SOCIAL SUCCESS

Social Success Software is an interactive social skill tutorial for adolescents and adults with developmental disabilities, including autism. Fifty skills are shown in an easy-to-navigate interface, so students can work independently or in self-directed groups. Each skill has five activities: Intro, Steps, Self-Talk, Movie, and Problem Solving.

Student Log In

Social Success will automatically log in users as Guest until one or more user login accounts have been created. Students' answers to comprehension questions are not saved when logged in as Guest. Once accounts are created, the program will open to the Log in window.

At the Log in window you can log in a student, log in as Guest, go to the program's Options, or quit the program. Select a student name from the pull-down list or tap the Guest button. To add student names, tap on the gear icon  to open Options. [Options](#) is where you add student accounts, view student scores, and adjust preferences, including scan settings.

A student's completed activities will be saved when the student is logged in with their name. Results of their completed activities can be viewed in [Options—Results](#). Results are not stored for the login Guest.

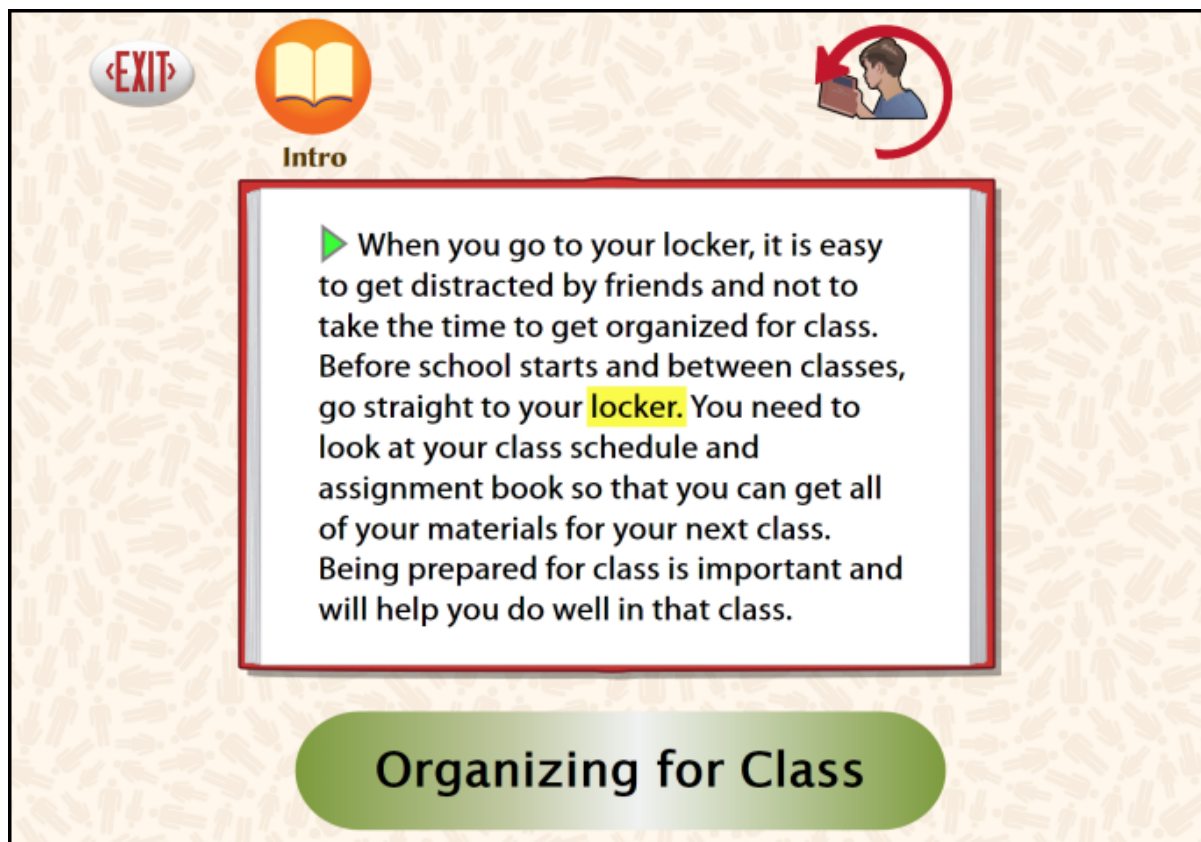

ACTIVITIES

Once a category is opened, skills are presented one at a time. For each of the 50 skills, information is provided through five activities: Intro, Steps, Self-Talk, Movie, and Problem Solving. The activity buttons are above the image representing the skill.

