Attainment Company is a leading developer in curricula and alternative and augmentative communication resources to support individuals to succeed in school, work, and life!

Our annual catalog cover design contest is an opportunity for individuals receiving special services across the United States to showcase their talent. **The winner will be featured inside our annual catalog with a cover design based on the prompt: What's cool about your school? One lucky artist will be selected for this showcase and will receive a \$500 prize for their artwork.** We ask that artists consider our products, mission, and past catalogs when designing their cover.

The contact information provided with each entry will be used to contact the winner and to gather the original artwork and artist information. Submissions may be received digitally through the entry form on our website or sent directly to our corporate office. Attainment Company reserves the right to alter any design to best fit the requirements of our catalog.

## **What should my design include?**

Please depict what's cool about your school. The design may be a single-themed piece or a collage of images. The winning work of art will be used for our 2021 catalog cover. Artwork should fit proportionately to an 8.5" x 11" portrait-oriented (vertical) page.
