help implement change in these specific areas of need, our **PD Solution** provides four Best Practices Series—**Teaching Students with Intellectual Disability and Autism, Teaching Students with Communication Disorders, Mastering the IEP Process, and Mastering the Transition Process**. 1 CEU will be awarded upon completion of each **Best Practices Series** through UW-Whitewater.

Print Book IP-05J \$59.00
eBook EB-IP-05J \$29.00

Better IEPs is a revised and enhanced edition of the ultimate guide to understanding IEPs from a legal standpoint. A classic in its field, Better IEPs presents a three-step process that zooms in on the individual student and dismisses the one-size-fits-all approach. Gives all educators confidence and know-how to develop competent IEPs. By Barbara D. Bateman and Mary Anne Linden.

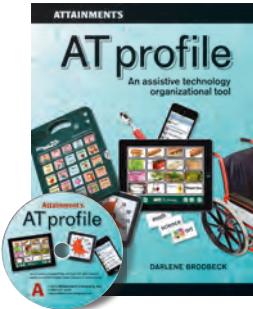

Print Book NSE-02J \$59.00

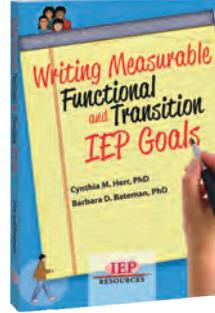

Print Book IP-07J \$25.00
eBook EB-IP-07J \$10.00

Better IEP Meetings is an important book because IEP meetings can provide reassurance for everyone involved, or they can cause participants to lose confidence in the process. Drs. Cynthia Herr and Barbara Bateman carefully consider how to make your IEP team meetings better by presenting a clear, three-stage framework.

Print Book ATP-02J \$12.00
Package ATP-03J \$49.00

Navigating Special Education Law and Policy is a landmark publication updated in 2012. This comprehensive guide to special education rights and responsibilities covers IDEA and No Child Left Behind regulations, ADA, Section 504, Rights and Privacy Act, court decisions, and updated statistical data. It provides a conceptual foundation for understanding all aspects of special education law. By Dixie Snow Huefner and Cynthia M. Herr.

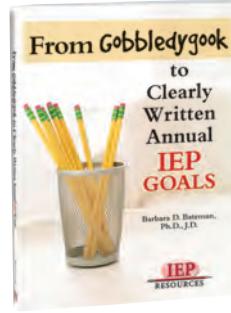

Print Book IP-29J \$25.00
eBook EB-IP-29J \$10.00

Writing Measurable Functional and Transition IEP Goals focuses on students with significant disabilities who don't get sufficient instruction in functional or measurable skills. Skill areas covered include social, communication, transportation, self-care, and independent living. By Cynthia M. Herr and Barbara D. Bateman.

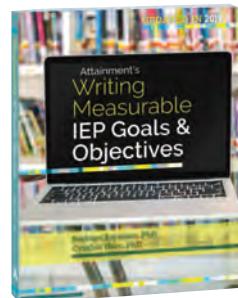

Print Book SG-F02J \$69.00
Book & Apps SG-F10J \$199.00
eBook EB-SG-F02J \$59.00

AT Profile organizes your AT tool usage for individual students across multiple locations, helps determine the effectiveness of AT interventions, and provides information for IEP teams. Covers communication, vision, seating, mobility, academics, and daily living activities. Available as a package with the book plus a disc with PDF, Classroom/Caseload License for printouts, and customizable Word documents for entering profile data. By Darlene Brodbeck.

Print Book IP-25J \$25.00
eBook EB-IP-25J \$10.00

From Gobbledygook to Clearly Written Annual IEP Goals is a best seller. Why? Writing clear, measurable annual IEP goals is a difficult skill to master. The good news is that it's easy once the steps are revealed. Dr. Barbara Bateman takes poorly written goals and turns them into productive ones by focusing on just four ideas: observable behavior, measurable criteria, a condition for success, and a final test.

Print Book IP-02J \$35.00
eBook EB-IP-02J \$10.00

Language and Learning: A Framework for Inclusive Design details Madalaine Pugliese's systematic framework and presents seven stages of cognitive and language development. Each stage is outlined with learner considerations, relevant issues, communication strategies, tips for evaluating software, and a checklist for moving on to the next stage. Includes research, published articles, and recommended software/apps.