Intro

Tap on the Intro icon to open a page or two of informational text regarding the skill in the bottom bar.

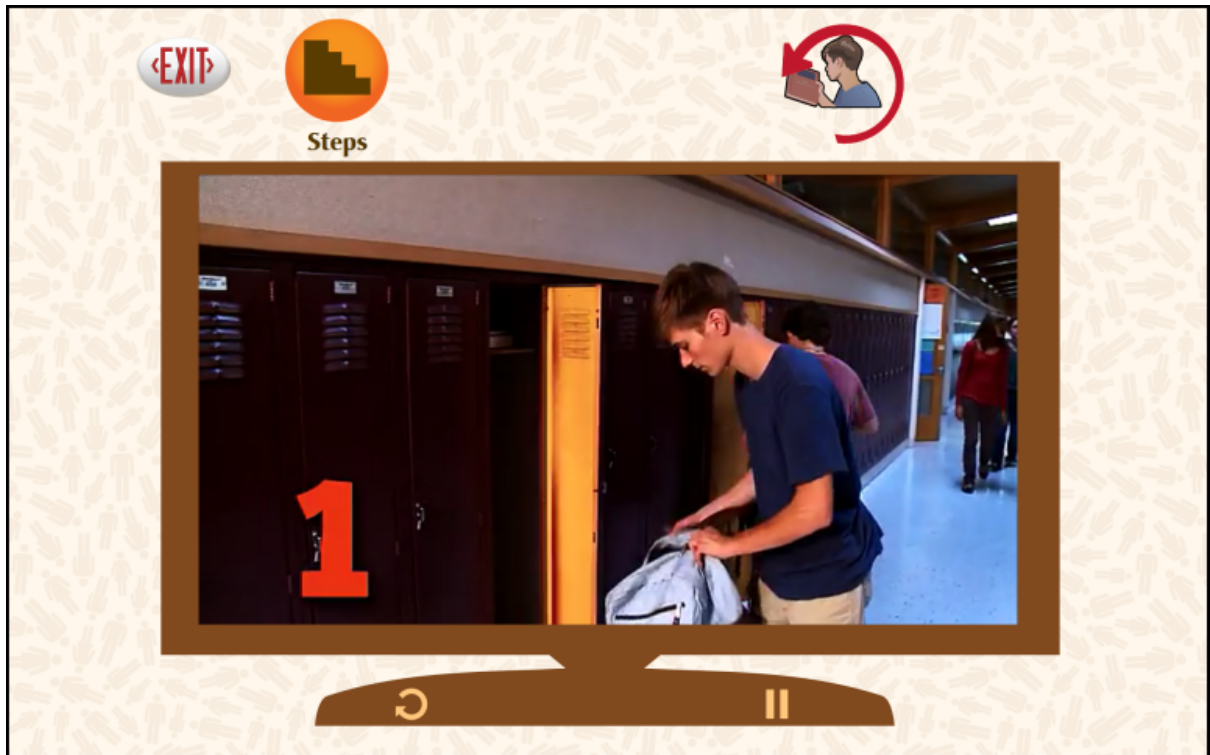

The text will automatically be read aloud unless you turn off this feature in Settings. To hear the page read again, tap on the small triangle at the beginning of the first sentence. To hear a single word, tap directly on the word.

When there's more than one page of text, use the forward and back arrows to turn the pages. Tap on the Intro icon to go back to page one. Tap on the skill icon in the upper right corner to exit Intro and return to the skill's main page. Tap on the text in the bottom bar to hear the skill read aloud.

