# Electricity

# The Electricity Went Out

The electricity went out. I could not listen to the

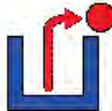

radio, so I played the piano.

The electricity

went out.

My

little

sister

could

not

make a snack

in

the microwave,

so

she

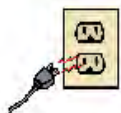

ate

some

grapes.

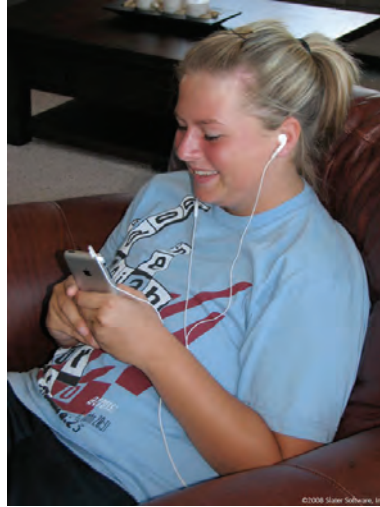

The electricity went out. My dad could not work

on the computer, so he played fetch with our dog.

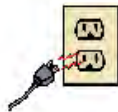

The electricity went out. My big sister could not

watch TV, so she listened to her iPod.

©2008 Slater Software, Inc.

The electricity

went out.

My

mom

and

could

not

wash

the clothes,

so

we

played

at the

park.

The electricity went out. We could not do lots

of things, but

we

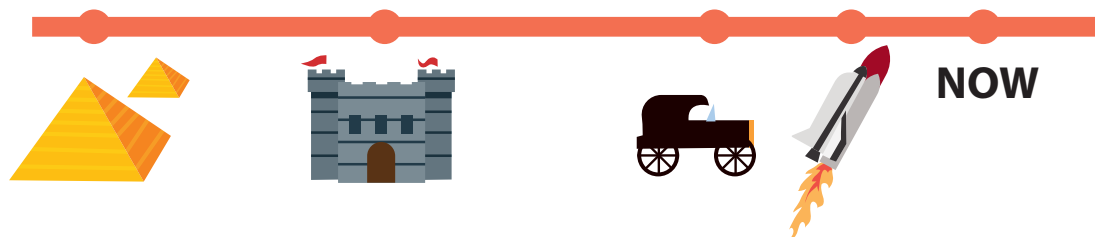

still

had fun!

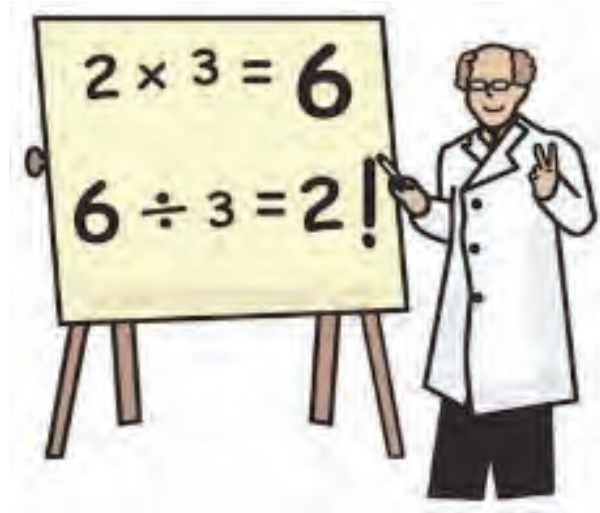

## Benjamin Franklin

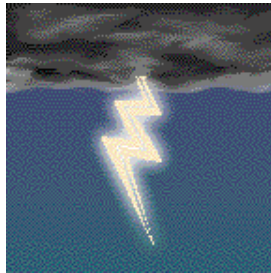

A long, long time ago...

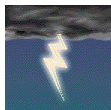

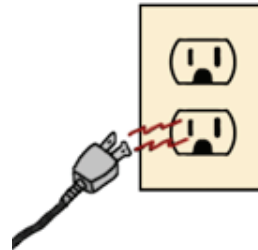

Ben Franklin wanted to show...

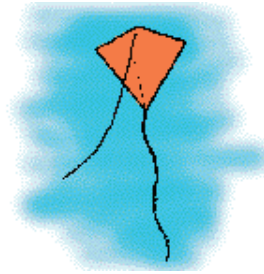

=

Lightning was electricity...

1   in the city...

+

&

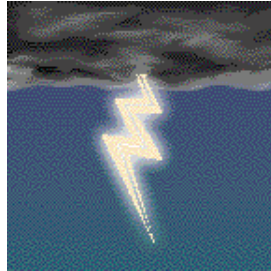

He got a kite and a key...

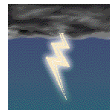

&     the  for  to  see...

And flew it up in the air for everyone to see...

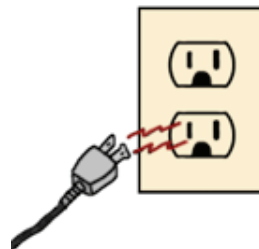

+

Lightning hit the key...

=

&  
And now we know that lightning is electricity!