Writing Measurable IEP Goals and Objectives is a must-have for all special educators. This professional resource can help change the way special educators view the IEP, from a burdensome process to an extremely valuable document.

New practice exercises provide teachers the opportunity to discern whether an IEP goal is either measurable or not and to give reasons why. By Barbara Bateman and Cynthia Herr.

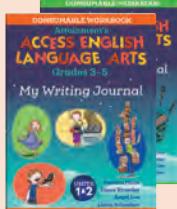

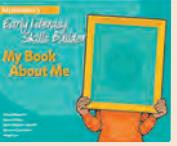

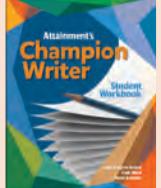

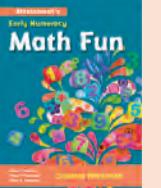

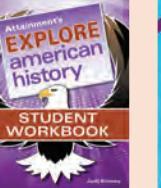

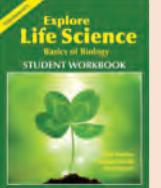

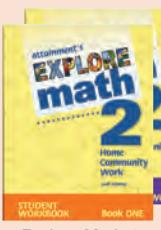

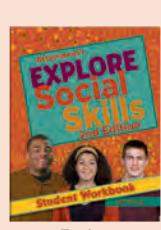

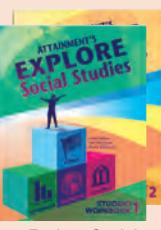

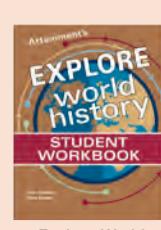

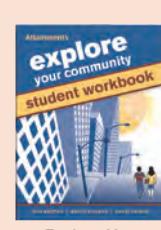

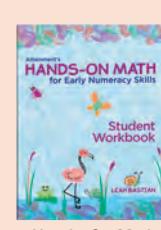

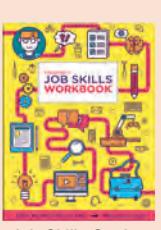

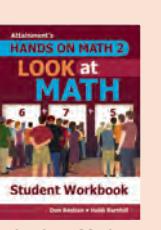

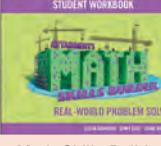

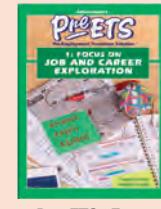

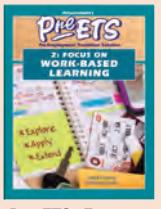

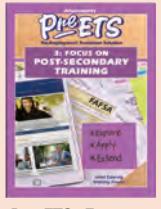

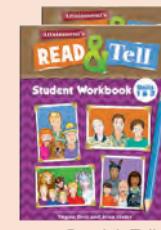

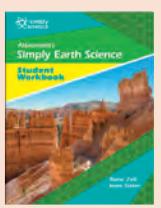

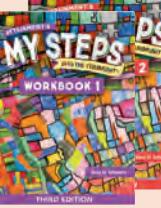

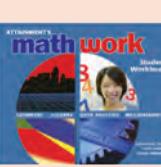

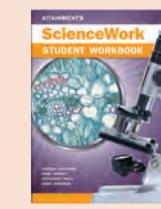

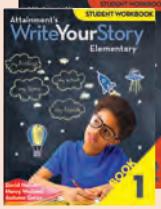

Consumable Workbook 10-Packs

CONSUMABLE, COST-EFFECTIVE WORKBOOKS THAT ALLOW STUDENTS TO WRITE IN - AND KEEP - THEIR WORK!

Want to reduce printing costs and enhance student engagement? Attainment's new Curriculum Plus Kits add an alternative option for teachers and school districts who'd like to replenish their student materials every year. The Curriculum Plus Kits gives students the opportunity to have their own workbooks at an affordable price with packs of 10 available for just \$69. Students feel pride in having their own workbook to share with peers and parents.

Please note that the workbooks are to be used as a supplement to the actual curriculum workbooks and should not be used as a standalone.