Steps

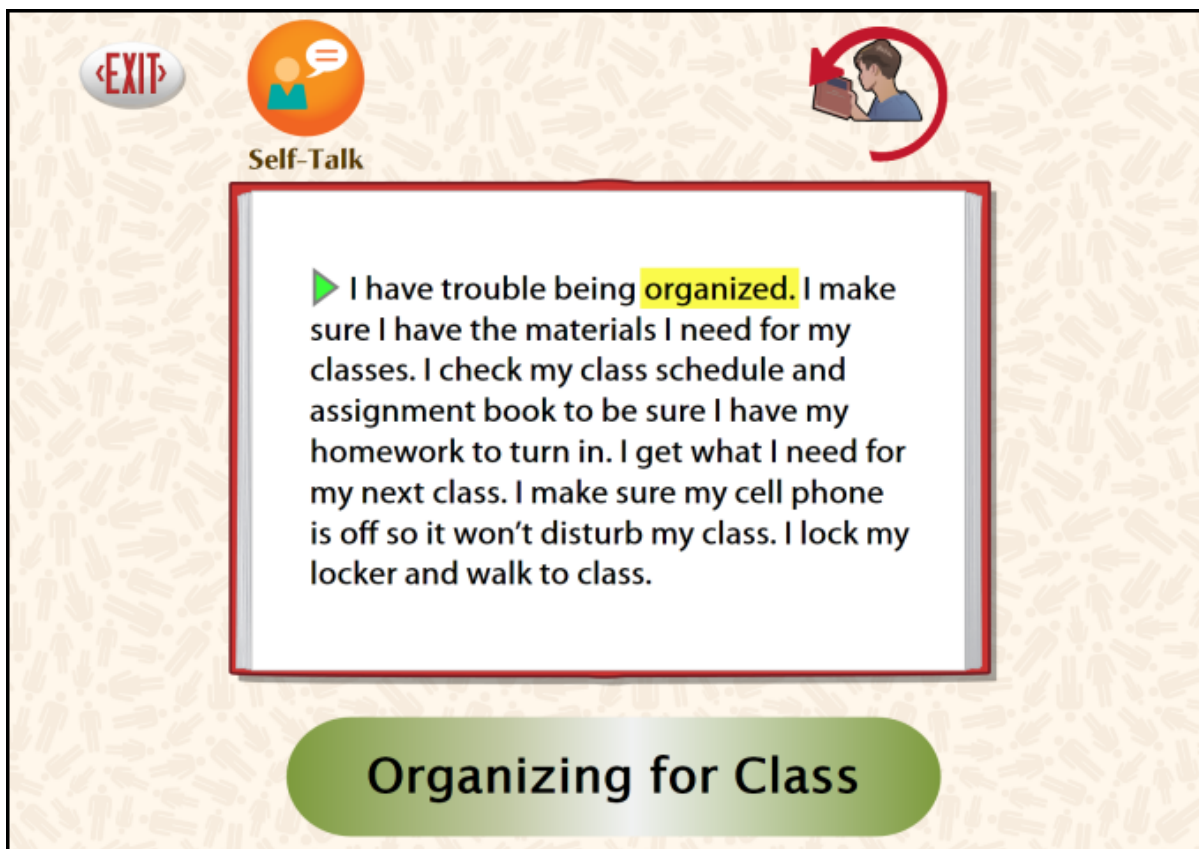

Tap on the Steps icon to view a video that outlines important steps in the skill.

Tap on the Steps icon again to restart the video. Tap on the skill icon in the upper right corner to exit Steps and return to the skill's main page. Replay and Play/Pause video controls are located below the movie.

Self-Talk

Tap on the Self-Talk icon to review social skills important for the skill.

The text will automatically be read aloud unless you turn off this feature in Settings. To hear the page read again, tap on the small triangle at the beginning of the first sentence. To hear a single word, tap directly on the word.

When there's more than one page of text, use the forward and back arrows to turn the pages. Tap on the Self-Talk icon to go back to page one. Tap on the skill icon in the upper right corner to exit Self-Talk and return to the skill's main page. Tap on the text in the bottom bar to hear the skill read aloud.

Movie

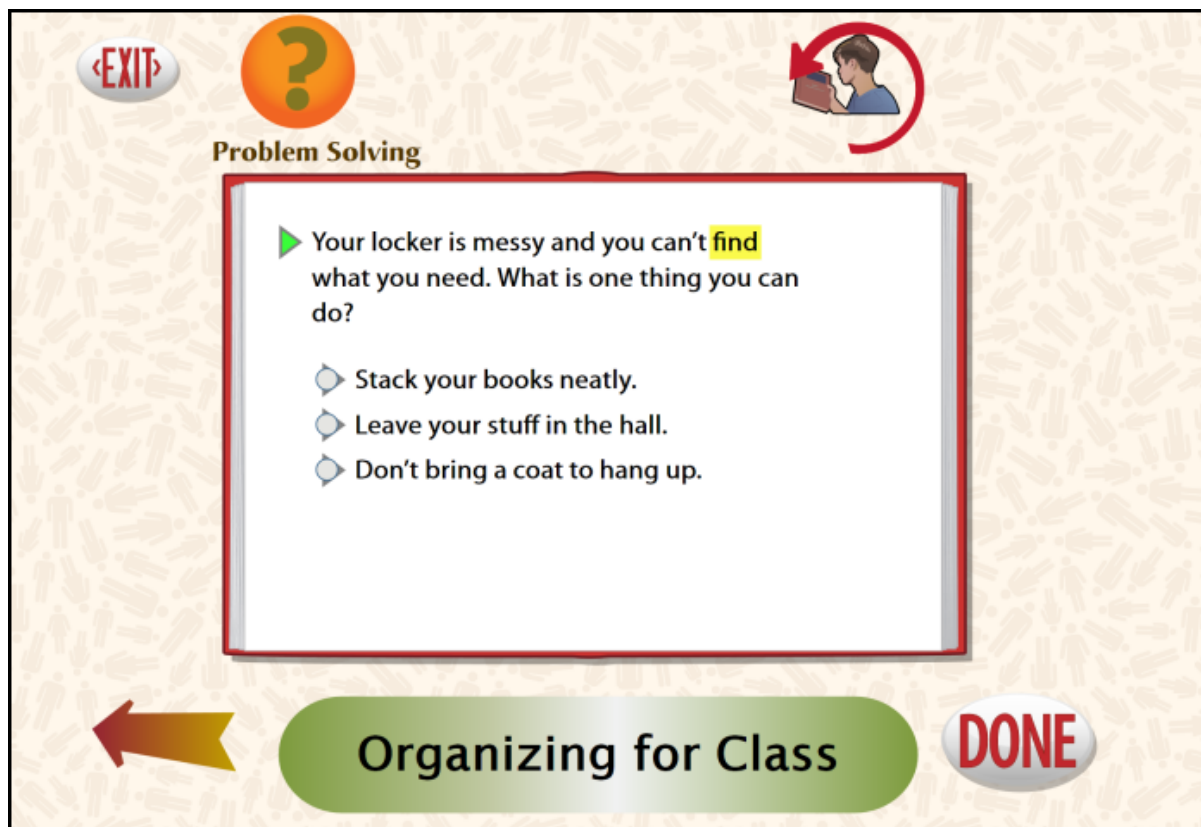

Tap on the Movie icon to view a video that explores the skill.

Tap on the Movie icon again to restart the video. Tap on the skill icon in the upper right corner to exit Movie and return to the skill's main page. Movie controls (Replay and Play/Pause) are located below the video.

Problem Solving

Tap on the Problem Solving icon to view questions that focus on appropriate social skills related to the skill. There are two questions for each skill.

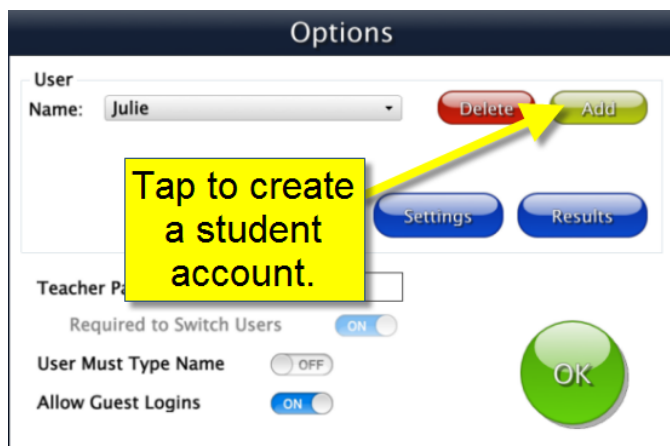

The text will automatically be read aloud unless you turn off this feature in Settings. To hear the question read again, tap on the small triangle next to the text. To hear a single word, tap directly on the word. Tap on the Problem Solving icon to hear the question again. Tap on the skill icon in the upper right corner to exit Problem Solving and return to the skill's main page.

OPTIONS-ADD NAMES

Open Options to add student login accounts, view settings, and view results.

To open Options, tap the gear icon  in the upper right corner on the category selection screen. If it asks for a password and you have forgotten your password, Attainment will always work as a password.

Add Student Account

To add a student account, tap the Add icon, type the student's name, and tap Next. The Add User - Icon window appears, which allows you to include a photo next to the student's name on the login menu. Tap Cancel to skip this step. To take a photo, first select the iPad's front or back camera. Then tap Snapshot to take the photo. When you're satisfied with the photo, tap Finish.