Curriculum Enhancements

BOOST YOUR CORE CURRICULUM

Whether you've adopted Attainment's Core Solutions or have a different core curriculum in place, our six Enhancement packages for students with an intellectual disability or autism will enrich your lessons in English language arts and math (for elementary and secondary), math tools, and transition. Each component has been hand-selected for its ease of use and effectiveness with a purposeful blend of print, software, and manipulatives to meet the needs of unique learners.

Enhance Academics: Elementary ELA

REINFORCE STUDENT LEARNING OF ELA CONCEPTS

Enhance Academics: Elementary ELA

EN-ELA10J

\$159.00

The **Everyday Readers** (page 24) provide a tiered approach for age-appropriate read-alouds and comprehension activities. **Picture Directions** (page 46) promotes independence and teaches sequencing and reading skills through step-by-step picture directions. **The Language Builder: Sequencing Cards** (see website) introduce and build sequencing skills, storytelling, and more. **Bailey's Book House** (see website) teaches concepts like prepositions, letter sounds, and story comprehension through a collection of stories and activities.

Enhance Academics: Secondary ELA

AUGMENT YOUR LESSONS IN ELA

Enhance Academics: Secondary ELA

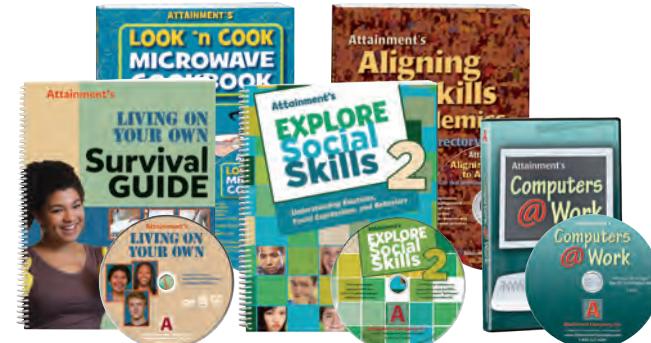

EN-SLA10J

\$179.00

The **Writing with Purpose Student Book** (page 23) focuses on descriptive, sequential, and comparative writing. The **Explore World History Student Book** (page 49) highlights informational text with a sequence of 97 lessons from Early Humans to Modern Times. The **Explore Social Studies Student Book** (page 47) provides 50 illustrated essays with corresponding comprehension activities at two distinct reading levels. The **Looking for Words Software** (page 80) teaches hundreds of words found in home, school, and community settings.

Enhance: Transition

PROMOTE INDEPENDENCE AND SELF-DETERMINATION WITH SUPPLEMENTAL LESSONS AND ACTIVITIES

Enhance: Transition

EN-TR10J

\$279.00

The **Explore Social Skills 2 Student Book** (page 75) helps students understand emotions, facial expressions, and behaviors. The **Look 'n Cook Microwave Cookbook** (page 83) presents easy-to-do recipes with picture directions. The **Living on Your Own Survival Guide** (page 72) uses step-by-step activity sequences to teach housekeeping and interpersonal skills. The **Computers at Work Software** (page 84) prepares students for office jobs. The **Aligning Life Skills Worksheet Directory** (page 81) includes 650 life skills activities that align to math, social studies, science, and literacy.

Enhance Academics: Elementary Math

REINFORCE STUDENT LEARNING OF MATH CONCEPTS WITH EXTENSION LESSONS AND ACTIVITIES

Millie's Math House

(see website) includes interactive activities that cover foundational math skills like numbers, counting, arithmetic,

patterns, and problem solving. **MatchTime Software** (page 37) teaches time in four progressive levels. Three **TimeWheels** (page 38) show both digital time and its analog equivalent. The **Adapting Math Curriculum** (page 38) teaches money and basic math skills with assessments, benchmarks, and worksheets. The **Budget Town** game (page 38) uses color-coding, cash transactions, and picture cues to teach money skills.