Delete Student Account

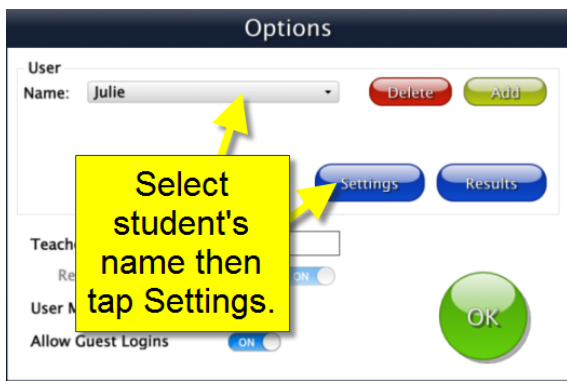

Delete a student account by selecting the user name from the drop-down list of names and then tap Delete.

General Options

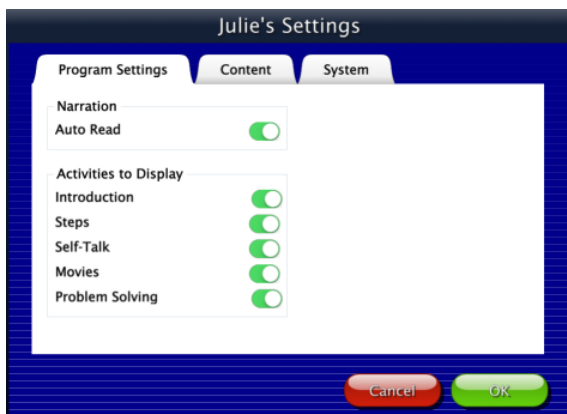

- **Teacher Password** allows you to create an optional password that needs to be typed to open Options. As a backup, Attainment will always work as a password. Password is not case sensitive: upper or lower case does not matter.
- Turn On **Required to Switch Users** to extend the password requirement to include switching users from the story selection screen.
- Turn On **Users Must Type Name** to require all students to type their login name.
- Turn Off **Allow Guest Logins** to remove Guest as a login option. When a student is logged in as Guest, results are not saved. Guest can be removed as a login choice only after one or more login names have been added.

Settings

To adjust a student's settings, select their name from the drop-down menu and tap Settings on the Options screen.

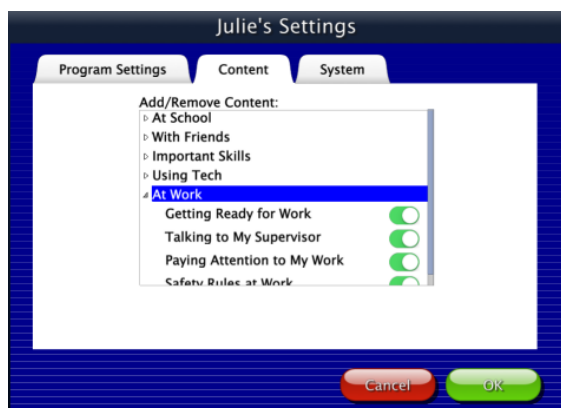

Social Success has three tabs in Settings: Program Settings, Content, and System.

Program Settings Tab

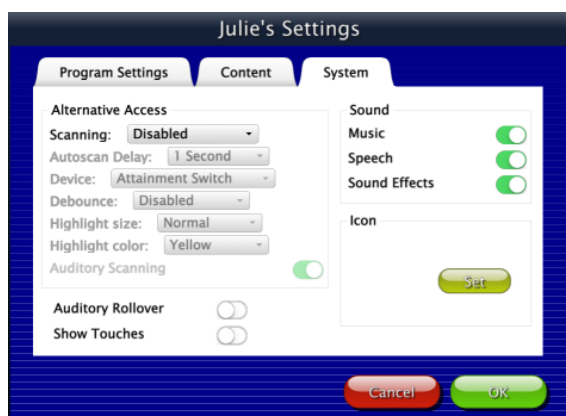

Narration—Auto Read: Default is On, text pages are read automatically.

Activities to Display—Introduction, Steps, Stories, Movies, Problem Solving: Default is On, the icons are available for the student to select.

Content Tab

All 50 skills are available by default. Turn off skills to hide them from the student's directory.

System Tab

Alternative Access: Built-in scanning provides program access with switches. To use scanning, select one or two switches; by default scanning is disabled. Selecting one or two switches enables multiple scan settings such as Highlight color and Auditory Scanning.

Auditory Rollover: Move and pause the cursor over items to hear auditory confirmation.

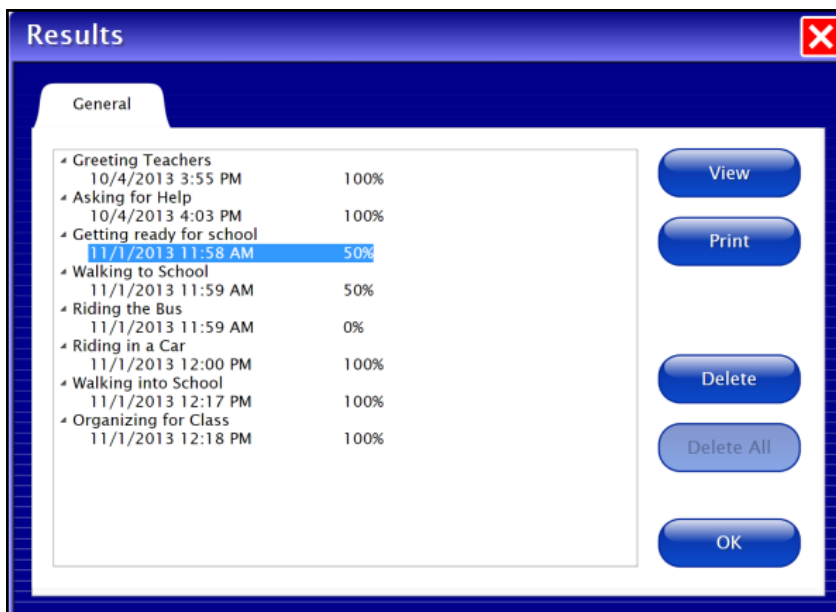

Show Touches: A white circle outline appears at the point of contact between a finger and the iPad glass.

Sound: Sound components can be turned off.

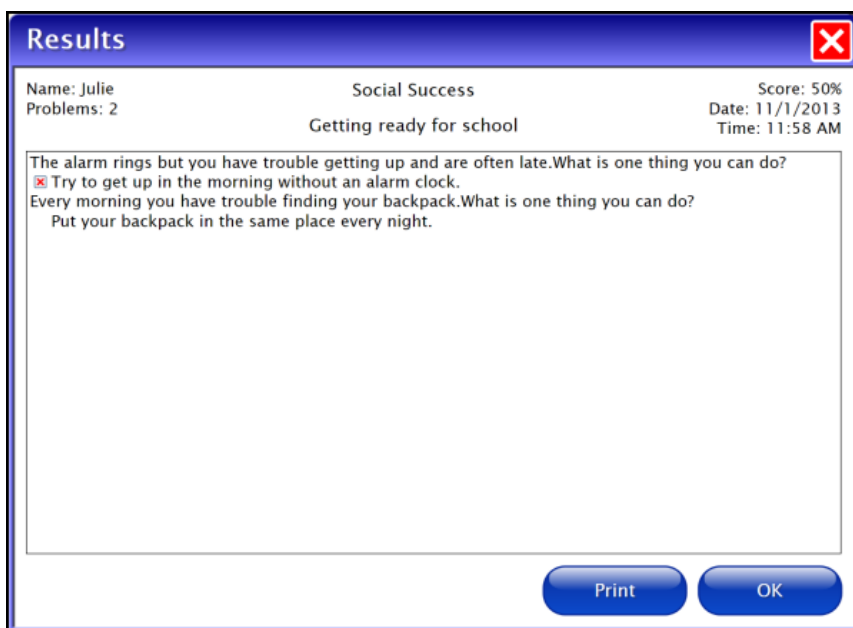

Icon: Click on Set to select a photo or image this student will see by their name on the Log in window.

Results

Responses to the two Problem-Solving questions are saved when students are logged into their account. To view saved Results, open Options and select the Results button. Results are not saved while logged in as Guest.

To view details, highlight an entry and tap View.

Technical Support

If you have a problem running Social Success, please call Attainment Technical Support at the number below. If possible, have your iPad nearby while we discuss solutions.

You can speed the process if you collect some basic information ahead of time:

- What was the error and type of error message, if any?
- What triggered the problem?
- Can you duplicate the problem?
- What iPad version and iOS are you running?

Tech Support is available weekdays from 9 am - 5 pm (CST)

Phone: 800-327-4269 or 608-845-7880

Email: techsupport@AttainmentCompany.com