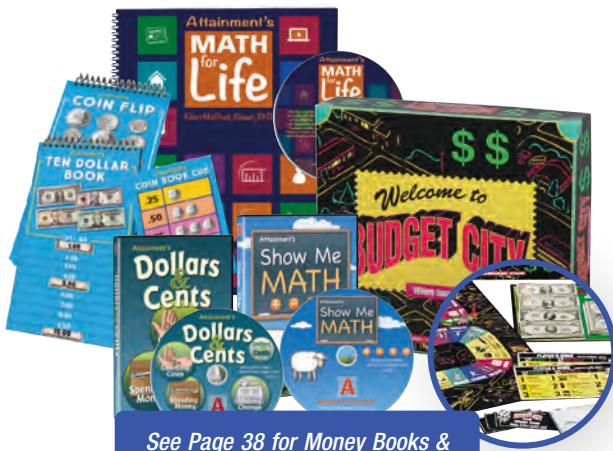

Enhance Academics: Elementary Math

EN-EM10J

\$169.00

Enhance Academics: Secondary Math

BOOST STUDENT UNDERSTANDING OF MATH FUNDAMENTALS WITH BLENDED PRINT AND SOFTWARE

See Page 38 for Money Books & other classroom accessories

Dollars & Cents

Software (page 36) highlights the progression of money skills: Counting Coins, Spending Money, and Making Change. **Show Me Math Software** (page 36) links computation with objects using an animated movie for all four math operations. **Money Books** (page 38) simplify money identification through laminated cue books. The **Math for Life** Student Book (page 35) helps students learn six fundamental math concepts like measurement and percent through clear illustrations, graphic organizers, and high interest stories. The **Budget City** interactive math game (see website) gives students practice in paying with checks, credit cards, or cash.

Enhance Academics: Secondary Math

EN-SM10J

\$229.00

Enhance: Math Tools

HANDS-ON MATERIALS PLUS ILLUSTRATED STUDENT EXERCISES

Enhance: Math Tools

EN-MA10J

\$299.00

Look at Math (page 32) covers a wide range of concepts with a 120-lesson Instructor's Guide, a heavily illustrated Student Book, and a PDF for printouts.

Place Value Packaging (page 86) is a hands-on activity, requiring students to use number pegs to solve place value and addition problems. **Talking Calculator** (see website) gives students auditory feedback when solving computations. Six laminated **Day Planner Books** (page 38) simplify daytime schedules. **Hands-On Money** (page 38) provides an organized collection of realistic bills and coins. A set of **Coin Cubes** (see website) are included for students to use in a variety of games.

OK Different: Memoir of a Special Educator

A PIONEER'S JOURNEY FOR DISABILITY RIGHTS

By Diane Browder, PhD

OK Different is an inspiring story of Diane Browder's remarkable life and career in special education.

Diane Browder, PhD, is Distinguished Professor Emerita of Special Education at the University of North Carolina at Charlotte. In **OK Different**, Diane shares her life's journey and passion. She reconstructs the history of changing laws and attitudes toward services for, and expectations of, individuals with disabilities during her 40-year career—which began when there were no school programs for this population. She shares this history through stories of her personal encounters and encounters with individuals who would not be defined by their disability.

Diane's memoir is authentic and delightful reading. It is also an excellent textbook for special education courses that explore critical topics, such as laws, trends, advocacy, and making the least dangerous assumptions about individuals with moderate-to-severe disabilities. Written to give future professionals a sense of history they may not know it is Diane's hope that future teachers will have a passion for creating more inclusive options, setting ambitious goals, and witnessing remarkable achievements.

OK Different

Aligning IEPs Package

GUIDES FOR WRITING MEANINGFUL IEP GOALS THAT ALIGN TO ACADEMIC STANDARDS

By Bree Jimenez, PhD; Ginevra Courtade, PhD; and Diane M. Browder, PhD

Federal regulations require the IEP to be aligned to academic standards for the grade in which a student is enrolled, but this can be challenging when the student's assigned grade level and academic/functional performance level differ. **Aligning IEPs to State Standards** guides you through the process.

Six Successful Strategies for Teaching to State Standards

explains the process of IEP writing and aligning to state standards.

This companion book explains best practices and procedures for implementing the IEP. To quote its authors, "It serves as the next logical step toward the implementation of a standards-based IEP for students with moderate-to-severe disabilities." Includes a PDF on disc with a Classroom License for printouts.

Also includes a book set for **Aligning to Texas Essential Knowledge & Skills (TEKS)**.

Aligning IEPs

Package AI-10J \$99.00

Aligning IEPs to TEKS
